The main driver of inequality—returns on capital that exceed the rate of economic growth—is again threatening to generate extreme discontent and undermine democratic values. Thomas Piketty's findings in this ambitious, original, rigorous work will transform debate and set the agenda for the next generation of thought about wealth and inequality. The Conquest of Happiness is Bertrand Russell's recipe for good living. First published in 1930, it pre-dates the current obsession with self-help by decades. Leading the reader step by step through the causes of unhappiness and the personal choices, compromises and sacrifices that (may) lead to the final, affirmative conclusion of The Happy Man For decades, filmmakers worldwide have been remaking Hollywood movies in colorful ways. They've chronicled a singing and dancing Hannibal Lecter in India, star-crossed lovers aboard the doomed Nigerian ship Titanic, a Japanese expedition to the planet of the apes, and an uncivil war in Turkey between Captain America and a mobbed-up Spider-Man. Most of these films were low budget and many were unauthorized, but all of them were fantastic--and lately have begun to resurface thanks to cherry-picked YouTube clips. But why and how were they made in the first place? This book tells the little-known stories of the wily filmmakers who made an Italian 007 flick by casting Sean Connery's tradesman brother, produced a Turkish space opera by stealing a print of Star Wars for its effects footage, and transported a full-fledged Terminator to the present day--not from a post-apocalyptic future, but from the vibrant mythology of Indonesia. Their stories reveal more than mere imitations; they demonstrate the fascinating ways ideas evolve as they cross borders.

*Still considered one of the best books ever written about bullfighting, Death in the Afternoon is an impassioned look at the sport by one of its true aficionados. It reflects Hemingway's conviction that bullfighting was more than mere sport and reveals a rich source of inspiration for his art. The unrivaled drama of bullfighting, with its rigorous combination of athleticism and artistry, and its requisite display of grace under pressure, ignited Hemingway's imagination. Here he describes and explains the technical aspects of this dangerous ritual and "the emotional and spiritual intensity and pure classic beauty that can be produced by a man, an animal, and a piece of scarlet serge draped on a stick." Seen through his eyes, bullfighting becomes a richly choreographed ballet, with performers who range from awkward amateurs to masters of great elegance and cunning. A fascinating look at the history and grandeur of bullfighting, Death in the Afternoon is also a deeper contemplation of the nature of cowardice and bravery, sport and tragedy, and is enlivened throughout by Hemingway's sharp commentary on life and literature.*

*Few actors in Tamil cinema have been as loved as M.N. Nambiar. Admired for his intense acting prowess, particularly his portrayals of villains, he was also revered as a guruswami (spiritual leader). Nambiarswami provides an in-depth look into his public persona and personal life, which he fastidiously kept separate from one another. From growing up in Ooty and joining the gritty world of travelling drama troupes to achieving stellar success in the Tamil film industry, this book takes the reader on an engaging journey narrated by the man himself, as told to his grandson Dipak Nambiar. The foreword by J. Jayalalithaa and stirring anecdotes from his family and industry friends make this book a fascinating portrait of the great actor who was equally adept in his roles as a hero and a villain, and widely respected as a spiritual man.*

Hitherto, the academic study of Indian cinema has focused primarily on Bollywood, despite the fact that the Tamil film industry, based in southern India, has overtaken Bollywood in terms of annual output. This book examines critically the cultural and cinematic representations in Tamil cinema. It outlines its history and distinctive characteristics, and proceeds to consider a number of important themes such as gender, religion, class, caste, fandom, cinematic genre, the politics of identity and diaspora. Throughout, the book cogently links the analysis to wider social, political and cultural phenomena in Tamil and Indian society. Overall, it is an exciting and original contribution to an under-studied field, also facilitating a fresh consideration of the existing body of scholarship on Indian cinema.

Celluloid Classicism provides a rich and detailed history of two important modern South Indian cultural forms: Tamil Cinema and Bharatanatyam dance. It addresses representations of dance in the cinema from an interdisciplinary, critical-historical perspective. The intertwined and symbiotic histories of these forms have never received serious scholarly attention. For the most part, historians of South Indian cinema have noted the presence of song and dance sequences in films, but have not historicized them with reference to the simultaneous revival of dance culture among the middle-class in this region. In a parallel manner, historians of dance have excluded deliberations on the influence of cinema in the making of the "classical" forms of modern India. Although the book primarily focuses on the period between the late 1920s and 1950s, it also addresses the persistence of these mid-twentieth century cultural developments into the present. The book rethinks the history of Bharatanatyam in the twentieth century from an interdisciplinary, transmedia standpoint and features 130 archival images.

Film Music: A History

**This is a quintessential book for Cinema buffs and particularly those who are passionate about Tamil cinema, which has the distinction of having played a significant role in history of films in India. Tracing the evolution of Tamil films from the time of pre-independence, when it was anathema for local Congress leaders to be associated with the celluloid, to the arrival of an American, Ellis Dungan, who made masterpieces like Meera, the book showcases vignettes about every important milestone in the vast canvas of Tamil films. In the almost ten decades of its evolution, Tamil cinema has grown to exert a dominant influence on the social and political life of Tamil Nadu in a manner that is unparalleled elsewhere in the world. This seminal volume is an analytical study of Tamil cinema both as an art form and as a socio-political force. Theodore Baskaran traces its history, and presents the achievements of many filmmakers with colourful insights. For the film buff as well as the serious student of film studies, The Eye of the Serpent is a handy reference book on several aspects of Tamil cinema - its character and evolution, the songs and songwriters, filmmakers and script writers, the beginnings of the unique nexus between cinema and politics in Tamil Nadu and much more.**

From Bombay (Mumbai) and other production centres on the Indian subcontinent, Indian popular cinema has travelled globally for nearly a century, culminating in the Bollywood-inspired, Oscar-winning film Slumdog Millionaire. This volume brings together perspectives on Indian popular cinema, universally known as Bollywood now, from different disciplinary and geographical locations to look afresh at national cinemas. It shows how Bollywood cinema has always crossed borders and boundaries: from the British Malaya, Fiji, Guyana, Trinidad, Mauritius, and East and South Africa to the former USSR, West Asia, the UK, the USA, Canada, and Australia. While looking at the meanings of nation, diaspora, home, and identity in cinematic texts and contexts, the essays also examine how localities are produced in the new global process by broadly addressing nationalism, regionalism, and transnationalism, politics and aesthetics, as well as spectatorship and viewing contexts.

Film Music: A History explains the development of film music by considering large-scale aesthetic trends and structural developments alongside socioeconomic, technological, cultural, and philosophical circumstances. The book's four large parts are given over to Music and the "Silent" Film (1894--1927), Music and the Early Sound Film (1895--1933), Music in the "Classical-Style" Hollywood Film (1933--1960), and Film Music in the Post-Classic Period (1958--2008). Whereas most treatments of the subject are simply chronicles of "great film scores" and their composers, this book offers a genuine history of film music in terms of societal changes and technological and economic developments within the film industry. Instead of celebrating film-music masterpieces, it deals—logically and thoroughly—with the complex 'machine' whose smooth running allowed those occasional masterpieces to happen and whose periodic adjustments prompted the large-scale twists and turns in film music's path.

*Although Indian popular cinema has a long history and is familiar to audiences around the world, it has rarely been systematically studied. This book offers the first detailed account of the popular film as it has grown and changed during the tumultuous decades of Indian nationhood. The study focuses on the cinema's characteristic forms, its range of meanings and pleasures, and, above all, its ideological construction of Indian national identity. Informed by theoretical developments in film theory, cultural studies, postcolonial discourse, and "Third World" cinema, the book identifies the major genres and movements within Bombay cinema since Independence and uses them to enter larger cultural debates about questions of identity, authenticity, citizenship, and collectivity. Chakravarty examines numerous films of the period, including Guide (Vijay Anand, 1965), Shri 420 [The gentleman cheat] (Raj Kapoor, 1955), and Bhumika [The role] (Shyam Benegal, 1977). She shows how "imperso-nation," played out in masquerade and disguise, has characterized the representation of national identity in popular films, so that concerns and conflicts over class, communal, and regional differences are obsessively evoked, explored, and neutralized. These findings will be of interest to film and area specialists, as well as general readers in film studies.*

Hindi popular cinema has played a key role as a national cinema because it assisted in the imagining of a unified India by addressing a public across the nation-to-be even before 1947. Examining the diverse elements that constitute the 'popular' in Indian cinema, M.K. Raghavendra undertakes, in this book, a chronological study of films to speculate on narrative conventions, thematic continuities, myths, archetypes, and other formal structures that inform it from its hesitant beginnings up to the 1990s. A significant contribution to film studies, the book makes crucial connections between film motifs and other aspects of culture, exploring the development of film narrative using the social history of India as a continuing frame of reference.

In order to do business effectively in contemporary South Asia, it is necessary to understand the culture, the ethos, and the region's new trading communities. In tracing the modern-day evolution of business communities in India, this book uses social history to systematically document and understand India's new entrepreneurial groups.
