Game Strengths Nintendo and Shigeru Miyamoto have done it again!

Mario Sunshine is a winning successor to Super Mario 64, the game many consider to be the best console title released on the N64 and the defining game for the 3D platform genre. Although gameplay in Mario Sunshine is similar to that of Super Mario 64, gamers can expect new moves, new enemies, and sprawling urban/suburban environments that are a departure from the fanciful areas of Mushroom

Kingdom. Set in a coastal town, Mario must use his water cannon backpack to spray water on paint blotches that fall from the sky to preserve the beauty of his town. Mario himself is more detailed than ever, boasting a newly improved high-polygon count and detailed texturing. He also features an extensive facial animation system that displays various emotions including happy, confused, and even exhausted. Description/Sales Handle Mario is back for more adventure and excitement in Mario Sunshine, his exciting debut on Nintendo's GameCube. You'll be sure to run, smash, triple-jump, and slide your way to success with the help of Mario Sunshine: Prima's Official Strategy Guide. We'll provide you with a complete walkthrough for every vast 3D level, including enemy stats and info, locations of all Sunshine Coins and other cool items, and tips for using Mario's all-new water cannon backpack to keep this beautiful world clean.
