If goods and services are not available in sufficient quantity, this can stop production and have a corresponding negative impact on sales. However, high warehouse stocks also tie up capital and cause costs. This book on consumption-based material requirements planning (MRP) will help you to manage this conflict of interests. Despite materials required having different procurement lead times and specific storage properties, you can and must be able to respond to individual requirements. Using processes and examples from practice, you will learn how the consumption-based MRP procedures in SAP MM can support you in these tasks. This book is aimed at both beginners in the topic, as well as key users who want to familiarize themselves with basic customizing settings. - Reorder point planning, stochastic and time-phased MRP - Material master data, including lot sizes and how to calculate them - Planning, planning process, stock/requirements lists (transaction MD04), and forecasts - Customizing of the basic settings and processes

Do you know how to execute procurement processes in standard SAP without any errors? Find out how in this practical guide to the SAP Materials Management (MM) module and the purchasing process in SAP ERP. The author expertly introduces readers to the most frequently used functions in the procurement process, from setting up a purchase requisition to posting the vendor invoice. Walk through a step-by-step example with detailed SAP screenshots of the vendor master data on the purchase requisition to the purchase order. Then builds on this example to explore information on the goods receipt and invoice verification process. Identify opportunities for process optimization. Obtain a list of best practices for consistently maintaining data in SAP. Learn how to use master data, functions, and evaluations to work more productively with SAP MM. The updated second edition includes information on the approval process and credit approval procedures. By using practical examples, tips, and screenshots, the author brings readers up to speed on the fundamentals of SAP MM. - Step-by-step instructions for creating a vendor master record and a purchase requisition - How to convert a purchase requisition to a purchase order - Approval process and credit approval procedure fundamentals - Tips on how to create favorites
