postmodern period." "According to design critic Rick Poynor, changes in graphic work were already well underway by the early 1980s, even before the computer became a ubiquitous tool. With the international embrace of new electronic

Download File PDF Protex Industrial Sewing Machine

technologies in the 1990s, these developments began to accelerate. An explosion of creativity in graphic design took place as designers and typographers reassessed their roles, jettisoned existing rules, and forged experimental new approaches.
