objectivity is buffeted by, repressed by, and sometimes defeated by value conflict.

Politics and policy are "messy" and power explains much more about the policy process than does rationality. Public Policy Praxis, now in a thoroughly revised fourth edition, uniquely equips

students to better grapple with ambiguity and complexity. By emphasizing mixed methodologies, the reader is encouraged, through the use of a wide variety of policy cases, to develop a workable and practical model of applied policy analysis. Students are

given the opportunity to try out these globally applicable analytical models and tools in varied case settings (e.g., county, city, federal, international, plus urban and rural) while facing wide-ranging topics (starving farmers and the red panda in Nepal, e-cigarettes,
