*This study examines how religious authority was distributed in early Islam. It argues the case that, as in Shi'ism, it was concentrated in the head of state, rather than dispersed among learned laymen as in Sunnism. Originally the caliph was both head of state and ultimate source of religious law; the Sunni pattern represents the outcome of a conflict between the caliph and early scholars who, as spokesmen of the community, assumed religious leadership for themselves. Many Islamicists have assumed the Shi'ite concept of the imamate to be a deviant development. In contrast, this book argues that it is an archaism preserving the concept of religious authority with which all Muslims began.*

"Approaching the Qur'an captures the complexity, power, and poetry of the early suras, or chapters, of the Qur'an, the sacred scripture of Islam. Michael Sells presents brilliant translations of the short, hymnic suras associated with the first revelations to the Prophet Muhammad. In the second edition, Sells offers a new translation and commentary on the Sura of the Compassionate (al-Rahm?n), which holds a special place within Islamic devotion and literature. Additionally, a new preface addresses the ongoing controversy over teaching about Islam and the Qur'an in American universities."--Publisher.

**Explanation of a Summary of al Aqeedatul Hamawiyah of Ibn Taymiyah is the commentary on one of Ibn Taymiyyah's works "al-Fatwaa al-Hamawiyah" which he wrote as an answer to a question presented to him in the Hijrah year of 698 from Hamaah, a place in ash-Shaam. In it, he was asked what the scholars and Imaams of the religion say concerning the Aayaat and the Ahaadeeth of the Sifaat, or the attributes and characteristics of Allaah. So he answered in about 83 pages and due to which, he suffered trials and afflictions. May Allaah reward him on behalf of Islaam and the Muslims with the best of rewards. Due to the difficulty in understanding and comprehending this answer from many readers, Ibn Uthaymeen has summarized the most important points from it along with some other needed additions.**

Patricia Crone's *God's Rule* is a fundamental reconstruction and analysis of Islamic political thought focusing on its intellectual development during the six centuries from the rise of Islam to the Mongol invasions. Based on a wide variety of primary sources -- including some not previously considered from the point of view of political thought -- this is the first book to examine the medieval Muslim answers to questions crucial to any Western understanding of Middle Eastern politics today, such as why states are necessary, what functions they are meant to fulfill, and whether or why they must be based on religious law. The character of Muslim political thought differs fundamentally from its counterpart in the West. The Christian West started with the conviction that truth (both cognitive and moral) and political power belonged to separate spheres. Ultimately, both power and truth originated with God, but they had distinct historical trajectories and regulated different aspects of life. The Muslims started with the opposite conviction: truth and power appeared at the same time in history and regulated the same aspects of life. In medieval Europe, the disagreement over the relationship between religious authority and political power took the form of a protracted controversy regarding the roles of church and state. In the medieval Middle East, religious authority and political power were embedded in a single, divinely sanctioned Islamic community -- a congregation and state made one. The disagreement, therefore, took the form of a protracted controversy over the nature and function of the leadership of Islam itself. Crone makes Islamic political thought accessible by relating it to the contexts in which it was formulated, analyzing it in terms familiar to today's reader, and, where possible, comparing it with medieval European and modern political thought. By examining the ideological point of departure for medieval Islamic political thought, Crone provides an invaluable foundation for a better understanding of contemporary Middle Eastern politics and current world events.

***This is an ai translation of BAYAN TALBIS AL-JAHMIYYAH by IBN TAYMIYYAH. It is only volume 1, I am going to release volume 2 soon. This is an artificial translation from a program I use. I read all the pages, and its very comprehensible. Its not perfect, but im sure you will be able to understand the book. I figured its better to have an artificial translation than to have none at all. This book is a literary debate between AL-Razi and Ibn Taymiyyah, the topic is whether God is located in a direction or not. Very important book for Salafis.***

Rising young comedian Moshe Kasher is lucky to be alive. He started using drugs when he was just 12. At that point, he had already been in psychoanalysis for 8 years. By the time he was 15, he had been in and out of several mental institutions, drifting from therapy to rehab to arrest to...you get the picture. But KASHER IN THE RYE is not an "eye opener" to the horrors of addiction. It's a hilarious memoir about the absurdity of it all. When he was a young boy, Kasher's mother took him on a vacation to the West Coast. Well it was more like an abduction. Only not officially. She stole them away from their father and they moved to Oakland , California. That's where the real fun begins, in the war zone of Oakland Public Schools. He was more than just out of control-his mother walked him around on a leash, which he chewed through and ran away. Those early years read like part Augusten Burroughs, part David Sedaris, with a touch of Jim Carrol...but a lot more Jewish. In fact, Kasher later spends time in a Brooklyn Hasidic community. Then came addiction... Brutally honest and laugh-out-loud funny, Kasher's first literary endeavor finds humor in even the most horrifying situations.

Summary: "Since the rise of the Taliban and Al Qaeda, the traditional Islamic schools known as the madrasa have frequently been portrayed as hotbeds of terrorism. For much longer, the madrasa has been considered by some as a backward and petrified impediment to social progress. However, for an important segment of the poor Muslim populations of Asia, madrasas constitute the only accessible form of education. This volume presents an overview of the madrasas in countries such as China, Indonesia, Malaysia, India and Pakistan."--Publisher description.

Imagine there is only one way to find yourself. Imagine this path is a way to your heart and not to your mind. Imagine that your mind is in your heart when you find yourself. Heart illness is about what you cannot see that is disturbing you and causing you to suffer uncontrollably. The symptoms of heart illness come out in your relationships with other God and people. Nothing worthies the state of nothingness more than the lack of hope that what is bothering your state of affairs will never end. In other words, only you can decide what is curable and what is hopeless.

This volume continues the stories of the Israelite patriarchs and prophets who figured in Volume II, as well as of the rulers of ancient Iran. In addition to biblical, Qur'anic, and legendary accounts about Moses, Aaron, and the exodus of Israel from Egypt; of the Judges, Samuel and Ezekiel; and of Saul, David, and Solomon, it includes a version of Iranian history that emphasizes the role of Manuchihr (Manushihr in Arabic) in creating the Iranian nation and state. Woven into these stories about figures belonging to the very earliest literatures of the Middle East: the mysterious al-Khidwith echoes the Sumero-Akkadian hero Gilgamesh; the legendary exploits of Dhu l-Qarnayn, mirroring the ancient romance of Alexander the Great; incorporating elements about the encounter of King Solomon and Bilqis, the Queen of Sheba, of Jewish midrash and Islamic lore. The Islamic empire was at its political and economic height during the tenth and eleventh centuries, and a new civilization was forged at the caliphal court and in society at large. One of the literary triumphs of that civilization was this rich and varied literature belonging to the Islamic genre of "tales of the prophets." The tales in this volume show how threads from all the ancient literatures of the Middle East were incorporated, absorbed, and Islamized in the brilliant fabric of that new civilization.
