

## Radio Shack Concertmate 900

"Major Jim Gant, a man seen by many of us as the 'perfect insurgent,'--an inspiring, gifted, courageous leader... -- GENERAL DAVID H. PETRAEUS (U.S. Army, Ret.) THE PAPER THAT ROCKED OSAMA BIN LADEN Team members during the May 2, 2011 U.S. military raid that killed Osama Bin Laden seized piles of Al Qaeda intelligence. One piece of evidence found in Bin Laden's personal sleeping quarters was an English language copy of Jim Gant's One Tribe at a Time. It contained notes in the margins consistent with others identified as written by Osama Bin Laden. A directive from Osama Bin Laden to his intelligence chief was also discovered. It identified Jim Gant by name as an impediment to Al Qaeda's operational objectives for eastern Afghanistan. Bin Laden ordered that Gant be assassinated. "[One Tribe at a Time] was hugely important...at a time when I was looking for ideas on Afghanistan...[Gant] was the first to write it down, in a very coherent fashion, very readable, very encouraging frankly...and there is enormous power in that." --General David H. Petraeus (U.S. Army, Ret.) quoted in American Spartan: The Promise, The Mission, and The Betrayal of Special Forces Major Jim Gant by Ann Scott Tyson Washington Post reporter Ann Scott Tyson read "One Tribe at a Time," and - informed by her combat experience in Afghanistan and Iraq and her eight years as a reporter in China - she realized that Jim's paper made sense. She decided to write a story about Jim entitled, "Jim Gant, the Green Beret who could win the war in Afghanistan." After the article appeared in January 2010, as Jim was in Washington, D.C., attending Pashto language training, he met Ann and the two fell in love. She followed his mission in Afghanistan and wrote AMERICAN SPARTAN: The Promise, the Mission, and the Betrayal of Special Forces Major Jim Gant.

The rewards of carefully chosen alternative investments can be great. But many investors don't know enough about unfamiliar investments to make wise choices. For that reason, financial advisers Larry Swedroe and Jared Kizer designed this book to bring investors up to speed on the twenty most popular alternative investments: Real estate, Inflation-protected securities, Commodities, International equities, Fixed annuities, Stable-value funds, High-yield (junk) bonds, Private equity (venture capital), Covered calls, Socially responsible mutual funds, Precious metals equities, Preferred stocks, Convertible bonds, Emerging market bonds, Hedge funds, Leveraged buyouts, Variable annuities, Equity-indexed annuities, Structured investment products, Leveraged funds The authors describe how the investments work, the pros and cons of each,

*which to consider, which to avoid, and how to get started. Swedroe and Kizer evaluate each investment in terms of: Expected returns Volatility Distribution of returns Diversification potential Fees Trading and operating expenses Liquidity Tax efficiency Account location Role in an asset-allocation program Any investor who is considering or just curious about investment opportunities outside the traditional world of stocks, bonds, and bank certificates of deposit would be well-advised to read this book.*

The Complete Guide to Synthesizers

Construction Master

***Explains how synthesizers work, describes various models, and suggests tests that can be used to compare and evaluate different systems.***

***The radio has been part of home entertainment for over 75 years and generations of listeners have enjoyed their favorite music or programmes, or sat enthralled as an historic event unfolded through the radio's loudspeakers. This book explores the development of the radio from the late Victorian era until the late 1960s, including photographs of rare and unusual styles. A surprising number of early radios have survived to this day, some of which were made before broadcasting was introduced in the early 1920s, and the author discusses these old sets as well as the different and improving models over the years.***

***Appropriate for all basic-to-intermediate level courses in Visual Basic 2008 programming. Created by world-renowned programming instructors Paul and Harvey Deitel, Visual Basic 2008 How to Program, Fourth Edition introduces all facets of the Visual Basic 2008 language hands-on, through hundreds of working programs. This book has been thoroughly updated to reflect the major innovations Microsoft has incorporated in Visual Basic 2008 and .NET 3.5; all discussions and sample code have been carefully audited against the newest Visual Basic language specification. The many new platform features covered in depth in this edition include: LINQ data queries, Windows Presentation Foundation (WPF), ASP.NET Ajax and the Microsoft Ajax Library, Silverlight-based rich Internet application development, and creating Web services with Windows Communication Foundation (WCF). New language features introduced in this edition: object anonymous types, object initializers, implicitly typed local variables and arrays, delegates, lambda expressions, and extension methods. Students begin by getting comfortable with the free Visual Basic Express 2008 IDE and basic VB syntax included on the CD. Next, they build their skills one step at a time, mastering control structures, classes, objects, methods, variables, arrays, and the core techniques of object-oriented programming. With this strong foundation in place, the Deitels introduce more sophisticated techniques, including inheritance, polymorphism, exception handling, strings, GUI's, data structures, generics, and collections. Throughout, the authors show developers how to make the most of Microsoft's Visual Studio tools. A series of appendices provide essential programming reference material on topics ranging from number systems to the Visual Studio Debugger, UML 2 to Unicode and ASCII.***

Rebel Crafts is a collection of 12 step-by-step craft projects that merge with activism (craftivism), allowing the maker to take a stand and creatively express their beliefs. Build Your Baby's First Vocabulary It is important to encourage children's vocabulary development so that they develop the language and literacy skills necessary to succeed in school. The adults in a child's life play a significant role in helping a child learn new words. A very young baby may only babble in response to hearing your voice as you read, but when you respond back by repeating or

expanding on his or her sound or offering a word with that sound, this back-and-forth interaction helps with language development.

The most comprehensive, all-inclusive look at the history and evolution of shot on video horror films. In 1982, "Boardinghouse" became the first shot on video feature-length horror film ever made. Totally lensed on videotape, the film was later transferred to 16mm and blown-up to 35mm for theatrical exhibition. In 1983, David A. Prior shot "Sledgehammer" on video and eventually released the film on videotape. For the first time, analog video became the format used in motion picture productions. It was smeary, messy and it wasn't film... but it was cheap. In 1985, United Home Video boldly released "Blood Cult" with the claim it was "the first movie made for the home video market." The booming popularity of video stores coupled with a never-satisfied demand for content ensured these films longevity. Soon hundreds of titles followed, all video-created features by independent unknowns. They weren't from Hollywood. They weren't trained. But they had a lot of heart and a love for horror. And they made their own movies against the odds. For the first time EVER - "ANALOG NIGHTMARES" has brought these films together. Everything from "Boardinghouse" to "Zombie Holocaust" individually reviewed, categorized and presented chronologically by production year. Over 260 films! Featuring in-depth interviews with the filmmakers themselves - some speaking for the very first time! TIM BOGGS! MARK POLONIA! DONALD FARMER! TIM RITTER! JOEL D. WYNKOOP! DOUG STONE! ANDREA ADAMS! GARY WHITSON! DAVE CASTIGLIONE! PHIL HERMAN! ERIC STANZE! JAMES L. EDWARDS! WALTER RUETHER! TODD JASON COOK! NICK MILLARD! DAVID "THE ROCK" NELSON! RON BONK!

"Six-Gun Gorilla" by Anonymous. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten – or yet undiscovered gems – of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies.Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools.It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to

serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. Robert J. Blackwell Assistant Secretary for Maritime Affairs

\* Offers timely material, and is anticipated that over 80% of Fortune 1000 companies will incorporate mobile devices and wireless applications into their existing systems over the next two-five years. \* Authors utilize XML and related technologies such as XSL and XSLT as well as Web services for server-sided application construction. \* Details how to build a complete enterprise application using all of the technologies discussed in the book. \* Web site updates the example application built as well as additional wireless Java links and software.

A vivid lyrical romp through many shared realities, memories of poetry's departed greats (Whalen, Corso, Dorn, Jim Carroll) are invoked in heart & ear, with marvelous love poems as well. MacAdam's eye is sharp, his ecological consciousness astute, as he bucks the heartbreaks of modern man and takes on reclamation of the Los Angeles River. A stunning collection.

A story for young readers. An earthquake hits Wellington when Hannah is in the bath. The lights are out, her mum and dad are out, and Hannah has to look after little Ollie and find Alex who is hurt. There's much damage all around, and people killed too. From the publisher's 'Extreme' series.
