This book is the one many people in the military do not want recruits to read. The guide contains extremely helpful hints and advice to help new enlistees during the rigors of military training. Most important, the information is free from biased interests because it is "written by a recruit for a recruit." Although tailored toward the Army and Marines, any person enlisting in the Armed Forces will find the information exceedingly valuable. Even if a person is just thinking

about the military, this book will help.
