**"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt**

**This is a fabulous collection of the best British short stories of 1922. It contains 24 stories collected from various magazines and newspapers by the likes of Hugh Walpole, Algernon Blackwood, John Galsworthy. Stories include The Looking Glass by J. D. Beresford, Broadsheet Ballard by A. E. Coppard, Seaton's Aunt by Walter de la Mare, The Bat and Belfry Inn by Alan Graham, The Devil to Pay by Max Pemberton, The Dice Thrower by Sidney Southgate and others.**

**Diogenes died by holding his breath. Plato allegedly died of a lice infestation. Diderot choked to death on an apricot.**

**Nietzsche made a long, soft-brained and dribbling descent into oblivion after kissing a horse in Turin. From the self-mocking haikus of Zen masters on their deathbeds to the last words (gasps) of modern-day sages, The Book of Dead Philosophers chronicles the deaths of almost 200 philosophers-tales of weirdness, madness, suicide, murder, pathos and bad luck. In this elegant and amusing book, Simon Critchley argues that the question of what constitutes a 'good death' has been the central preoccupation of philosophy since ancient times. As he brilliantly demonstrates, looking at what the great thinkers have said about death inspires a life-affirming enquiry into the meaning and possibility of human happiness. In learning how to die, we learn how to live.**

*This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of*

*Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.*

*Despite its unabated popularity with audiences, slapstick has received rather little scholarly attention, mostly by scholars concentrating on the US theater and cinema traditions. Nonetheless, as a form of physical humor slapstick has a long history across various areas of cultural production. This volume approaches slapstick both as a genre of situational physical comedy and as a mode of communicating an affective situation captured in various cultural products. Contributors to the volume examine cinematic, literary, dramatic, musical, and photographic texts and performances. From medieval chivalric romance and nineteenth-century theater to contemporary photography, the contributors study treatments of slapstick across media, periods and geographic locations. The aim of a study of such wide scope is to demonstrate how slapstick emerged from a variety of complex interactions among different traditions and by extension, to illustrate that slapstick can be highly productive for interdisciplinary research.*

*"Behind Mud Walls is an excellent introduction to the changes that have taken place in India from the mid-1920s to today, seen from the village level. It is an engaging read, filled with first hand observations of great clarity and explanatory power. It introduces the changing world of the village, where still 50 percent of the world's population, and 75 percent of India's population, live."—Howard Spadek, author of *The World's History**

Rebecca West's gripping chronicle of England's World War II traitors, expanded and updated for the Cold War era In *The Meaning of Treason*, Rebecca West tackled not only the history and facts behind the spate of World War II traitors, but the overriding social forces at work to challenge man's connection to his fatherland. As West reveals in this expanded edition, the ideologically driven amateurs of World War II were followed by the much more sinister professional spies for whom the Cold War era proved a lucrative playground and put Western safety at risk. Filled with real-world intrigue and fascinating character studies, West's gripping narrative connects the war's treasonous acts with the rise of Communist spy rings in England and tackles the ongoing issue of identity in a complex world.

Reminiscences of the author, special assistant, 1946 to 1959, to Jawaharlal Nehru, 1889-1964, former prime minister of India.

'Seldom does one get a chance to become acquainted with India's great leaders through a young woman so intimately associated with them.'-New York Times Book Review  
A dramatic portrait of the spirit of sacrifice that carried India through the years of the struggle for independence, this evocative memoir of an unusual childhood ends with the assassination of Mahatma Gandhi in 1948. Nayantara Sahgal describes what it was like growing up in Anand Bhavan, Allahabad, the home of her parents shared with her maternal uncle, Jawarlal Nehru, during the years when Gandhi was leading the movement for independence. It describes in loving detail the lives of a family for whom the country's fight for freedom was more important than anything else, certainly coming before comfort and riches. The book is particularly delightful for its picture of Nehru who springs from these pages as a man of friendly humanity and a joy in life that made him a beloved uncle, yet with an inborn greatness that inspired awe and admiration in the little girl who played with him. 'She is brilliant...complex and questioning.' - Pearl S. Buck

This book offers the first complete account of more than sixty years of international research on In-Flight Simulation and related development of electronic and electro-optic flight control system technologies ("Fly-by-Wire" and "Fly-by-Light"). They have provided a versatile and experimental procedure that is of particular importance for verification, optimization, and evaluation of flying qualities and flight safety of manned or unmanned aircraft systems. Extensive coverage is given in the book to both fundamental information related to flight testing and state-of-the-art advances in the design and implementation of electronic and electro-optic flight control systems, which have made In-Flight

Simulation possible. Written by experts, the respective chapters clearly show the interdependence between various aeronautical disciplines and in-flight simulation methods. Taken together, they form a truly multidisciplinary book that addresses the needs of not just flight test engineers, but also other aeronautical scientists, engineers and project managers and historians as well. Students with a general interest in aeronautics as well as researchers in countries with growing aeronautical ambitions will also find the book useful. The omission of mathematical equations and in-depth theoretical discussions in favor of fresh discussions on innovative experiments, together with the inclusion of anecdotes and fascinating photos, make this book not only an enjoyable read, but also an important incentive to future research. The book, translated from the German by Ravindra Jategaonkar, is an extended and revised English edition of the book *Fliegende Simulatoren und Technologieträger*, edited by Peter Hamel and published by Appelhans in 2014.

Thanks to directors such as Kitano, Miike and Miyazaki, Japanese cinema has recently undergone something of a resurgence. This title profiles the work of these established film-makers, as well as looking at the creations of new, up-and-coming directors.

This report brings together the available evidence from primary and secondary sources, including household surveys and results of recent qualitative studies, to develop a picture of the development challenges facing Roma populations in Central and Eastern Europe. While living standards have declined for all population groups during the transition to a market economy, there are growing indications that conditions have deteriorated more severely for Roma than for others, and that Roma are poorly positioned to take advantage of emerging economic opportunities. This report focuses on five countries in Central and Eastern Europe: Hungary, Bulgaria, Romania the Czech Republic, and the Slovak Republic. The first chapter of the report provides the historical context and an overview of the methodological issues and main data sources; chapter two presents the available evidence on welfare status and living conditions, examining poverty, housing education, employment and health; chapter three considers issues relating to access to social services; and the final chapter reviews the opportunities for Roma participation in the design and implementation of community development policies and programmes, and outlines policy implications.

A Search in Secret India is the story of Paul Brunton's journey around India, living among yogis, mystics and gurus, some of whom he found convincing, others not. He finally finds the peace and tranquility which come with self-knowledge when he meets and studies with the great sage Sri Ramana Maharishi. Paul Brunton was a British philosopher, mystic, traveler, and guru. He left a journalistic career to live among yogis, mystics, and holy men, and studied Eastern and Western esoteric teachings. Dedicating his life to an inward and spiritual quest, Brunton felt charged to communicate his experiences about what he learned in the East to others. His works had a major influence on the spread of Eastern mysticism to the West. Taking pains to express his thoughts in layperson's terms, Brunton was able to present what he learned from the Orient and from ancient tradition as a living wisdom. His writings express his view that meditation and the inward quest are not exclusively for monks and hermits, but will also support those living normal, active lives in the Western world.

Edward the Conqueror is a brilliant gem of a short story from Roald Dahl, the master of the sting in the tail. In Edward the Conqueror, Roald Dahl, one of the world's favourite authors, tells a sinister story about the darker side of human nature. Here, a cat's curious behaviour comes between a husband and his wife . . . Edward the Conqueror is taken from the short story collection Kiss Kiss, which includes ten other devious and shocking stories, featuring the wife who pawns the mink coat from her lover with unexpected results; the priceless piece of furniture that is the subject of a deceitful bargain; a wronged woman taking revenge on her dead husband, and others. 'Unnerving bedtime stories, subtle, proficient, hair-raising and done to a turn.' (San Francisco Chronicle ) This story is also available as a Penguin digital audio download read by Juliet Stevenson. Roald Dahl, the brilliant and worldwide acclaimed author of Charlie and the Chocolate Factory, James and the Giant Peach, Matilda, and many more classics for children, also wrote scores of short stories for adults. These delightfully

disturbing tales have often been filmed and were most recently the inspiration for the West End play, Roald Dahl's Twisted Tales by Jeremy Dyson. Roald Dahl's stories continue to make readers shiver today. Shirley Temple-Black, the popular child star of the 1930s and 1940s, tells of the ups and downs of life as a Hollywood prodigy. She writes of her relationship with her parents, how her finances were controlled, two attempts on her life, her first marriage at 17 and her second, happier marriage to Charlie Black.

Methods of Discovery

Abbott helps social science students discover what questions to ask. This exciting book is not about habits and the mechanics of doing social science research, but about habits of thinking that enable students to use those mechanics in new ways, by coming up with new ideas and combining them more effectively with old ones. Abbott organizes his book around general methodological moves, and uses examples from throughout the social sciences to show how these moves can open new lines of thinking. In each chapter, he covers several moves and their reverses (if these exist), discussing particular examples of the move as well as its logical and theoretical structure. Often he goes on to propose applications of the move in a wide variety of empirical settings. The basic aim of Methods of Discovery is to offer readers a new way of thinking about directions for their research and new ways to imagine information relevant to their research problems. Methods of Discovery is part of the Contemporary Societies series.

Useful for students at all levels, it contains more than 1,500 vocabulary lists consisting of words built from a shared root. These lists offer a unique and efficient way for students to acquire new words. Upon encountering a word, students can consult the lists for its component roots and discover many other semantically related words built from the same elements.

This highly accessible book provides an extensive and comprehensive overview of current research and theory about why and how we should protect future generations. It exposes how and why the interests of people today and those of future generations are often in conflict and what can be done. It rebuts critical concepts such as Parfits' non-identity paradox

and Beckerman's denial of any possibility of intergenerational justice. The core of the book is the lucid application of a veil of ignorance to derive principles of intergenerational justice which show that our duties to posterity are stronger than is often supposed. Tremmel's approach demands that each generation both consider and improve the well-being of future generations. To measure the well-being of future generations Tremmel employs the Human Development Index rather than the metrics of utilitarian subjective happiness. The book thus answers in detailed, concrete terms the two most important questions of every theory of intergenerational justice: what to sustain? and how much to sustain?

South Armagh was first described as "Bandit Country" by Merlyn Rees when he was Northern Ireland's Secretary of State, and for nearly three decades it has been the most dangerous posting in the world for soldiers. Toby Harnden has stripped away the myth and propaganda associated with South Armagh to produce one of the most compelling and important books of the subject. Drawing on secret documents and interviews in South Armagh's recent history, he tells the inside story of how the IRA came close to bringing the British state to its knees. For the first time, the identities of the men behind the South Quay and Manchester bombings are revealed. Packed with new information, Bandit Country penetrates the IRA and the security forces in South Armagh.

The Speech Situation is a term worn with age in the teaching of public speaking in America. That it is comprised of occasion, speaker, and topic is a gross oversimplification. It also includes challenge, anxiety, emotion, fear, responsibility, faults of memory, and instants of pride. Out of the circumstances arise an increase in heart rate, a change in blood pressure, an abnormal pattern of breathing, a noticeable build up in perspiration, and an ongoing evaluation. For students this may be merely a grade or perhaps a series of evaluative remarks, possibly addressed both to the speaker and the other participants, the audience. It may entail a replaying of a record of the speech, indeed a videotape. Most important is the lasting impression that remains with all of the participants. What of the vocabulary of the speaker under the circumstances of the speech situation? This speaker - in the major portions of this work we may say, "this young man" - has spent time seeking an appropriate topic. He has outlined a composition around a central idea or thesis. He has marshaled evidence, details. He has framed an opening paragraph. He has been admonished not to give an essay, but to strive for audience contact, interpersonal communication. He makes his audible approach through his vocabulary and accompanying phonology. Under the tension, the speaker repeats; he adds

meaningless vocalizations in periods that might logically be pauses. There are slips of the tongue. At worst, failing, he withdraws to await another day.

The Last Act is a short, sharp, sad story from Roald Dahl, the master of the twist in the tale. In The Last Act, Roald Dahl, one of the world's favourite authors, tells a story of human darkness and frailty. Here, a woman's reconnection with an old-flame does not go as expected . . .
