We've been teaching reading wrong—a leading cognitive scientist tells us how we can finally do it right

More is expected of middle schoolers—more reading, more writing, more independent learning. Achieving success in this more challenging world requires knowing many more words. 100 Words Every Middle Schooler Should Know helps students in grades 6 to 8 (ages 11-14) to express themselves with distinction and get the most out of school. The 100 words are varied and interesting, ranging from verbs like muster and replenish to nouns like havoc and restitution to adjectives like apprehensive and imperious. Knowing these words enables students to express themselves with greater clarity and subtlety. Each word has a definition and a pronunciation and appears with at least one quotation—a moving or dramatic passage—taken from a book that middle schoolers are assigned in the classroom or enjoy reading on their own. Both classic and contemporary works of fiction and nonfiction are represented. Among the authors are young adult favorites and award-winners such as Kate Di Camillo, Russell Freedman, Neil Gaiman, E.L. Konigsberg, Lois Lowry, Walter Dean Myers, Katherine Paterson, J. K. Rowling, and Gary Soto. Readers can see for themselves that the words are used by the very best writers in the very best books. It stands to reason that they will see them again and again in higher grades and throughout their lives. 100 Words Every Middle Schooler Should Know helps students to gain useful knowledge and prepares them to step into a broader world.

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. A Wrinkle in Time, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.

Reading Latin, first published in 1986, is a bestselling Latin course designed to help mature beginners read classical Latin fluently and intelligently. It does this by combining the understanding of continuous texts with rigorous teaching of grammar; it provides exercises designed to develop the skills of accurate translation, and it integrates the learning of classical Latin with an appreciation of the influence of the Latin language upon English and European culture from antiquity to the present. The Independent Study Guide is intended to help students who are learning Latin on their own or with only limited access to a teacher. It contains notes on the texts that appear in the Text and Vocabulary volume, translations of all the texts, and answers to the exercises in the Grammar and Exercises volume. The book will also be useful to students in schools, universities and summer schools who have to learn Latin rapidly.
