Architectural photography is more than simply choosing a subject and pressing the shutter-release button; it’s more than just documenting a project. An architectural photograph shows the form and appeal of a building far better than any other medium. With the advent of the digital photographic workflow, architects, real estate firms, and interior designers are discovering exciting new opportunities to present and market their work. But what are the ingredients for a successful architectural photograph? What equipment do you need? How can you improve your images in the digital darkroom? Why does a building look different in reality than it does in a photograph? In this book you will find the answers to these questions and much more. Author Adrian Schulz—an architect and photographer by training—uses real-world projects to teach you how to:

- Capture outstanding images of buildings, inside and out
- Choose the right equipment and use it effectively
- Compose architectural shots
- Work with ambient and artificial light
- Process images in an efficient workflow based on Adobe Photoshop and other tools

Winner of the Los Angeles Times Christopher Isherwood Prize for Autobiographical Prose Named a Best Book of the Year by NPR, the Washington Post, TIME, and Kirkus A Millions Most Anticipated Book of the Year A USA Today Book Not to Miss A LitHub Best-Reviewed Book of the Year Real Estate is the third and final installment in three-time Booker Prize nominated Deborah Levy's Living Autobiography series: an exhilarating, thought-provoking and boldly intimate meditation on home and the specters that haunt it in our patriarchal society. “Three bicycles. Seven ghosts. A crumbling apartment block on the hill. Fame. Tenderness. The statue of Peter Pan. Silk. Melancholy. The banana tree. A love story.” Virginia Woolf wrote that in order to be a writer, a woman needs a room of one's own. Now, in Real Estate, acclaimed author Deborah Levy concludes her ground-breaking trilogy of living autobiographies with an exhilarating, boldly intimate meditation on home and the specters that haunt it. In this vibrant memoir, Levy employs her characteristic indelible writing, sharp wit, and acute insights to craft a searing examination of womanhood and ownership. Her inventory of possessions, real and imagined, pushes readers to question our cultural understanding of belonging and belongings and to consider the value of a woman's intellectual and personal life. Blending personal history, gender politics, philosophy, and literary theory, Real Estate is a brilliant, compulsively readable narrative.

Although we have been successful in our careers, they have not turned out quite as we expected. We both have changed positions several times-for all the right reasons-but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school.

We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. “Why should I put time into studying subjects I will never use in real life?” he protested. Without thinking, I responded, “Because if you don’t get good grades, you won’t get into college.” “Regardless of whether I go to college,” he replied. “I’m going to be rich.”

The Good House, by Ann Leary, is funny, poignant, and terrifying. A classic New England tale that lays bare the secrets of one little town, this spirited novel will stay with you long after the story has ended. Hildy Good is a townie. A lifelong resident of a small community on the rocky coast of Boston's North Shore, she knows pretty much everything about everyone. And she's good at lots of things, too. A successful real-estate broker, mother, and grandmother, her days are full. But her nights have become lonely ever since her daughters, convinced their mother was drinking too much, sent her off to rehab. Now she's in recovery—more or less. Alone and feeling unjustly persecuted, Hildy finds a friend in Rebecca McAllister, one of the town's wealthy newcomers. Rebecca is grateful for the friendship and Hildy feels like a person of the world again, as she and Rebecca escape their worries with some harmless gossip and a bottle of wine by the fire—just one of their secrets. But Rebecca is herself the subject of town gossip. When Frank Getchell, an old friend who shares a complicated history with Hildy, tries to warn her away from Rebecca, Hildy attempts to protect her friend from a potential scandal. Soon, however, Hildy is busy trying to protect her own reputation. When a cluster of secrets becomes dangerously entwined, the reckless behavior of one person threatens to expose the other, and this darkly comic novel takes a chilling turn.

The best camera is the one you have with you. Whether that's a high-tech DSLR, a consumer point-and-shoot, or simply your SmartPhone, there's a common denominator that will determine the visual impact of the images you create: the light. Identifying beautiful light (or creating/modifying the light) takes experience, observation, and a knowledge the fundamentals of lighting. Learning how to visualize the intended image in your mind's eye and translate that vision onto a two-dimensional plane is, as this book will show, far more important that what device you actually use to record that image. If you have ever looked at an amazing scene or subject but been disappointed by your photos of it—this is the book for you! Through examples and exercises, the author challenges you creatively, starting with the very basics of lighting and building a knowledge base that you can apply to your growth as a photographer at any stage, and with any camera.

Deep in a real estate fiasco nightmare and plagued with obstacles, Colin and Pam Rath managed to crawl to safety. It started with obtaining the right from the city to renovate a single-room occupancy rent-controlled "transient hotel" brownstone building and only got worse. From financial problems of a construction project gone haywire, to contractor woes, accidents on the construction site, the disaster of a fraudulently installed foundation, falsified reports, a corrupt and antiquated Department of Buildings, political interference, and numerous lawsuits, their real estate project and personal residence was foreclosed, leaving them in debt. They continued to hang on to their dreams of Manhattan real estate development and of a global sailing adventure with their children. In a surprising legal development in 2014, their foreclosure was dropped and their multi-million-dollar condo became theirs again.
