In a probing analysis of the oldest Buddhist texts, Julius Evola places the doctrine of liberation in its original context. The early teachings, he suggests, offer the foremost example of an active spirituality that is opposed to the more passive, modern forms of theistic religions. This sophisticated, highly readable analysis of the theory and practice of Buddhist asceticism, first published in Italian in 1943, elucidates the central truths of the eightfold path and clears away the later accretions of Buddhist doctrine. Evola describes the techniques for conscious liberation from the world of maya and for achieving the state of transcendence beyond dualistic thinking. Most surprisingly, he argues that the widespread belief in reincarnation is not an original Buddhist tenet. Evola presents actual practices of concentration and visualization, and places them in the larger metaphysical context of the Buddhist model of mind and universe. The Doctrine of the Awakening is a provocative study of the teachings of the Buddha by one of Europe's most stimulating thinkers.

Six years ago, twelve psychic children accidentally used their powers to flood the world. Now they attempt to rebuild society and defend London's Whitechapel survivors from one of their own. Twenty-three years ago, twelve strange children were born in England at exactly the same moment. Six years ago, the world ended. Today, eleven strange 23-year-olds live in and defend Whitechapel, maybe the last real settlement in flooded London. The Freakangels have defeated Mark, the twelfth psychic child, formerly an exile but now returned to enact his revenge. But while he may be down, he's not dead. In fact, he can't be killed. And when he wakes, his powers will dwarf them all. The only way to save themselves and protect Whitechapel is by tapping into the full extent of their powers... which can only be done by dying. The fifth chapter in award-winning author Warren Ellis' post-apocalyptic web comic series!

Don't face reality. Create reality! E-Squared could best be described as a lab manual with simple experiments to prove once and for all that reality is malleable, that consciousness trumps matter, and that you shape your life with your mind. Rather than take it on faith, you are invited to conduct nine 48-hour

experiments to prove there really is a positive, loving, totally hip force in the universe. Yes, you read that right. It says prove. The experiments, each of which can be conducted with absolutely no money and very little time expenditure, demonstrate that spiritual principles are as dependable as gravity, as consistent as Newton's laws of motion. For years, you've been hoping and praying that spiritual principles are true. Now, you can know. E-Squared proves the following: 1. There is an invisible energy force or field of infinite possibilities. 2. You impact the field and draw from it according to your beliefs and expectations. 3. You, too, are a field of energy. 4. Whatever you focus on expands. 5. Your connection to the field provides accurate and unlimited guidance. 6. Your thoughts and consciousness impact matter. 7. Your thoughts and consciousness provide the scaffolding for your physical body. 8. You are connected to everything and everyone else in the universe. 9. The universe is limitless, abundant, and strangely accommodating.

Not to invalidate your beliefs and the societal structure you comfortably reside in, but to support your return to the radical self-responsibility and vast open mindedness of a spiritually mature being. With all the presuppositions, "knowledge" and "facts" you have gathered about life, you will hardly be able to dive into the unknown and learn something new or experience the vivid freshness of Infinity. As is typical for the human condition, some of your ways of seeing things have become stale, to say the least. Even if your convictions and conclusions were useful at one time, doesn't it get incredibly dull to think the same things over and over and over, and to perceive things from the same vantage point again and again and again? But as nothing can be added or taken away from Infinity, the belief- systems we "shatter" will not be lost. You can pick them up and reassemble them later if you need some concepts to hold on to or if you get scared of the joyous enormity of it all. Nobody is forcing you to have too much fun. Expanding awareness in the original sense means: Seeing, Feeling, Perceiving, Noticing, Experiencing, Doing something you have not seen, felt, perceived, noticed, experienced, done before. It's as simple as that. If this is what is happening to you, then you are using this book the way it was meant to be used. On a quantum level, when you what it (whatever that is), it is created instantly, you don't receiver instantly only because you are surrounded by a layer of resistance, and so, when your world comes to deliver and knocks on your door,

chances are you are not there. Transurfing takes you Home ...

Dopo aver maturato una consolidata esperienza nel mondo bancario, alla fine del 1985 accettò un colloquio con Fideuram, incuriosito dalla professione di Promotore Finanziario allora ancora poco conosciuta. Nel 1986 divenne così Promotore Finanziario. Nel 1991 avvenne il suo incontro con Azimut e fu subito "Amore". Lasciò quindi la Fideuram per Azimut, società per la quale ha lavorato fino al 2014, anno della pensione. Desideroso da anni di scrivere un libro per condividere ciò che ha avuto l'opportunità di apprendere, avendo più tempo a disposizione nel 2017 è riuscito a realizzare questo sogno pubblicando il suo primo libro: Tutto ciò di cui ho bisogno è già dentro di me! che ha ricevuto un'ottima accoglienza da parte dei lettori e della critica. Ama la lettura, la formazione e tutto ciò che ritiene utile per la propria crescita personale e per il viaggio dentro e fuori di sé. Oggi, nel 2021, è pronto a pubblicare il secondo libro, con lo stesso scopo del primo: aiutare tutti, compreso sé stesso, a crescere, a eliminare la sofferenza dalle vite di ognuno e a trovare il naturale stato di benessere che è per tutti un diritto di nascita.

Many appreciate Richard P. Feynman's contributions to twentieth-century physics, but few realize how engaged he was with the world around him—how deeply and thoughtfully he considered the religious, political, and social issues of his day. Now, a wonderful book—based on a previously unpublished, three-part public lecture he gave at the University of Washington in 1963—shows us this other side of Feynman, as he expounds on the inherent conflict between science and religion, people's distrust of

politicians, and our universal fascination with flying saucers, faith healing, and mental telepathy. Here we see Feynman in top form: nearly bursting into a Navajo war chant, then pressing for an overhaul of the English language (if you want to know why Johnny can't read, just look at the spelling of "friend"); and, finally, ruminating on the death of his first wife from tuberculosis. This is quintessential Feynman—reflective, amusing, and ever enlightening.

Un libro pensato per rispondere alle domande esistenziali e per allargare la normale visione stereotipata della scena del mondo, in vista di capire: Che situazione sia questa nella quale ci troviamo. Quali siano le dinamiche che la generano. Come sia meglio attrezzarsi per cavalcare l'onda dagli eventi. Un'indagine esplorativa di quei meccanismi che sottesi alla scena del mondo, come uno specchio, ci rimandano da vivere gli effetti del nostro interagire col Campo quantico. Metafore come la nassa, il buco nero, il Bosone di Higgs, assieme ad alcuni concetti portanti del Transurfing facilitano la presa di coscienza di una

situazione strana, in cui catturati dalla Città dei Balocchi si finisce per passare da un'illusione all'altra lasciandoci derubare di quell'oro che è il nostro tempo. Una rilettura del senso della vita che apparirà come il processo di superamento dell'idea limitata che uno ha di sé stesso, che impedisce di essere felici. Individuata poi nell'adesso e nel perdono la chiave della prigione di schemi mentali, considera la sensata ipotesi di un'ascensione come da più parti ventilato, propone esperimenti di vita quantica e una visione creativa del problema morte.

“Ci guida per mano al superamento di ciò che ci fa intestardire su posizioni sbagliate” Starbene Ognuno di noi si racconta una storia tutta sua, spesso non a lieto fine: la vittima della sfortuna, il guerriero sempre sconfitto, la donna invisibile. Sembra un destino senza alternative, che la nostra vita non fa che confermare ogni giorno. Infatti, viviamo intrappolati in una trama fatta di convinzioni basate su presupposti falsi, di prigioni più mentali che reali, di abitudini acquisite in modo irriflesso. Per

orgoglio, o per paura, non è facile riuscire a guardare fuori e rompere questi schemi. Non immaginiamo che la vita reale abbia in serbo per noi una storia più bella. Il nostro piccolo delirio privato è una proiezione distorta ma molto credibile, che ci impedisce di contattare il nostro vero sé. Ed è un peccato. Perché questa parte più profonda e luminosa di noi ha la forza e i mezzi per farci deviare dai percorsi costruiti dall'abitudine o dalle aspettative altrui. Se solo imparassimo a riconoscerla, ne scopriremmo l'inaspettata potenzialità di farci vivere davvero felici e presenti. Olga Chiaia ci guida per mano verso il superamento di pensieri ricorsivi, di circoli viziosi, di ciò che ci fa intestardire su posizioni involutive, per portarci a riscoprire il coraggio della libertà, soprattutto da noi stessi, e una nuova possibilità di azione.

"My cat hates Schrödinger" is an amusing introduction to the principles of quantum physics. It's never too late to become a quantum physics fan! The Book achieved resounding success on amazon.it and in fact became a bestseller, reaching the

To do so, the author has used his long-suffering cat. And it was a great idea: just have a look at the hundreds of followers of his Facebook page. The main topics explained in the book are: Quantum Physics Space-time Relativity Big Bang Universe Dark Matter Theory of Everything Higgs field Multiverse Black Holes String Theory

Different voices and driving forces alternate in each human being. Frequently, we suddenly find ourselves doing and saying things that are different from what we would have liked to do or say. This book teaches us to recognize the multiplicity contained in each of us, the different drives and needs that bring different approaches to our daily life, so we can begin to consider them as precious resources and no longer as obstacles. Understanding the complex relationships within us will help us to live better with ourselves and with others, since all our relationships in a

family, social or working environment, show a similar pattern to those that happen within us. Curiosity, a playful attitude, having fun, are pleasant approaches to this research and help us to understand ourselves, what happens to our different parts, and also to discover and appreciate all the talents we have. The theory and the simple exercises presented in this book invite you to follow a path in search of knowing yourself step by step, offering a useful and verifiable set of tools at a personal level. Prayers for Parents and Children is a wonderful companion for parents who are looking for prayers to help their children on the journey through childhood. These are verses for every occasion; for the mother to speak for the incarnating soul as it prepares to be born, and for the baby after its birth; for the very young and older children; prayers for morning and evening; and graces to be spoken at the table. The context for the prayers is provided by Rudolf Steiner's lecture at the end of the book, which gives insight into the larger cosmic relationships in which the individual is involved before birth, during life, and after death.

Filmmaker Alejandro Jodorowsky's insights into the Tarot as a spiritual path •
Works with the original Marseille Tarot to reveal the roots of Western wisdom •
Provides the key to the symbolic language of the Tarot's "nomadic cathedral" •
Transforms a simple divination tool into a vehicle for self-realization and healing
Alejandro Jodorowsky's profound study of the Tarot, which began in the early 1950s, reveals it to be far more than a simple divination device. The Tarot is first and foremost a powerful instrument of self-knowledge and a representation of the structure of the soul. *The Way of Tarot* shows that the entire deck is structured like a temple, or a mandala, which is both an image of the world and a representation of the divine. The authors use the sacred art of the original

Marseille Tarot--created during a time of religious tolerance in the 11th century--to reconnect with the roots of the Tarot's Western esoteric wisdom. They explain that the Tarot is a "nomadic cathedral" whose parts--the 78 cards or "arcana"--should always be viewed with an awareness of the whole structure. This understanding is essential to fully grasp the Tarot's hermetic symbolism. The authors explore the secret associations behind the hierarchy of the cards and the correspondences between the suits and energies within human beings. Each description of the Major Arcana includes key word summaries, symbolic meanings, traditional interpretations, and a section where the card speaks for itself. Jodorowsky and Costa then take the art of reading the Tarot to a depth never before possible. Using their work with Tarology, a new psychological approach that uses the symbolism and optical language of the Tarot to create a mirror image of the personality, they offer a powerful tool for self-realization, creativity, and healing.

Mental Chemistry. The Scientific Method for Creating Reality with Thought

Meet the new world sensation. It's Tufti. Why is it that nothing seems to work out

the way you want it to, despite the fact that you act according to your own free will? You might think that the reason why nothing is working out the way you want, is because that's just how life is. But the real reason things don't work out the way you want them to, is because you aren't acting according to your own free will - you are being directed by a script. Another reason things don't work out the way people want them to, is because they don't know how to take the right action to shape events the way they want. Rather than composing the reality of the upcoming film, they tend to battle with the reality they face in the current frame. Reality exists only in the here and now, and what is real is real only to the extent that it has taken place in the material world. You cannot change what has already happened. Yet when you fight with your current reality, that is exactly what you are doing, because everything that surrounds you consists of something that has already happened. If you want to change the script, you have to wake up and come alive inside the movie.

Happiness is Not Around the Corner; it's Right Here, Right now

Do you find yourself waiting for the best part of your life to begin? Or those things will get better soon? Dr. Richard Carlson, author who helped millions of readers stop sweating the small stuff, reminds us all You Can Be Happy No Matter What. Interactive Edition: In this interactive edition, people can experience the book in a wholly new way with Carlson's narration, illuminating passages about living joyfully in the present moment. This handbook for happiness is based on proven psychology, the Principles of Thought, covering thought, mood, separate realities and feelings.

Every moment of every day, our minds are working to make sense out of what we see and experience; yet this is one of the least understood principles in our psychological makeup. Carlson's breakthrough work here in understanding the nature of thought can be the foundation to a fully functional life. Dr. Richard Carlson's wise words in his own voice bring new dimension and understanding of awakening to your own happiness. This superlative interactive book aids anyone in understanding the ups and downs of life and how to build resilience. Most importantly, Carlson reminds us to not let the downside get in the way of living joyfully, despite the daily challenges we all face. In his own words, "Happiness is a state of mind, not a set of circumstances."

Transurfing is simple, yet powerful Reality Management Technique, developed by the Russian quantum physics researcher Vadim Zeland. Zeland's main goal is to present a set of techniques (which he calls Transurfing of Realities) for the attainment of practical goals. These techniques are of mental and metaphysical nature. Zeland supports these techniques by presenting a model of the universe that combines the elements of quantum physics with the idea of parallel worlds. As Zeland states, the use of the techniques is not dependant on the acceptance of his theoretical model. Some Transurfing techniques are very simple and practical. Zeland says: " You can not hide from the inevitable reality. Your life is determined by circumstances and your place in society. Reality develops for the most part regardless of your own will. For every "I want" there is its own "You can't." In response to "Give it to me" you hear "You can't get it." There is little you can you

do in such circumstances.... As a rule, human beings behave unambiguously. In their attempts to get what they want, they try to influence this world straight on, by the principle "Give it back to me." Direct impact, based on direct contact, is one of the ways of controlling something, but it is certainly not the most effective method of controlling reality. Transurfing is ..."

Tufti the Priestess. Live Stroll Through a Movie

Examines the ramifications of Einstein's relativity theory, exploring the mysteries of time considering black holes, time travel, the existence of God, and the nature of the universe. Transurfing is a powerful tool for managing reality. Apply it and life will begin to change according to YOUR order. When you use Transurfing goals are not reached, so much as realised for the most part of themselves. It seems impossible to believe but only at first ideas presented in the book have already received practical confirmation. Those who have Transurfing, experience surprise bordering on delight as the world of the Transurfer inexplicably changes before their very eyes. What is the book about? Transurfing is the

controlling reality using our freedom of choice. The world always reflects our perceptions. People can choose any variant of the development of current reality and thereby find themselves in circumstances they find desirable. To learn how to do this, you have to learn how to achieve a mutual understanding between the soul and mind, formulate intention and avoid the influence of destructive pendulums. Why should you read this book? Most people who have read "Transurfing," note that from the very first pages, the book completely reverses their perception of the world and the role of the individual in their own life. A fresh look at reality encourages the reader to consciously relate to the choices they make in any moment, and this really changes their life in the direction they would like. "It works!" is the phrase found in almost all reviews of Vadim Zeland's book. Who is this book for? The book has aroused great interest among young and middle-aged, those who are interested equally in philosophy, psychology and the mysteries of human consciousness. Why we decided to publish it The idea of "Transurfing Reality" quickly gained popularity when the author posted the text on the Internet. Numerous readers' reviews, saying that it really works, and the author's original take on the structure of reality prompted the publishers decide to publish Vadim Zeland's manuscript. I had no doubt that "Transurfing" would be popular among a huge audience About the author Vadim Zeland: "I'm over forty. Before the collapse of the Soviet Union I was engaged in scientific research in the field of quantum physics, then computer technology, and now books. I was born in Russia. My nationality is Russian, or more precisely, a quarter Estonian. The rest is irrelevant, as is all the above. Regarding my own success, all I can say is that Transurfing works perfectly."

I don't however want to advertise my personal life, as then it would cease to be personal. It turns against you, if you give in to temptation and climb up on a pedestal for all to see. For some people, the American Indians, for example, there is a belief that if someone copies your portrait (photographs you), they steal part of your soul. Of course, this is just superstition. There is no smoke without fire. You can distribute a product of personal creativity; but not your personality for mass circulation - never. To the question of intrigued readers: "Who are you, Vadim Zeland?," I usually just say: "Nobody." My biography can not and should not be a matter of interest, since I am not the creator of Transurfing, only a "retranslator." It is not we that are, but that we be nothing - an empty vessel, so that we do not impose our personal distortions on the ancient Knowledge, that opens the door to a world, where the impossible becomes possible. Reality ceases to exist as something external and independent. and becomes manageable. It follows certain rules. The secret itself that is hidden only in as much as it lies on the surface. It is so great that the personality of its bearer ceases to be relevant. Perhaps the guardians who guard this knowledge to me are of genuine interest but they too prefer to remain in the shadows.
