Books in Start Up Maths Series: 5 Pages: 160 pp. Specification: Softcover, perfect bound, 275 mm x 201 mm Category: Workbook Publication date: March 2007

The Excel series of Start Up Maths for Years 3-7 have been specifically designed to be used as classroom or homework books in order to assist students, teachers and parents with their understanding of mathematics. Each book in the series covers the year's work in detail. Innovative features provide an integrated and supportive approach to learning. All units of work, review tests and Start Up sections are interrelated and cross-referenced to each other. This series of

Read Online Rectangular Prism Net Printable Centimeter Grid Paper

books is a must for students who want to cover the year's work comprehensively, with no gaps in their knowledge. The completion of this workbook in Year 6 will ensure that a student will be fully prepared for the work in Year 7. In this book your child will find: 176 units of work to complete 34 review tests for revision over 2000 exercises to practise a Start Up section for extra help with understanding questions comprehensive coverage of the year's work

ICSE-Math Book

Studying math is often a source of great anxiety for children and teenagers. It also proves troublesome for parents, as many are reminded of their own struggles with the subject and feel lost when trying to tackle it again years later in an effort to aid their offspring. Help Your Kids with Math is designed to reduce the stress of studying math for both children and

Read Online Rectangular Prism Net Printable Centimeter Grid Paper

adults. Using an appealing and uniquely accessible illustrative style, this book will show you what others only tell you, covering everything from basic arithmetic to more challenging subjects such as statistics, geometry, and algebra. Every aspect of math is explained in easily understandable language so that adults and kids can deal with the subject together. Tricky concepts are explored and examined step-by-step, so that even the most math-phobic individual will be able to approach complex problems with confidence. The first in an original new series of study aids that aims to demystify those subjects that seem tricky and incomprehensible, Math Survival provides invaluable guidance and easy explanations for all those desperate kids and parents who need to understand math and put it into practice.
