*“Lobster is served three ways in this fascinating book: by fisherman, scientist and the crustaceans themselves. . . . Corson, who worked aboard commercial lobster boats for two years, weaves together these three worlds. The human worlds are surely interesting; but they can’t top the lobster life on the ocean floor.” – Washington Post* In this intimate portrait of an island lobstering community and an eccentric band of renegade biologists, journalist Trevor Corson escorts the reader onto the slippery decks of fishing boats, through danger-filled scuba dives, and deep into the churning currents of the Gulf of Maine to learn about the secret undersea lives of lobsters. This P.S. edition features an extra 16 pages of insights into the book, including author interviews, recommended reading, and more.

From the author of the twenty-five-million-copy bestseller *The Shack* comes a captivating new novel destined to be one of the most talked-about books of the decade. Eve is a bold, unprecedented exploration of the Creation narrative, true to the original texts and centuries of scientific discoveries that challenge traditional beliefs about who we are and how we’re made. Eve opens a refreshing conversation about the equality of men and women within the context of our beginnings, helping us see each other as our Creator does—complete, unique, and not constrained by limitations. When a shipping container washes ashore on an island between our world and the next, John the Collector finds a young woman inside—broken, frozen, and barely alive. With the aid of Healers and Scholars, John oversees her recovery and soon discovers that her genetic makeup is from a known race. No one would guess what her survival will mean... No one but Eve, Mother of the Living, who calls her “daughter” and invites her to witness the truth about her own story—indeed, the truth about us all. As *The Shack* awakened readers to a personal, non-religious universe, this new novel from faulty interpretations that have corrupted human relationships since the Garden of Eden. Thoroughly researched and exquisitely written, *Eve* is a masterpiece that will inspire readers for generations to come.

*"Far too many people around the world know the pain of losing a loved one to drowning. Each year almost 360,000 people die from drowning--over 90% of them in low- and middle income countries. More than half of these deaths are among those younger than 25, with children aged under 5 facing the greatest risk. Drowning is the third leading cause of death worldwide for those aged from 5 to 14. Despite these tragic facts, drowning prevention gets relatively little attention and few resources. There is far more we can do to prevent drowning. Global commitments made as part of the Sustainable Development Goals, for example, cannot be met as long as this preventable cause of death is left largely unchecked. All of us--policymakers, parents, non-profit organizations, businesses and concerned citizens--can help prevent drowning. Explaining how is the goal of this guide. Building on the World Health Organization's 2014 Global report on drowning, the following pages provide practical, step-by-step guidance on how to implement 10 effective measures to prevent drowning. They range from community-based solutions, such as day care for children and barriers controlling access to water, to effective national policies and legislation around water safety, including setting and enforcing boating, shipping and ferry regulations. Data show that all of these solutions can help save lives. The more we work together to implement the measures outlined in this guide, the more lives can be saved. We urge all concerned to adopt as many of the interventions and strategies as their resources will allow, and to protect those most vulnerable without delay."--Page iv.*

*Cardiac arrest can strike a seemingly healthy individual of any age, race, ethnicity, or gender at any time in any location, often without warning. Cardiac arrest is the third leading cause of death in the United States, following cancer and heart disease. Four out of five cardiac arrests occur in the home, and more than 90 percent of individuals with cardiac arrest die before reaching the hospital. First and foremost, cardiac arrest treatment is a community issue - local resources and personnel must provide appropriate, high-quality care to save the life of a community member. Time between onset of arrest and provision of care is fundamental, and shortening this time is one of the best ways to reduce the risk of death and disability from cardiac arrest. Specific actions can be implemented now to decrease this time, and recent advances in science could lead to new discoveries in the causes of, and treatments for, cardiac arrest. However, specific barriers must first be addressed. Strategies to Improve Cardiac Arrest Survival examines the complete system of response to cardiac arrest in the United States and identifies opportunities within existing and new treatments, strategies, and research that promise to improve the survival and recovery of patients. The recommendations of Strategies to Improve Cardiac Arrest Survival provide high-priority actions to advance the field as a whole. This report will help citizens, government agencies, and private industry to improve health outcomes from sudden cardiac arrest across the United States.*

It: Chapter Two—now a major motion picture! Stephen King ’ s terrifying, classic #1 New York Times bestseller, “ a landmark in American literature ” (Chicago Sun-Times)—about seven adults who return to their hometown to confront a nightmare they had first stumbled on as teenagers...an evil without a name: It. Welcome to Derry, Maine. It ’ s a small city, a place as hauntingly familiar as your own hometown. Only in Derry the haunting is real. They were seven teenagers when they first stumbled upon the horror. Now they are grown-up men and women who have gone out into the big world to gain success and happiness. But the promise they made twenty-eight years ago calls them reunite in the same place where, as teenagers, they battled an evil creature that preyed on the city ’ s children. Now, children are being murdered again and their repressed memories of that terrifying summer return as they prepare to once again battle the monster lurking in Derry ’ s sewers. Readers of Stephen King know that Derry, Maine, is a place with a deep, dark hold on the author. It reappears in many of his books, including Bag of Bones, Hearts in Atlantis, and 11/22/63. But it all starts with It. “ Stephen King ’ s most mature work ” (St. Petersburg Times), “ It will overwhelm you...to be read in a well-lit room only ” (Los Angeles Times).

Surfing has been described as a sport, a religion, an obsession and a way of life. For Shaun Tomson, world champion surfer and successful entrepreneur, surfing is all of that and more. In *Surfer’s Code*, Tomson shares the life lessons he’s gathered over many years of surfing - from his boyhood in South Africa to the World Tour in the 70s and 80s. While the lessons Tomson shares are taken from beaches all over the world, they translate powerfully to everyday life and the extraordinary challenges we face. They reflect the attitude and outlook necessary to survive not only the ups and downs of life, but to master them and emerge a winner. His lessons include: I will never turn my back on the ocean; I will always paddle back out; I will watch out for other surfers; there will always be another wave; I will catch a wave every day.

The history of the American Ranger is a long and colorful saga of courage, daring, and outstanding leadership. It is a story of men whose skills in the art of fighting have seldom been surpassed. The United States Army Rangers are an elite military formation that has existed, in some form or another, since the American Revolution. A group of highly-trained and well-organized soldiers, US Army Rangers must be prepared to handle any number of dangerous, life-threatening situations at a moment’s notice-and they must do so calmly and decisively. This is their handbook. Packed with down-to-earth, practical information, *The Ranger Handbook* contains chapters on Ranger leadership, battle drills, survival, and first aid, as well as sections on military mountaineering, aviation, waterborne missions, demolition, reconnaissance and communications. **Named a Best Feel–Good Book by The Washington Post** When a home aide arrives to assist a rambunctious family at a crossroads, simmering tensions boil over in this “witty, exuberant debut” (People) that is an “absolute delight from start to finish” (Sarah Haywood, New York Times bestselling author)—perfect for fans of Where’d You Go, Bernadette and Evvie Drake Starts Over. When Kevin Gogarty’s eighty-three-year-old mother is caught shoplifting yet again, he has no choice but to hire a caretaker to keep an eye on her. Kevin, recently unemployed, is already at his wits’ end tending to a full house while his wife travels to exotic locales for work, leaving him solo with his sulky, misbehaved teenaged daughter. Into the Gogarty fray steps Sylvia,

the upbeat home aide, who appears at first to be their saving grace—until she catapults the Gogarty clan into their greatest crisis yet. “Bracing, hilarious, warm” (Judy Blundell, New York Times bestselling author), *Good Eggs* is an irresistibly charming study in self-determination; the notion that it’s never too late to start living; and the unique redemption that family, despite its maddening flaws, can offer.

After his daughter's murder, a grieving father confronts God with desperate questions -- and finds unexpected answers -- in this riveting and deeply moving #1 NYT bestseller. When Mackenzie Allen Phillips's youngest daughter Missy is abducted during a family vacation, he remains hopeful that she'll return home. But then, he discovers evidence that she may have been brutally murdered in an abandoned shack deep in the Oregon wilderness. Four years later, in this midst of his great sadness, Mack receives a suspicious note that's supposedly from God, inviting him back to that shack for a weekend. Against his better judgment, he arrives on a wintry afternoon and walks back into his darkest nightmare. What he finds there will change his life forever.

Provides information on such topics as first aid, CPR, oxygen administration, waterpark lifeguarding, and waterfront lifeguarding.
