Historian, philosopher, critic, playwright, journalist, and actor, Egon Friedell was a key figure in the extraordinary flowering of Viennese culture between the two world wars. His masterpiece, *A Cultural History of the Modern Age*, demonstrates the intellectual universality that Friedell saw as guarantor of the continuity and regeneration of European civilization. Following a brilliant opening essay on cultural history and why it should be studied, the first volume begins with an analysis of the

The emphasis is on the spiritual and cultural vortex of civilization, but Friedell never forgets the European roots in pestilence, death, and superstition that animate a contrary drive toward reason, refinement, intellectual curiosity, and scientific knowledge. While these values reached their apogee during the Renaissance, Friedell shows that each cultural victory is precarious, and Europe was always in danger of slipping back into barbarism. Friedell's historical vision embraces the whole of Western culture and its development. It is a consistent probing for the divine in the

Taking the Maronites of Mount Lebanon as its focus, it then analyses how agents in the peripheries of the Catholic world struggled to preserve this trust into the early sixteenth century, when everything changed. On one hand, this study finds that suspicion of Christians in Europe generated by the Reformation soon led Catholics to doubt the past and present fidelity of the Maronites and other Christian peoples of the Middle East and Africa. On the other, it highlights how the expansion of the Ottoman Empire caused many Maronites
