The book will serve the requirements of students to prepare for their examinations. Subject-Wise collection of different category questions like Long Essay, Short Answers, and Objective Type & Viva Voce type questions Point wise answers Use of Mnemonics facilitating studying. Use of tables and flowcharts.

The Part 3 MRCOG is a clinical assessment of knowledge, skills, attitudes and competencies. Passing the Part 3 exam leads to the award of the Membership of the Royal College of Obstetricians and Gynaecologists (MRCOG) and remains the essential waypoint for UK trainees to pass from core training to higher training. Trainees must have passed MRCOG Parts 1 and 2 before they can sit the Part 3 exam (Royal College of Obstetricians and Gynaecologists). This book is a complete revision guide for students preparing for the MRCOG Part 3 examination. Beginning with an overview of training in obstetrics and gynaecology in the UK and basics of the exam, the following chapters provide step by step tips and advice on aspects of the exam, patient safety, communication with patients and colleagues, information gathering, application of knowledge, and clinical governance. The book features nearly 50 OSCE scenarios with variations that may be encountered in the exam, as well as clinical problems and their solutions. Related specialties such as anatomy, genetics, immunology, endocrinology, and psychology, are also discussed. Key points Complete revision guide for students preparing for the MRCOG Part 3 examination Features nearly 50 OSCE scenarios that may be encountered in the exam Includes clinical problems and their solutions Discusses structure of the UK National Health Service and the role of midwives in the care of pregnant women

This book is a comprehensive guide to critical care medicine for postgraduate medical students. Presented in a case-based, question and answer format, the text begins with guidance on patient examination in the intensive care unit (ICU). Each of the following chapters covers a different disorder, from acute severe asthma, pulmonary embolism and septic shock, to traumatic brain injury, acute liver failure and much more. The book concludes with cases examining out-of-hospital cardiac arrest, brain death and organ donation, as well as end-of-life care in the ICU. A large selection of Objective Structured Clinical Examination (OSCE) practice questions are included to assist students in their preparation for examinations. Nearly 300 clinical photographs, illustrations and tables further enhance learning. Key points Comprehensive guide to critical care medicine for postgraduates Presented in a case-based, question and answer format Includes numerous OSCE practice questions to help students prepare for examinations Highly illustrated with clinical photographs, diagrams and tables

For courses in Pediatric Nursing. A comprehensive survey of family-centered pediatric nursing care Child Health Nursing: Partnering with Children & Families promotes excellence in nursing care for infants, children, and adolescents--in hospitals and in the community. It focuses on the importance of partnering with families to adapt care plans for children based on their age, health status, and social and cultural influences. The text considers the impact of contemporary care environments on nursing practice, both in health promotion and in the care of children with acute or chronic health conditions. By offering industry best practices and practical applications, the book encourages students to apply evidence-based findings and clinical reasoning to planning superior care. The updated 3rd edition explains how modern nursing practice is affected by reforms to healthcare and its delivery--such as electronic health records, new approaches to chronic and acute condition management, and a focus on prevention. To support safe, effective, and innovative care, this edition draws on the latest recommendations of NANDA International diagnoses, Nursing Intervention Classifications (NIC), Nursing Outcomes Classifications (NOC), and Healthy People 2020. Also available with MyLab Nursing MyLab(tm) Nursing is an online self-study and class preparation program designed to engage students and improve results.
