How a German city became Polish after World War II With the stroke of a pen at the Potsdam Conference following the Allied victory in 1945, Breslau, the largest German city east of Berlin, became the Polish city of Wroclaw. Its more than six hundred thousand inhabitants—almost all of them ethnic Germans—were expelled and replaced by Polish settlers from all parts of prewar Poland. **Uprooted** examines the long-term psychological and cultural consequences of forced migration in twentieth-century Europe through the experiences of Wroclaw's Polish inhabitants. In this pioneering work, Gregor Thum tells the story of how the city's new Polish settlers found themselves in a place that was not only unfamiliar to them but outright repellent given Wroclaw's Prussian-German appearance and the enormous scope of wartime destruction. The immediate consequences were an unstable society, an extremely high crime rate, rapid dilapidation of the building stock, and economic stagnation. This changed only after the city's authorities and a new intellectual elite provided Wroclaw with a Polish founding myth and reshaped the city's appearance to fit the postwar legend that it was an age-old Polish city. Thum also shows how the end of the Cold War and Poland's democratization triggered a public debate about Wroclaw's "amputated memory." Rediscovering the German past, Wroclaw's Poles reinvented their city for the second time since World War II. **Uprooted** traces the complex historical process by which Wroclaw's new inhabitants revitalized their city and made it their own.

Change the world one trip at a time. In this illuminating collection of stories and lessons from the road, acclaimed travel

writer Rick Steves shares a powerful message that resonates now more than ever. With the world facing divisive and often frightening events, from Trump, Brexit, and Erdogan, to climate change, nativism, and populism, there's never been a more important time to travel. Rick believes the risks of travel are widely exaggerated, and that fear is for people who don't get out much. After years of living out of a suitcase, he still marvels at how different cultures find different truths to be self-evident. By sharing his experiences from Europe, Central America, Asia, and the Middle East, Rick shows how we can learn more about our own country by viewing it from afar. With gripping stories from Rick's decades of exploration, this fully revised edition of *Travel as a Political Act* is an antidote to the current climate of xenophobia. When we travel thoughtfully, we bring back the most beautiful souvenir of all: a broader perspective on the world that we all call home. All royalties from the sale of *Travel as a Political Act* are donated to support the work of Bread for the World, a non-partisan organization working to end hunger at home and abroad.

You can count on Rick Steves to tell you what you really need to know when traveling in Eastern Europe—including the Czech Republic, Slovakia, Poland, Hungary, Slovenia, and Croatia. Explore Eastern Europe's top cities, from the romantic spires of Prague and the steamy thermal baths of Budapest to charming Kraków and laid-back Ljubljana. Enjoy the imperial sights of Vienna and walking tours of exotic Dubrovnik. Then delve into the region's natural wonders: hike through the waterfall wonderland at Plitvice Lakes National Park, drive the winding road to the Julian Alps, and watch the sun dip slowly into the Adriatic from the Dalmatian Coast. Rick's candid, humorous advice will guide you to good-value hotels and restaurants. He'll help you plan where to go and what to see, depending on the length of your trip. You'll learn which sights are worth your time and money, and how to get around by train, bus, car, and boat. More than just reviews and directions, a Rick Steves guidebook is a tour guide in your pocket.

One of Bloomberg's Best Books of the Year The master geopolitical forecaster and New York Times bestselling author of *The Next 100 Years* focuses on the United States, predicting how the 2020s will bring dramatic upheaval and reshaping of American government, foreign policy, economics, and culture. In his riveting new book, noted forecaster and bestselling author George Friedman turns to the future of the United States. Examining the clear cycles through which the United States has developed, upheaved, matured, and solidified, Friedman breaks down the coming years and decades in thrilling detail. American history must be viewed in cycles--particularly, an eighty-year "institutional cycle" that has defined us (there are three such examples--the Revolutionary War/founding, the Civil War, and World War II), and a fifty-year "socio-economic cycle" that has seen the formation of the industrial classes, baby boomers, and the middle classes. These two major cycles are both converging on the late 2020s--a time in which many of these foundations will change. The United States will have to endure upheaval and possible conflict, but also, ultimately, increased strength, stability, and power in the world. Friedman's analysis is detailed and fascinating, and covers issues such as the size and scope of the federal government, the future of marriage and the social contract, shifts in corporate structures, and new cultural trends that will react to longer life expectancies. This new book is both provocative and entertaining.

"Travel is no longer a past-time but a colossal industry, arguably one of the biggest in the world and second only to oil in importance for many poor countries. One out of 12 people in the world are employed by the tourism industry which contributes \$6.5 trillion to the world's economy. To investigate the size and effect of this new industry, Elizabeth Becker traveled the globe. She speaks to the Minister of Tourism of Zambia

who thinks licensing foreigners to kill wild animals is a good way to make money and then to a Zambian travel guide who takes her to see the rare endangered sable antelope. She travels to Venice where community groups are fighting to stop the tourism industry from pushing them out of their homes, to France where officials have made tourism their number one industry to save their cultural heritage; and on cruises speaking to waiters who earn \$60 a month--then on to Miami to interview their CEO. Becker's sharp depiction reveals travel as a product; nations as stewards. Seeing the tourism industry from the inside out, the world offers a dizzying range of travel options but very few quiet getaways"--

As riveting as the man it portrays, Warlord is a masterful, unsparing portrait of Winston Churchill, one of history's most fascinating and influential leaders. "Epic. . . . A brilliantly exciting narrative. . . . D'Este has given us, finally, the lion not only in winter, but at war: impetuous, brazen, misguided, but indefatigable, indomitable, and magnanimous: the greatest and most energetic generalissimo of the 20th century." —Boston Globe Carlo D'Este's definitive chronicle of Churchill's crucial role in the major military campaigns of the 20th century, Warlord uses extensive, untapped archival materials to provide "a very human look at Churchill's lifelong fascination with soldiering, war, and command." (Washington Post)

In Postcards from Europe, Rick Steves takes you on a private tour through the heart of Europe - introducing you to his local friends and sharing his favorite travel moments - from the Netherlands through Germany, Italy, and Switzerland, with a grand Parisian finale. Whether you're dreaming in an armchair, have packed, or are unpacking, Postcards from Europe will inspire a love of travel, of Europe, and of Europeans.

Write guidebooks, make travel TV, lead bus tours? Cameron Hewitt has been Rick Steves' right hand for more than 20 years, doing just that. The Temporary European is a collection of vivid, entertaining travel tales from across Europe. Cameron zips you into his backpack for engaging and inspiring experiences: sampling spleen sandwiches at a Palermo street market; hiking alone with the cows high in the Swiss Alps; simmering in Budapest's thermal baths; trekking across an English moor to a stone circle; hand-rolling pasta at a Tuscan agriturismo; shivering through Highland games in a soggy Scottish village; and much more. Along the way, Cameron introduces us to his favorite Europeans. In Mostar, Alma demonstrates how Bosnian coffee isn't just a drink, but a social ritual. In France, Mathilde explains that the true mastery of a fromager isn't making cheese, but aging it. In Spain, Fran proudly eats acorns, but never corn on the cob. While personal, the stories also tap into the universal joy of travel. Cameron's travel motto (inspired by a globetrotting auntie) is "Jams Are Fun"—the fondest memories arrive when your best-laid plans go sideways. And he encourages travelers to stow their phones and guidebooks, slow down, and savor those magic moments that arrive between stops on a busy itinerary. The stories are packed with inspiration and insights for your next trip, including how to find the best gelato in Italy, how to select the best produce at a Provençal market, how to navigate Spain's confusing tapas scene, and how to survive the experience of driving in Sicily (hint: just go numb). And you'll get a reality check for every traveler's "dream job": researching and writing guidebooks; guiding busloads of Americans on tours around Europe; scouting and producing a travel TV show; and working with Rick Steves and his merry band of travelers. It's a candid account of how the sausage gets made in the travel business—told with warts-and-all honesty and a sense of humor. For Rick Steves fans, or anyone who loves Europe, The Temporary European is inspiring, insightful, and fun.

A sweeping yet intimate narrative about the last hundred years of turbulent European history, as seen through one of Mitteleuropa's greatest houses—and the lives of its occupants When Norman Eisen moved into the US ambassador's residence in Prague, returning to the land his mother had fled after the Holocaust, he was startled to discover swastikas hidden beneath the furniture in his new home. These symbols of Nazi Germany were remnants of the residence's forgotten history, and evidence that we never live far from the past. From that discovery unspooled the twisting, captivating tale of four of the remarkable people who had called this palace home. Their story is Europe's, and The Last Palace chronicles the upheavals that transformed the continent over the past century. There was the optimistic Jewish financial baron, Otto Petschek, who built the palace after World War I as a statement of his faith in democracy, only to have that faith shattered; Rudolf Toussaint, the cultured, compromised German general who occupied the palace during World War II, ultimately putting his life at risk to save the house and Prague itself from destruction; Laurence Steinhardt, the first postwar US ambassador whose quixotic struggle to keep the palace out of Communist hands was paired with his pitched efforts to rescue the country from Soviet domination; and Shirley Temple Black, an eyewitness to the crushing of the 1968 Prague Spring by Soviet tanks, who determined to return to Prague and help end totalitarianism—and did just that as US ambassador in 1989. Weaving in the life of Eisen's own mother to demonstrate how those without power and privilege moved through history, The Last Palace tells the dramatic and surprisingly cyclical tale of the triumph of liberal democracy.

This book explores the role of cultural heritage in post-conflict reconstruction, whether as a motor for the prolongation of violence or as a resource for building reconciliation. The research was driven by two main goals: to understand the post-conflict reconstruction process and to identify how this process evolves in the medium term and the impact it has on society. The Spanish Civil War (1936-39) and its subsequent phases of reconstruction provides the primary material for this exploration. In pursuit of the first goal, the book centers on the material practices and rhetorical strategies developed around cultural heritage in post-civil war Spain and the victorious Franco regime's reconstruction. The analysis captures a discursively complex set of practices that made up the reconstruction and in which a variety of Spanish heritage sites were claimed, rebuilt or restored, and represented - as signs of historical narratives, political legitimacy, and group identity. The reconstruction of the town of Gernika is a particularly emblematic instance of destruction and a significant symbol within the Basque regions of Spain, as well as internationally. By examining Gernika, it is possible to identify some of the trends common to the reconstruction as a whole, along with those aspects that pertain to its singular symbolic resonance. In order to achieve the second goal, the book examines the processes of selection, value change, and exclusionary dynamics of reconstruction. Exploring the possible impact of post-civil war reconstruction in the medium term is conducted in two time frames: the period of political transition that followed General Franco's death in 1975, and the 2004-2008 period when Rodriguez Zapatero's government undertook initiatives to 'recover the historic memory' of the war and dictatorship. Finally, the observations made of the Spanish reconstruction are analyzed in terms of how they might reveal general trends in post-conflict reconstruction processes in relation to cultural heritage. These insights are pertinent to the situations in Cambodia, Bosnia and Herzegovina, Afghanistan, and Iraq.
