The topics are arranged so that each builds upon the previous chapter to convey to the reader that topics are not stand-alone items during the design process, and that they all must come together to produce a successful design. Because the complete design or modification of modern equipment and systems requires knowledge of current industry practices, the authors highlight the use of manufacturer's catalogs to select equipment, and practical examples are included throughout to give readers an exhaustive illustration of the fundamental aspects of the design process. Many readers claim the beautiful advertising—all of it design-related, no “lifestyle” ads—is as important to them as the articles.

Ruminations is a collection of poems that were all written in 2021. Covid-19 was ravaging the world and most of us were stuck at home. The first poem, “Sweetheart”, was written on my wedding anniversary. Typically, I go to our backyard to make a rose bouquet for my wife. This year, there were no roses in the garden. Fearing how my wife would react prompted me to write this poem. I shared the poem with my siblings who were all taken aback

that I could write poetry. They encouraged me to write more. And my journey in verse began. I cannot say I am a poet but I did discover that I was able to take everyday life situations and put them in verse. Hence the title [Ruminations, Flashes of Thoughts, Sentiments and Emotions]. I then shared with other family members and friends and the reaction was encouraging. I also started blogging. I now have written just under 300 poems in 2021. Not sure if this will be a lifelong passion or not. Time will tell. But I hope you enjoy reading these as much as I have enjoyed writing them.
