A comprehensive overview of the cultural world and diplomatic strategies of Florentine patricians by revealing their contribution to the court culture of the Medici and the mechanisms behind their brokerage activities.

Now a major motion picture directed by and starring Clint Eastwood, a riveting novel of an aging rodeo star's last ride. Mike's best years are behind him. There was a time when he was the best rider in the circuit, but a divorce and years of hard living have worn his body down. After an accident, his career comes to an abrupt end, but his boss gives him one last job: he must

cross the border into Mexico, kidnap his boss's son, Rafo, from his boss's ex-wife, to be used as leverage in their ongoing divorce. Mike arrives to find the boy has already run away, and his plan is immediately exposed to the local police. When he finds Rafo living on the streets of Mexico city, supporting himself though petty crime and winnings from the occasional cockfight, Mike convinces the boy to come back to Texas. Still running from the law, the two set out on a journey northward that forges an unlikely friendship and forces both to reckon with the choices they've made in pursuit of being "macho." Originally published in 1976, N. Richard Nash's novel of friendship and the search for identity is now being adapted for the

New Trends in Audiovisual Translation is an innovative and interdisciplinary collection of articles written by leading experts in the emerging field of audiovisual translation (AVT). In a highly accessible and engaging way, it introduces readers to some of the main linguistic and cultural challenges that translators encounter when translating films and other audiovisual productions. The chapters in this volume examine translation practices and experiences in various countries, highlighting how AVT plays a crucial role in shaping debates about languages and cultures in a world increasingly dependent on audiovisual media. Through analysing materials which have been dubbed and subtitled like

This 'dream-laden and spooked'
(Marina Warner, London Review of Books) story is to many one of the best-loved books of the twentieth century. Munthe spent many years working as a doctor in Southern Italy, labouring unstintingly during typhus, cholera and earthquake disasters. It

was during this period that he came across the ruined Tiberian villa of San Michele, perched high above the glittering Bay of Naples on Capri. With the help of Mastro Nicola and his three sons, and with only a charcoal sketch roughly drawn on a garden wall to guide them, Munthe devoted himself to rebuilding the house and chapel. Over five long summers they toiled under a sapphire-blue sky, their mad-cap project leading them to buried skeletons and ancient coins, and to hilarious encounters with a rich cast of vividly-drawn villagers. *The Story of San Michele* reverberates with the mesmerising hum of a long, hot Italian summer. Peopled with unforgettable characters, it is as brilliantly enjoyable and readable today as it was upon first publication. The book quickly became an international bestseller and has

Buenos Aires, settembre 1930. Il conte Antoine de Saint-Exupéry ha già pubblicato i primi romanzi, ma la sua vita è dedicata al volo: esperto aviatore, dirige a Buenos Aires la linea aerostale Argentina-Francia, inaugurando nuove rotte in tutta l'America Latina. È in questo ruolo che conosce la giovane Consuelo Suncín Sandoval. Scrittrice, giornalista, scultrice e pittrice, Consuelo è uno spirito libero, al limite dello scandalo: a poco meno di trent'anni ha già un divorzio e due matrimoni alle spalle. Molti la descrivono come un vulcano, dalla cui forza vitale Antoine de Saint-Exupéry rimane affascinato. Tra i due,

immediatamente, esplode la passione. La loro relazione turbolenta, fatta di continue separazioni e commoventi ricongiungimenti, darà vita a una delle più belle corrispondenze d'amore del XX secolo. La vita della coppia sarà tutt'altro che semplice: il loro amore è continuamente messo alla prova dalle lunghe fughe di «Tonio» e dal desiderio di libertà di Consuelo, ma a unirli è la comune capacità di immaginare storie e creare mondi popolati di stelle, piccoli animali e ogni genere di tesori. La promessa reciproca di un amore incondizionato permetterà loro di sopportare l'inquietudine e la lontananza, quando Saint-Exupéry deciderà di arruolarsi volontario nella seconda guerra mondiale. Tonio è consapevole dei rischi che corre e sa che potrebbe non tornare più, mentre Consuelo non

smetterà mai di credere al ritorno del suo principe volante. Poco prima dell'incidente nel quale perderà la vita, lo scrittore aviatore aveva pubblicato a New York il libro destinato a diventare il suo più grande successo: una fiaba sognante e delicata nella quale un giovane principe compare magicamente davanti a un aviatore in panne, in mezzo al deserto del Sahara. L'immaginario è lo stesso che troviamo nel lessico amoroso di queste lettere inedite, che svelano in controluce la realtà dietro la fantasia, permettendoci di vedere Il Piccolo Principe come la più bella lettera d'amore di Tonio a Consuelo, del principe alla sua rosa.

Renaissance Fun is about the technology of Renaissance entertainments in stage machinery and

theatrical special effects; in gardens and fountains; and in the automata and self-playing musical instruments that were installed in garden grottoes. How did the machines behind these shows work? How exactly were chariots filled with singers let down onto the stage? How were flaming dragons made to fly across the sky? How were seas created on stage? How did mechanical birds imitate real birdsong? What was 'artificial music', three centuries before Edison and the phonograph? How could pipe organs be driven and made to play themselves by waterpower alone? And who were the architects, engineers, and craftsmen who created these wonders? All these questions are answered. At the end of the book we visit the lost 'garden of marvels' at Pratolino with its many grottoes,

automata and water jokes; and we attend the performance of Mercury and Mars in Parma in 1628, with its spectacular stage effects and its music by Claudio Monteverdi – one of the places where opera was born.

Renaissance Fun is offered as an entertainment in itself. But behind the show is a more serious scholarly argument, centred on the enormous influence of two ancient writers on these subjects, Vitruvius and Hero. Vitruvius's Ten Books on Architecture were widely studied by Renaissance theatre designers. Hero of Alexandria wrote the Pneumatics, a collection of designs for surprising and entertaining devices that were the models for sixteenth and seventeenth century automata. A second book by Hero On Automata-Making – much less well known, then and now – describes two

miniature theatres that presented plays without human intervention. One of these, it is argued, provided the model for the type of proscenium theatre introduced from the mid-sixteenth century, the generic design which is still built today. As the influence of Vitruvius waned, the influence of Hero grew.

Following discussions on scientific biography carried out over the past few decades, this book proposes a kaleidoscopic survey of the uses of biography as a tool to understand science and its context. It offers food for thought on the role played by the

gender of the biographer and the biographee in the process of writing. To provide orientation in such a challenging field, some of the authors have accepted to write about their own professional experience while reflecting on the case studies they have been working on. Focusing on (auto)biography may help us to build bridges between different approaches to men and women's lives in science. The authors belong to a variety of academic and professional fields, including the history of science, anthropology, literary studies, and science journalism. The period covered spans from 1732, when Laura Bassi was the first woman to get a tenured professorship of physics, to 2009,

This book offers the first comprehensive study of recent, popular Italian television.

Building on work in American television studies, audience and reception theory, and masculinity studies, *Sympathetic Perpetrators and their Audiences on Italian Television* examines how and why viewers are positioned to engage emotionally with—and root for—Italian television antiheroes. Italy's most popular exported series feature alluring and attractive criminal antiheroes, offer fictionalized accounts of historical events or figures, and highlight the routine violence of

daily life in the mafia, the police force, and the political sphere. Renga argues that Italian broadcasters have made an international name for themselves by presenting dark and violent subjects in formats that are visually pleasurable and, for many across the globe, highly addictive. Taken as a whole, this book investigates what recent Italian perpetrator television can teach us about television audiences, and our viewing habits and preferences.

Salvatore DiMaria offers a masterful assessment of the entangled issues that have produced the South's image as impoverished and backwards, such as organized crime, illiteracy, and mass emigration. Documenting the state's largely failed efforts to bring the South into its socio-economic fold, DiMaria also points to the future, arguing that the European Union and globalization are transformative forces that may

In 1720, Antonio Stradivari crafted an exquisite work of art—a cello known as the Piatti. Over the next three centuries of its life, the Piatti cello left its birthplace of Cremona, Italy, and resided in Spain, Ireland, England, Italy, Germany, and the United States. The Piatti filled sacred spaces, such as the Santa Cueva de Cádiz, with its incomparable voice. It also spent time in more profane places, including New York City bars, where it served as a

guarantee for unpaid liquor tabs. The Piatti narrowly escaped Nazi Germany in 1935 and was once even left lying in the street all night. In 1978, the Piatti became the musical soul mate of world-renowned cellist Carlos Prieto, with whom it has given concerts around the world. In this delightful book, Mr. Prieto recounts the adventurous life of his beloved "Cello Prieto," tracing its history through each of its previous owners from Stradivari in 1720 to himself. He then describes his noteworthy experiences of playing the Piatti cello, with

which he has premiered some eighty compositions. In this part of their mutual story, Prieto gives a concise summary of his own remarkable career and his relationships with many illustrious personalities, including Igor Stravinsky, Dmitry Shostakovich, Pablo Casals, Mstislav Rostropovich, Yo-Yo Ma, and Gabriel García Márquez. To make the story of his cello complete, Mr. Prieto also provides a brief history of violin making and a succinct review of cello music from Stradivari to the present. He highlights the work of

composers from Latin America, Spain, and Portugal, for whose music he has long been an advocate and principal performer. Thus, *The Adventures of a Cello* offers not only the first biography of a musical instrument but also an inviting overview of cello music and its preeminent composers and performers. This book examines the politics of legitimacy as they played out across Europe in response to Napoleon's dramatic return to power in France after his exile to Elba in 1814. Napoleon had to re-establish his claim to power

with initially minimal military resources. Moreover, as the rest of Europe united against him, he had to marshal popular support for his new regime, while simultaneously demanding men and money to back what became an increasingly inevitable military campaign. The initial return – known as ‘the flight of the eagle’ – gradually turned into a dogged attempt to bolster support using a range of mechanisms, including constitutional amendments, elections, and public ceremonies. At the same time, his opponents had to marshal

their resources to challenge his return, relying on populations already war-weary and resentful of the costs they had had to bear. The contributors to this volume explore how, for both sides, cultural politics became central in supporting or challenging the legitimacy of these political orders in the path to Waterloo.
