Multi-denominational

means to be a church.

These parishes have

chosen to covenant together for worship, service, ministry, mission, and nurturing of faith across two or more denominational traditions. Daring to Share tells their stories, investigates their practices, and proposes a fresh vision of church for the twenty-first century. This book equips ordained and lay leaders

for the formation and flourishing of such ministries. It describes five models of partnership, analyzes the parish life cycle, interprets how worship works, addresses constitutional and governance issues, and reflects theologically on the intersection of diversity and unity. What can we learn from these

Download Free Roman Catholic Liturgical Calendar 2015

congregations? Studying their particular witness, struggles, and promise for the future fills a gap in both congregational studies and contemporary ecclesiology. Multi-denominational parishes are more than a convenient way to revitalize congregational ministry. They present new opportunities and

approaches for sharing the gospel. Ecumenical convergence meets demographic realities to suggest a mission strategy that will transform local practice and, perhaps, the church itself. By daring to share, these churches challenge a fractured world.

This book, based on extensive original research, examines the

nature of Catholicism in the contemporary Philippines. It shows how Catholicism is apparently flourishing, with good attendance at Sunday Masses, impressive religious processions and flourishing charismatic groups, and with interventions by the Catholic hierarchy in national and local politics. However,

focusing in particular on the beliefs and practices of young people, the book shows that young people are often adopting a different, more individualised approach to Catholicism, which is frequently out of step with the official position. It considers the features of this: a more personal and experiential relationship with God; a

new approach to morality, in which right living is seen as more important than right believing; and a critical view of what is seen as the Catholic hierarchy's misguidedness. The book argues that this reinterpreting of religion by young people has the potential to alter fundamentally the nature of Catholicism in the

broad-ranging
compendium of the

events, conflicts, and progress recently seen throughout the world. Written from the perspective of an immigrant with a particular heart for the poor, this unique tome focuses on the influential work of two world leaders, United States President Barack Obama and Pope Francis. Bepty Antoine utilizes historical

and cultural knowledge to frame events within a larger context, presenting the actions both men have taken to further social justice issues, often connecting these concerns to environmental crises.

Drawing on the tenants of their Christian faith, both the President and the Pope have sought to defend immigrants,

refugees, and the global poor, and their efforts, often in the face of extreme opposition, are carefully detailed and celebrated. 2014: The Year of Action focuses on the impressive achievements of two modern heroes and places their struggles for progress within the wider context of current events and popular culture.
