*This book constitutes the refereed proceedings of the 20th International Conference on Runtime Verification, RV 2020, held in Los Angeles, CA, USA, in October 2020. The conference was held virtually due to the COVID-19 pandemic. The 14 regular papers and 2 short papers presented in this book were carefully reviewed and selected from 43 submissions. Also included are an invited paper, 5 tutorial papers, 6 tool papers, and a benchmark paper. The RV conference is concerned with all aspects of monitoring and analysis of hardware, software and more general system executions. The papers are organized in the following topical sections: runtime verification for autonomy; runtime verification*

**the gripping sixth instalment in the acclaimed DCI Mark Lapslie series. When Isabel, a British university student, travels to a remote Spanish town it isn't only to enjoy the atmosphere. It's also to trace how and why her family name might have derived from the town, a quest her father, Sebastian made nine years ago, not long before his death in a car accident. But as Isabel, aided by local guide Mauricio, starts digging into her family's possible links with Alarcon, she's unprepared for the dark secrets uncovered; secrets that the current ruling nobility of Alarcon are keen to keep buried. Ten days into her stay in Alarcon, Isabel mysteriously disappears, presumed dead. Inspector Mark Lapslie and DC Emma Bradbury**

**are sent out to investigate alongside the local Spanish police. A possible gangland link is suspected - Isabel's stepfather in Valencia is a retired British gangster and a mob-hitman from Malaga is identified in Alarcon at the time of Isabel's disappearance. But Mauricio, suspects the Mayor's son, Dario, is the real culprit - to uncover the truth, Lapslie and Bradbury must delve into the murky, chequered past of Isabel's gangland stepfather while also following in her footsteps through Alarcon's dark and tempestuous history.**

Old comrades unite amid the chaotic collapse of a world power, and rebel armies form new alliances. A princess learns of her true heritage while tribes waken powers of olden. A practitioner of occult science self-fulfills temple prophecy by resurrecting his father from the grave, only to realize the Free People he despises have become his only salvation. Many believe these inevitable events were written in the stars from the dawn of time, and prophets are merely observant students of precession who study repetitive patterns within endless successions of natural cycles. Others say it is impossible to predict legendary incidents which happened before and are

destined to occur again. Civilizations have come and gone, leaving historical warnings carved on ancient walls. Unheeded and forgotten by myth, eras are reborn to rise and fall until there comes an age when every god's immortality nears its end... Set in a post-apocalyptic future, Time's Disease offers the classical allure of mythology with enduring messages very relevant to current events. Futuristic themes revolve around castle landscapes to create this novel recipe: a dash of mysticism, sprinkled by romance and topped by spatters of horror. Sup from hope's cup amid epic tragedy, to partake of this bold tale. Revealed by Illiana Rhea and told by the

***Mobilität ist der Motor unseres***

***Wohlstandes. Verschlingt aber enorme***

***Mengen Erdöl und ist für einen großen Teil der Schadstoffemissionen verantwortlich. 2050 werden neun Milliarden Menschen auf der Erde leben und Mobilität auf Basis von Erdöl scheint unmöglich. Vielen gilt die Elektromobilität als Lösung dieser Probleme. Die meisten Automobilhersteller planen die Einführung von Elektrofahrzeugen oder haben bereits Modelle im Angebot. Die Zukunft der Elektromobilität liegt weitestgehend im Dunklen und von einem Massenmarkt ist man heute weit entfernt. Diese Arbeit***

***entwirft Szenarien der Elektromobilität und der Mobilität im Allgemeinen für die nächsten Jahrzehnte. Sie zeigt auf, wie sich Mobilität und eine ganze Industrie wandeln könnten und welche Chancen und Risiken daraus für die deutsche Automobilindustrie resultieren. Eine wirklich schöne Arbeit. Sehr ausführlich, ein schöner Rundumblick durch die Elektromobilität. (Projektleitung e.Motion, Volkswagen AG)
