The Road to Sparta is the story of the 153-mile run from Athens to Sparta that inspired the marathon and saved democracy, as told—and experienced—by ultramarathoner and New York Times bestselling author Dean Karnazes. In 490 BCE, Pheidippides ran for 36 hours straight from Athens to Sparta to seek help in defending Athens from a Persian invasion in the Battle of Marathon. In doing so, he saved the development of Western civilization and inspired the birth of the marathon as we know it. Even now, some 2,500 years later, that run stands enduringly as one of the greatest physical accomplishments in the history of mankind. Karnazes personally honors Pheidippides and his own Greek heritage by recreating this ancient journey in modern times. Karnazes even abstains from contemporary endurance nutrition like sports drinks and energy gels and only eats what was available in 490 BCE, such as figs, olives, and cured meats. Through vivid details and internal dialogs, The Road

to Sparta offers a rare glimpse into the mindset and motivation of an extreme athlete during his most difficult and personal challenge to date. This story is sure to captivate and inspire—whether you run great distances or not at all.

It just isn't Noodle's fault that his mom forgot to remind him to turn in his library book. Or that he didn't finish his homework. Luckily he learns not to blame others, but instead to take responsibility for his actions.

Ella Mae is used to wearing her cousin's hand-me-down shoes—but when her latest pair is already too tight, she's thrilled at the chance to get new shoes. But at the shoe store, Ella Mae and her mother have to wait until there are no white customers to serve first. She doesn't get to try anything on, either—her mother traces her feet onto a sheet of paper, and the salesman brings them a pair he thinks will fit. Disappointed by her treatment, Ella Mae and her cousin Charlotte hatch a plan to help others in their community find better-fitting shoes without humiliation. Eric Velasquez' realistic oil paintings bring life to this story of a young girl's determination in the face of injustice. The book includes an author's note from Susan Lynn Meyer, discussing the historical context of the story and how the Civil Rights Movement worked to abolish unfair laws like the ones Ella Mae encounters. "This book is a gem: vivid, fun and thoughtful. It's like sitting next to a skillful, experienced, focused teacher in a real classroom. Kristi and Christine draw on their years of teaching and their dedication to educating children to help students become more empathic and act more thoughtfully and to prepare them with the essentials for success in an

uncertain future." -Arthur Costa, author of Learning and Leading with Habits of Mind We know how to teach content and skills. But can we teach the habits of mind needed for academic success, a love of learning, and agency in the world? We can, and A Mindset for Learning shows us how. "We want our students to take on challenges with zeal," write Kristi Mraz and Christine Hertz, "to see themselves not as static test scores but as agents of change." Drawing on the work of Carol Dweck, Daniel Pink, Art Costa, and others, Kristi and Christine show us how to lead students to a growth mindset for school-and life-by focusing on five crucial, research-driven attitudes: optimism-putting aside fear and resistance to learn something new persistence-keeping at it, even when a task is hard flexibility-trying different ways to find a solution resilience-bouncing back from setbacks and learning from failure empathy-learning by putting oneself in another person's shoes. A Mindset for Learning pairs research-psychological, neurological, and pedagogical-with practical classroom help, including instructional language, charts and visuals, teaching tips, classroom vignettes, and more. "This book holds our dreams for all children," write Kristi and Christine, "that they grow to be brave in the face of risk, kind in the face of challenge, joyful and curious in all things." If you want that for your students, then help them discover A Mindset for Learning.

When a young slave named Addy goes fishing one spring day, she doesn't catch any fish. Instead, she finds a little boy in a basket floating in the river. Jabe is no ordinary boy: in a few short months, he grows to be a big, strong man with the strength of fifty. He can pick an entire field of cotton by himself in just one night and day. Why, he even has the power to turn a tired old workhorse into a young filly ready to race! When slaves begin to miraculously disappear from the Plenty Plantation, Addy knows in her heart that Jabe is the reason why.

Michael Jordan's Greatest Moments

After endless practice hours on the court, a young Michael Jordan reached the day when his moves were as good as his brother Larry, and so challenged him to a game for all to see--becoming the victor to the surprise of his family.

A mother describes the many ways that she shows her love for her child throughout the day.

From the coauthor of Salt in His Shoes Deloris Jordan comes a comforting book of prayers collected from faiths and all over the world. From cultures and countries near and far, this collection of more than twenty poems and prayers especially to share with children affirms the wonder and beauty of all things great and small in our world. Whether flowers in spring, the wind and the rain, the wide sunset sky or friends and family who we hold dear, there are many ways to give thanks for the world we live in.

From the age of nine years, Michael dreams of playing basketball for the United States in the Olympics, and with help and his mother's encouragement, he realizes his dream.

From the award-winning and bestselling author of Cod comes the dramatic, human story of a simple substance, an element almost as vital as water, that has created fortunes, provoked revolutions, directed economies and enlivened our recipes. Salt is common, easy to obtain and inexpensive. It is the stuff of kitchens and cooking. Yet trade routes were established, alliances built and empires secured — all for something that filled the oceans, bubbled up from springs, formed crusts in lake beds, and thickly veined a large part of the Earth ' s rock fairly close to the surface. From pre-history until just a century ago — when the mysteries of salt were revealed by modern chemistry and geology — no one knew that salt was virtually everywhere. Accordingly, it was one of the most sought-after commodities in human history. Even today, salt is a major industry. Canada, Kurlansky tells us, is the world ' s sixth largest salt producer, with salt works in Ontario playing a major role in satisfying the Americans ' insatiable demand. As he did in his highly acclaimed Cod, Mark Kurlansky once again illuminates the big picture by focusing on one seemingly modest detail. In the process, the world is revealed as never before.
