*As people face addictions, deal with loss and grief, and seek help in restoring broken relationships, where can they turn for counsel and assistance? The local church has been uniquely blessed with the gift of the gospel and is able to offer hope and counsel that no other institution on earth can. In *Biblical Counseling and the Church*, Bob Kellemen and Kevin Carson have assembled over twenty respected ministry leaders who examine the relationship between counseling and the church. This comprehensive resource, part of the *Biblical Counseling Coalition* series, helps leaders and counselors develop a vision that goes beyond being a church with a biblical counseling ministry to becoming a church of biblical counseling—a church culture that is saturated by “one-another” ministry. Divided into five parts, *Biblical Counseling and the Church* will help church leaders: Unite the pulpit ministry of preaching the Word with the personal ministry of the Word in counseling Offer practical and theological training*

through a mission organized by the South Church of New Britain, larger numbers of Assyrian families later migrated to the United States in an attempt to find security during World War I. Since their arrival, New Britain has seen its Assyrian community thrive and grow. Upon settling in New Britain, many Assyrians put endless effort into helping recent immigrants find shelter and jobs. They also created an Assyrian magazine and established learning centers to ensure that the traditions, language, and history of Assyrian culture were not lost. These efforts were secured by the establishment of St. Thomas Church of the East in 1957. The history of New Britain's Assyrian community has been documented and collected for the past 100 years by local residents utilizing the New Britain Public Library, South Church, St. Marks Church, and St. Thomas Church.

into English for the first time. Not only an outstanding travel account, it proves to be a lode of background material that will be valued by the general reader, historians, political scientists, sociologists, and other scholars. Busch was keenly interested in the working of American institutions -- government, religion, economy, and social customs -- and his descriptions rank with the best contemporary accounts. His concern in studying American mores was to understand what made the New World different from -- and apparently on the way to surpassing -- the Old. Busch traveled the rivers and back roads, noting what Americans ate and drank, how they dressed and talked, gave their opinions on religion and politics. He described boats, stagecoaches, schools, hotels, and passed on folk tales and regional history as told by his many hosts. This engaging work is annotated with translator's notes to explain Busch's references to German literature and history, as well as more obscure points of American geography and history.
