IES SAT books are designed to follow a compact format yet offer the student test taker a wealth of advice and practice material. This discipline-specific New SAT Grammar book features ten full Writing and Language practice tests, along with intensive, memorable lessons that show students how to deal with the nuances and intricacies of the New SAT. Study of essential grammar rules and practice with the most accurate, most relevant material are the essentials of success on the New 2016 SAT. Like its predecessor, the re-designed SAT tests the fundamentals of verb usage, sentence construction, comparison, and English diction. But the new test has also shifted emphasis, and shifted radically: punctuation, paragraph coordination, and uses of visual evidence will pose new challenges. It will be necessary to break bad writing habits, and to leave behind awkward or incorrect colloquial expressions, more aggressively than ever before. Precision-edited and classroom-tested you will find tips and tricks on subject-verb agreement, parallelism, redundancy, and idiomatic expressions. These tips have guided numerous IES students to success on the old SAT and are just as relevant to the new version. Yet new sections on coherence, style, and using visual resources will give you everything you need to approach the questions that are unique to the passage-based New SAT. To break the bad habits formed in everyday speech and undisciplined writing, and to truly grasp all question types on the New SAT Language and Writing, you need this book. Once you have completed the lessons, exercise your new knowledge using the ten practice tests all based on the newest released tests from the College Board itself. We at IES have confidence that you can control the New SAT.

Organized by specific reading skills, this book is designed to enhance students' reading comprehension. The focused, meaningful practice and entertaining topics motivate students to learn.

Do you sometimes wonder how your teen is ever going to survive on his or her own as an adult? Does your high school junior seem oblivious to the challenges that lie ahead? Does your academically successful nineteen-year-old still expect you to "just take care of" even the most basic life tasks? Welcome to the stunted world of the Endless Adolescence. Recent studies show that today's teenagers are more anxious and stressed and less independent and motivated to grow up than ever before. Twenty-five is rapidly becoming the new fifteen for a generation suffering from a debilitating "failure to launch." Now two preeminent clinical psychologists tell us why and chart a groundbreaking escape route for teens and parents. Drawing on their extensive research and practice, Joseph Allen and Claudia Worrell Allen show that most teen problems are not hardwired into teens' brains and hormones but grow instead out of a "Nurture Paradox" in which our efforts to support our teens by shielding them from the growth-spurring rigors and rewards of the adult world have backfired badly. With compelling examples and practical and profound suggestions, the authors outline a novel approach for producing dramatic leaps forward in teen maturity, including

- Turn Consumers into Contributors Help teens experience adult maturity—its bumps and its joys—through the right kind of employment or volunteer activity.
- Feed Them with Feedback Let teens see and hear how the larger world perceives them. Shielding them from criticism—constructive or otherwise—will only leave them unequipped to deal with it when they get to the "real world."
- Provide Adult Connections Even though they'll deny it, teens desperately need to interact with adults (including parents) on a more mature level—and such interaction will help them blossom!
- Stretch the Teen Envelope Do fewer things for teens that they can do for themselves, and give them tasks just beyond their current level of competence and comfort. Today's teens are starved for the lost fundamentals they need to really grow: adult connections and the adult rewards of autonomy, competence, and mastery. Restoring these will help them unlearn their adolescent helplessness and grow into adults who can make you—and themselves—proud.
