This book examines the increasing role of the legal method of systematisation in European Union (EU) law. It argues that the legal method of systematisation that has been developed in a welfare-state context is increasingly used as a regulative tool to functionally integrate the market. illustrate the impact of systematisation on EU law. It draws conclusions from this phenomenon and redefines the current place and origin of systematisation in the EU legal system. It puts forward and demonstrates two main arguments. First, in certain sectors such as in EU product safety law, the quality of EU law changes from a sector-specific and reactive field of law to an increasingly coherent legal system at European level. Therefore, instead of punctual market intervention, it increasingly governs whole market areas. By doing so, it challenges and often fully replaces the respective welfare-based legal systems in the Member States for the benefit of the ideal of

The Diary of a Madman is a short story by Guy de Maupassant. Henri Rene Albert Guy de Maupassant (5 August 1850 - 6 July 1893) was a popular 19th-century French writer, considered one of the fathers of the modern short story and one of the form's finest exponents. A protege of Flaubert, Maupassant's stories are characterized by their economy of style and efficient, effortless denouements. Many of the stories are set during the Franco-Prussian War of the 1870s and several describe the futility of war and the

For many observers, the European Union is mired in a deep crisis. Between sluggish growth; political turmoil following a decade of austerity politics; Brexit; and the rise of Asian influence, the EU is seen as a declining power on the world stage. And in contrast to how superpowers wield their global influence, the Brussels Effect - a phrase first coined by Bradford in 2012- absolves the EU from playing a direct role in imposing standards, as market forces alone are often sufficient as multinational companies voluntarily extend the EU rule to govern their global operations.
