

San Bernardino County Sheriffs Department Paperback

This project analyzed the materials and training currently being taught in a 8 hour history and principles of law enforcement course at the San Bernardino County Sheriff's Department Training Academy, in conjunction with San Bernardino Valley College.

San Bernardino County Sheriff's Department Arcadia Publishing
5 young men. 32 destroyed police vehicles. 1 spectacular bank robbery. This "cinematic" true crime story transports readers to the scene of one of the most shocking bank heists in U.S. history—a crime that's almost too wild to be real (The New York Times Book Review). Norco '80 tells the story of how five heavily armed young men—led by an apocalyptic born-again Christian—attempted a bank robbery that turned into one of the most violent criminal events in U.S. history, forever changing the face of American law enforcement. Part action thriller and part courtroom drama, this Edgar Award finalist for Best Fact Crime transports the reader back to the Southern California of the 1970s, an era of predatory evangelical gurus, doomsday predictions, megachurches, and soaring crime rates, with the threat of nuclear obliteration looming over it all. In this riveting true story, a group of landscapers transforms into a murderous gang of bank robbers armed to the teeth with military-grade weapons. Their desperate getaway turns the surrounding towns into war zones. And when it's over, three are dead and close to twenty wounded; a police helicopter has been forced down from the sky, and thirty-two police vehicles have been completely demolished by thousands of rounds of ammo. The resulting trial shakes the community to the core, raising many issues that continue to plague society today: from the epidemic of post-traumatic stress disorder within law enforcement to religious extremism and the militarization of local police forces.

Greed

A True Story of Marriage, Obsession, and Murder

San Bernardino County Sheriff's Department

National Drug Threat Assessment

In February 1958, a tragic climbing accident occurred on Big Falls, in Forest Falls, California, resulting in the death of a 13-year-old boy. Rescue attempts were futile because there were no experienced personnel or climbing equipment available. As a result of this unfortunate tragedy, the San Bernardino County Sheriff's Department spearheaded a recruitment of volunteers, forming the county's first mountain search and rescue team. Since that time, the San Gorgonio Search and Rescue Team has

performed thousands of searches, rescues, and body recoveries. The organization is the oldest of its kind in San Bernardino County and is proud to have second-generation team members. This book tells the story of these dedicated volunteers through photographs taken by team members and through the stories retold by those who were there. GREED is a novel about freshly promoted Detective Eli Hockney, who is selected for one of the coveted positions in the prestigious San Bernardino County Sheriff's Department, Homicide Detail. Soon after arriving, Eli and his team investigate one of the most fascinating and exciting cases of their careers. An affluent couple from Los Angeles were kidnapped and killed, only to be discovered buried in a deep grave all the way out in the east end of the San Bernardino Valley. Follow Eli as he gets swept away in the trappings of the Hollywood elite, and the rich and famous who are friends of the victims and suspects in their murders. Presents the San Bernardino County Sheriff's Department, located in California. Includes a message from the Sheriff of San Bernardino County. Contains information about the Department, the vision and value statement, stations and contract cities, the aviation division, the detention and corrections training center, crime bulletins, and other information. Links to Web sites related to law enforcement and San Bernardino County. Offers access to California legislative information. Posts contact information via mailing address, telephone number, and e-mail address. Developing a Law Enforcement Stress Program for Officers and Their Families

Disciplinary Patterns and Complaint System of the Los Angeles County Sheriff's Department

Hey Gringo! Come Here!

Secrets of a Marine's Wife

Rail-Cycle, Bolo Station Landfill, San Bernardino County

When, living in Las Vegas, ex-con-turned-famous and now Author/Musician Mike SanBorn can't come up with a storyline that sticks for his highly anticipated 3rd novel, he goes in search of SOMETHING WICKED. Soon, an ongoing story in San Bernardino, California prompts Mike to have his agent arrange a meeting with sexy, hard-nosed Detective Sergeant Heidi Frederick of the San Bernardino County Sheriff's Department as she recovers at St. Bernardines Medical Center- the result of a gunshot delivered by the hit-man who killed her partner/mentor a few years earlier. The thin, grey line that defines good guys and bad guys becomes greyer still when the cop and the ex-con form an unlikely alliance and begin the hunt for Big Mike Ellis on the meth-infested mean streets of Berdoo. No one is safe when seeking SOMETHING WICKED.

This book is a tribute to our grandfather, Jose Nieto Houston, and great-grandfather, Ramon Cordova. Both of whom fought so valiantly in the Mexican Revolution for a better Mexico. This biography of Jose A. Nieto Houston is for all who are interested in the story of one man thrust into a revolution to fight for the survival of his life. Jose A. Nieto Houston wrote his story for anyone who is interested. The history of the Mexican Revolution is enormous, with lots of

material to fill lots of books. These stories can be talked about for quite some time or even written about, its history on various topics, themes, or subject matter. However, there are various opinions on the causes of the Mexican Revolution. Each history in its own version as adapted to each own way of thinking. Villa would affectionately say, Hey, Gringo, come here, I have a job for you. Thats how Gen. Francisco (Pancho) Villa addressed his trusted confidant and aide, Colonel Jose Nieto.

"The purpose of this study is to measure and analyze levels of job satisfaction and identify the correlation between job satisfaction and turnover rate, if possible...There is a high percentage rate of turnover of personnel from the San Bernardino Sheriff's Office, San Bernardino Police Department and Ontario Police Department, which, possibly, is directly related to job satisfaction"--from introduction.

Annual Report

Development of a Curriculum for a 24-hour Introduction to Criminal Justice Course

Provides a comprehensive and up-to-date look at a number of law enforce. stress programs that have made serious efforts to help departments, individual officers, civilian employees, and officers' families cope with the stresses of a law enforce. career. The report is based on 100 interviews with mental health practitioners, police administrators, union and assoc. officials, and line officers and their family members. Provides pragmatic suggestions that can help every police or sheriff's dep't. reduce the debilitating stress that so many officers experience and thereby help these officers do the job they entered law enforcement to perform -- protect the public.

The largest county in the continental United States has seen its share of colorful pursuits of suspects and fugitives, including the search for the last Native American in the United States to be tracked to his tragic end by a lawman's posse: "Willie Boy" at Ruby Mountain. San Bernardino County also was the setting for the shoot-outs at Baldy Mesa and Lytle Creek. Yet gunplay lore is only one aspect of the epic of the San Bernardino County Sheriff's Department. Today the department deploys nearly 5,000 salaried and volunteer employees to protect and serve its 20,186 square miles of deserts, mountains, forests, and increasingly urban areas. This original cow-county sheriff's office went through many developments that are detailed in these vintage photographs-sheriffs' administrations, equipment, investigations, and other exploits-all culled from the department's archives, private collections, the California Room of the San Bernardino Public Library, and the San Bernardino Pioneer Historical Society.

This is the story of a retired detective named John Clarke, who is from the Southern California area and retires to what he thinks is a quiet and peaceful spot on the shores of Northern California, only to find, one day while walking on the beach, the body of a young Chinese girl floating in the surf. Her clothing doesn't seem to match the surroundings; she has the clothing of a peasant from China and no form of identification and some very nasty-looking bruise marks on her neck. The story goes from the quiet little backwater community of Salmon Fork on the coast in Northern California, to the dark and mysterious back alleys of Hong Kong, Sandpan Alley, and Shanghai, to the notorious black market in drug trafficking on the Asian continent, to the slave trading of human beings for profit.

The facinating journey of a high school dropout who entered the Marine Corps on his 17th birthday, served a four-year stint as an enlisted Marine, then got out of the Corps and became a cop, but remained in the reserves. Bushey ultimately received a direct commission, remained active in the reserves, was called to active duty on several occasions, commanded a unit that bloodied Saddam's noses during the First Gulf War, and ultimately retired as a full colonel. Funny, interesting, some sordid, but every word true. For someone who never thought he would become a corporal, Bushey did well!

Explore ways to reduce the rate of HIV infection in street prostitutes--and the inescapable connection between the heroin trade, prostitution, and HIV! This unique book draws on face-to-face interviews that the author conducted on the streets, with heroin-addicted street prostitutes in Southern California and their counterparts in four large Mexican cities. Author David James Bellis illustrates the significant--and surprising--differences in the risk of exposure to HIV and other STDs that exist between street prostitutes in the two countries arising from national differences in the legality, sociology, and economics of sex work. He points out that Mexican prostitutes, for whom sex work is a simple means of livelihood, are "choir girls" compared with their beaten-up, drug-addicted sisters north of the border who perform sex for drug money and are at much greater risk of HIV and other diseases, like Hepatitis C. This book explores those differences, suggesting new directions for United States prostitution and heroin-control policies--laws currently so interwoven that they reinforce each other, accounting for a deadly circle of crime and disease. In addition to the fascinating results of the author's interviews with 72 female street prostitutes in San Bernardino, California, and 102 more in Tijuana, Cd. Juárez, Cd. Victória, and Cuernavaca regarding their personal sexual, drug, and health practices, and their criminal histories, Hotel Ritz-Comparing Mexican and U.S. Street Prostitutes: Factors in HIV/AIDS Transmission explores: the licensing process for legal prostitutes in Mexico the medical testing that Mexico requires prostitutes to undergo the differences in what United States and Mexican prostitutes know about HIV transmission the difference in condom use between United States and Mexican prostitutes the potential benefits of reforming prostitution and drug laws in both countries the benefits of making methadone maintenance and

syringes—and heroin—free for heroin-addicted prostitutes the proportion of United States/Mexican prostitutes who would quit the trade if they learned they had AIDS how the social support system in the United States (housing subsidies, TANF/AFDC money, food stamps, etc.) leads to a greater proportion of drug-addicted prostitutes than are found in Mexico Hotel Ritz-Comparing Mexican and U.S. Street Prostitutes: Factors in HIV/AIDS Transmission also provides you with a look at the hierarchy of female sex workers, an explanation of the etiology of AIDS transmission, and a concise history of heroin and prostitution. Helpful tables and an appendix containing the author's survey questions make the data in this well-referenced book easily understandable.

This journal article is based on a futures study, with the same title, that examines the issue of consolidation of law enforcement services in a large urban county by the year 2003. The forecasting of relevant events and trends was conducted by a panel using the Nominal Group Technique Process. Data collected during the "NGT" process was used to develop three possible scenarios. A strategic plan for implementation of one of the scenarios was developed for use by the San Bernardino County, California Sheriff's Department. The study uses the San Bernardino County Sheriff's Department as the large urban county. A Mission Statement is developed to assist the San Bernardino County Sheriff's Department to achieve the desired future state. Critical stakeholders are identified and a Transitional Management Team is established to bring about the desired change. The study shows the desired form of consolidation; research data; forecasting results; graphics in text; end notes and bibliography.

The Many Forks In My Many Roads is the spirited, sometimes opinionated, memoirs of a veteran of decades of service in the Los Angeles Police Department, the U.S. Marine Corps, the Los Angeles County Sheriff's Department, the San Bernardino County Marshal's Office and the SBC Sheriff's Department. In addition, the author was a California game warden, a college instructor, is a father, foster parent, a law enforcement badge collector par excellence -- and an all-around interesting guy! But more than the story of one individual, this is the story of the lives, the sometimes unexpected adventures, the struggles and

successes of Everyman -- a story that every one of us can relate to. Read it -- and join the author in lots of laughs, occasional sorrows, but a rollicking good time!

Divided into four sections--public safety agencies, key issues like interoperability and cybercrime, management skills, and emerging trends like the transfer of military technologies to civilian agencies, *Managing Public Safety Technology* illustrates how essential managing technology is to the success of any project. Based on the authors' years of experience dealing with information systems and other tools, this book offers guidance for line personnel, supervisors, managers, and anyone dealing with public safety technology. Designed for current or future public safety personnel, especially those in management, *Managing Public Safety Technology* can also be used for undergraduate and graduate public safety management and leadership programs.

In *Secrets of a Marine's Wife*, award-winning journalist and New York Times bestselling author Shanna Hogan tells the true story of a young Marine wife whose illicit affair ended in tragedy. In June 2014, 19-year-old Erin Corwin was living a quiet life in Twentynine Palms, California, expecting her first child with her husband, U.S. Marine Corporal Jon Corwin--until the day she drove off into the desert and never returned. As temperatures climbed into the hundreds, friends and family teamed up with local law enforcement in a grueling search of Joshua Tree National Park. Nearly two months after her disappearance, Corwin's body was found at the bottom of an abandoned mine shaft, a homemade garrote wrapped around her throat. Suspicions mounted within the tight-knit Marine community as residents questioned if the killer was one of their own. Fellow Marine Christopher Lee and his wife lived next door to the Corwins, and the two young couples had leaned on each other for support. But detectives soon discovered that Chris and Erin's relationship had developed into a whirlwind romance that consumed them both and called the paternity of Corwin's baby into question. Lee told investigators he'd been out hunting the day of Corwin's disappearance, but his claims of innocence soon began to crumble. And while Erin was researching baby names, Lee was reportedly searching the internet for ways to dispose of a human body. Through interviews, court records, and extensive research, bestselling true-crime author Shanna Hogan constructs a chilling story of betrayal, deception, and tragedy.

Gangs continue to commit criminal activity, recruit new members in urban, suburban, and rural regions across the United States, and develop criminal associations that expand their influence over criminal enterprises, particularly street-level drug sales. The most notable trends for 2011 have been the overall increase in gang membership, and the expansion of criminal street gangs' control of street-level drug sales and collaboration with rival gangs and other criminal organizations.

California's Megan's Law allows law enforcement to notify the public of serious and high-risk sex offenders who reside in, are employed in, or visit a community. The law requires the California Dept. of Justice to produce a CD-ROM or other electronic medium containing information on serious and high-risk sex offenders. Access to the CD-ROM is mandated to be available to the public at all sheriff's departments and police departments in cities with a population of 200,000 or more as well as through the California Dept. of Justice. Many police departments with smaller jurisdictions have also voluntarily elected to make the CD-ROM available to the public. This report covers 1998 and 1999.

This thesis will analyze the disciplinary patterns and the complaint system of the Los Angeles County Sheriff's Department (LASD). It reveals if there is significance when multiple officers engage in improper acts as opposed to when a single officer engages in the same acts. The study will identify the most common types of accusations filed against sworn personnel, what ranks are most commonly involved (i.e. deputy, sergeant, etc.), and what assignments (i.e. patrol) incur the most investigations.

An Eli Hockney Novel

Message From FBI Director James B Comey: This past year, the FBI and its partners again addressed a wide range of national security and criminal threats. Together, we responded to numerous crisis incidents, such as the terrorist bombings of the Boston Marathon and the shootings at the Navy Yard in Washington, DC. We confronted a continued surge of cyber attacks against targets ranging from everyday citizens to our largest and most successful businesses. And we stopped those who would strike at the heart of our communities—from violent gangs and white-collar criminals to child predators and corrupt public officials. A glimpse of the challenges we faced—and what we achieved together—can be found in this latest edition of The FBI Story, our annual collection of news and feature articles from the Bureau's public website. Here you can read about some of our most successful recent major investigations and operations. These include a three-day nationwide sweep targeting child prostitution in which we identified and rescued more than 100 young victims and arrested more than 150 pimps; the rescue of a 5-year-old boy held captive in a heavily armed bunker in Alabama; and uncovering of the largest domestic bribery

and bid-rigging scheme in the history of federal contracting cases-one that siphoned more the \$30 million dollars of taxpayer money. This edition of the FBI Story also highlights some of the Bureau's remarkable capabilities. You will find a multi-part series on our elite Hostage Rescue Team-which marked its 30th anniversary this past year-and a feature on the Terrorist Explosive Device Analytical Center (TEDAC)-an FBI-established, multi-agency operation that celebrated its 10th anniversary in 2013.
