One of the most important challenges faced by Oracle database administrators and Oracle developers is the need to tune SQL statements so that they execute efficiently. Poorly tuned SQL statements are one of the leading causes of substandard database performance and poor response time. SQL statements that perform poorly result in frustration for users, and can even prevent a company from serving its customers in a timely manner. In this book, Mark Gurry

shares his in-depth knowledge of Oracle's SQL statement optimizers. Mark's knowledge is the result of many hard-fought tuning battles during his many years of providing Oracle tuning services to clients. Mark provides insights into the workings of the rule-based optimizer that go well beyond what the rules tell you. Mark also provides solutions to many common problems that occur with both the rule-based and cost-based optimizers. In addition to the specific problem/solution scenarios for the optimizers, Mark provides a number of handy SQL tuning tips. He discusses the various

**The use of fluoroscopy in pain treatment allows medications to be injected more precisely into the painful area. Fluoroscopic injection often allows invasive pain management to be performed with more comfort, fewer complications, and better results. This book is a step by step guide to fluoroscopic guided pain management procedures covering craniofacial, spine, peripheral nerves, and joint injections. Beginning with an overview of the technique and pharmacology, each chapter is dedicated to a different section of the body. The guide is**
