Multi-Tiered Systems of Support in Elementary Schools is the leadership handbook and practitioner's field guide to implementation of Multi-Tiered Systems of Support (MTSS) in elementary schools, leading to improved student outcomes and school safety. Schools can creatively customize replicable best practices using this in-depth operations manual to guide MTSS teams in planning and delivering tiers of academic and integrated social-emotional and behavioral supports to meet the needs of all students. This text introduces Healthy Minds, Safe Schools, an evidence-based program that significantly improves student well-being, school safety, and teacher feelings of self-efficacy for delivering social-emotional and behavioral curriculum in the classroom. Featuring team exercises and real perspectives from educators, this text shows how to make incremental yet manageable changes at elementary schools in accordance with public policy mandates and evidence-based practices by developing smart teams and programs, identifying roles and responsibilities, implementing layers of academic support and services, improving social-emotional and behavioral health of students, and creating an inclusive school culture. It details organizational psychology and socially just educational practices and is a handbook aligned with the U.S. Secret Service National Threat Assessment Center guidebook for preventing school violence and with the National Center for School Mental Health Curriculum

The Early Grade Reading Assessment (EGRA) measures students' progress towards reading. EGRA gauges early literacy skills through a 15-minute individual oral assessment of five fundamental reading skills. RTI worked with education experts to develop the EGRA in 2006, and it has been piloted and implemented in more than 40 countries. This volume aims to take stock of the substantial amount of information and experience generated through the use of EGRA, and to share this knowledge with practitioners, policymakers, and international donors. Chapters cover not only particular applications of the instrument but also put EGRA in the context of broader issues and developments in literacy and education.

Educational Trends Exposed explains and critically reviews eighteen of the most prevalent trends sweeping schools, colleges and universities over the last decade and beyond. Amid the buzz from news outlets, websites and social media peddling 'this works' approaches and 'quick fix' solutions, this book provides educators with a practical tool to help answer important questions such as: what does this trend actually involve? Is it worth the investment of time and resources? Does it work – what does research say? Do the claimed benefits to students outweigh any downsides? In this timely book, David Armstrong and Gill Armstrong cast a critical, expert eye over these trends, referencing the latest research and offering a framework for considering educational trends, empowering readers as informed critical consumers. They argue that trends disclose deeper truths about the state and direction of contemporary public education in Australia, England and the US and provide original, thought-provoking analysis. This book demonstrates that a greater understanding of trends can teach some important lessons, including how parents, teachers and educational decisions makers can agitate and collaborate for a modernised and more socially equitable education system. Educational Trends Exposed is essential reading for pre- and in-service teachers, and all educational decision makers who are faced with a choice of which trend, if any, to follow.
