After ten years of selecting great books from writers, new and established, Prairie Schooner celebrates the first decade of its Book Prize series by offering this collection of excerpts from each year’s winners in fiction and poetry. Writers such as Brock Clarke, Anne Finger, Rynn Williams, and Paul Guest open windows to ordinary and fantastic experience showcasing the liveliness and power of contemporary literature. Greg Hrbek’s darkly comic, genre-bending tales stand alongside Ted Gilley’s stories about achieving bliss through pain and John Keeble’s reflections on community and the difficulty of love. Here Shane Book’s poems serve as an elegiac witness to suffering, while Kathleen Flenniken’s poems consider ordinary women constructing their own significance, and Kara Candito’s explore sex, loss, and human passions. Whether the topic is fantastic or quotidian, childbirth or monsters, South American airplane disaster or suburban Wisconsin, this writing carries us to the furthest reaches of human experience.

She was conceived in the mind of an American philanthropist as the embodiment of his lifetime quest for the perfect schooner yacht. She was launched in a shipyard in Kiel, Germany, owned by the controversial Krupp family. She became embroiled in a monumental scandal involving the mishandling of construction contracts for Pearl Harbor’s defence. She starred in the Cinerama movie “South Seas Adventure”. She spent decades as a floating school for oceanography and high school students. She was owned by food magnate Calisto Tanzi and was embroiled in Parmalat’s scandal that shook Europe and the financial world. This is the story of a great classic ship admired for her beauty, elegance and speed, of the events that marked her unusually rich history and unique destiny, of the near disasters that befell her, of the numerous lives she touched in so many ways.

Toward the end of the nineteenth century, a new firm was established in Bath, Maine, at a time when established yards in the City of Ships were turning to steel construction. Percy & Small would set unrivaled records for wooden shipbuilding and ship management, launching 22 giant five-- and six--masted schooners (along with 16 four--masters) in two decades. Not just builders, Percy & Small also demonstrated an unusual knack for making money as the owners of a fleet of schooners, and the stories of their ships are told in these pages in wonderful detail. Doug Lee’s meticulously researched construction drawings add immeasurably to the technical information presented in this book. Maritime enthusiasts and modelmakers will find a wealth of information here.

Explorer’s Guide Maine (Sixteenth Edition) (Explorer’s Complete)

Though never an overpowering force, Washington’s flotilla of eight fast, lightly armed ships harassed British supply lines along the New England coast for twenty-six months beginning in the fall of 1775. Manned by seamen from his army who longed to show King George who owned the colonial coast, the schooners captured fifty-five prizes and accelerated the British decision to evacuate Boston. Chester Hearn’s analyses of Washington’s naval leadership show that Washington, though the man least likely to appreciate the importance of seapower, was the very person who seemed to understand it best. He had his little squadron at sea months before the Continental Congress finally agreed to pass an appropriation to finance the first Continental fleet, and much of the early naval policy that followed had its foundation in Washington’s instructions to his captains. In telling the story of Washington’s schooners, Hearn brings to life the early days of America’s war for independence with tales of perseverance, courage, and sacrifice. He describes a motley collection of captains, sailors, marines, and naval agents, recounts the fledgling navy’s successes and failures, and examines the reactions of both the Royal Navy and the emerging American nation.

It is at once an exciting tale of adventure and authentic, little-known history.
