**Out in Culture charts some of the ways in which lesbians, gays, and queers have understood and negotiated the pleasures and affirmations, as well as the disappointments, of mass culture. The essays collected here, combining critical and theoretical works from a cross-section of academics, journalists, and artists, demonstrate a rich variety of gay and lesbian approaches to film, television, popular music, and fashion. This wide-ranging anthology is the first to juxtapose pioneering work in gay and lesbian media criticism with recent essays in contemporary queer cultural studies. Uniquely accessible, Out in Culture presents such popular writers as B. Ruby Rich, Essex Hemphill, and Michael Musto as well as influential critics such as Richard Dyer, Chris Straayer, and Julia Lesage, on topics ranging from the queer careers of Agnes Moorehead and Pee Wee Herman to the cultural politics of gay drag, lesbian style, the visualization of AIDS, and the black snap! queen experience. Of particular interest are two "dossiers," the first linking essays on the queer content of Alfred Hitchcock's films, and the second on the production and reception of popular music within gay and lesbian communities. The volume concludes with an extensive bibliography—the most comprehensive currently available—of sources in gay, lesbian, and queer media criticism. Out in Culture explores the distinctive and original ways in which gays, lesbians, and queers have experienced, appropriated, and resisted the images and artifacts of popular culture. This eclectic anthology will be of interest to a broad audience of general readers and scholars interested in gay and lesbian issues; students of film, media, gender, and cultural studies; and those interested in the**

John C. Fremont and the Violent Election of 1856

A Dan Roy Thriller

The Rise of American Independent Film

***The election of 1856 was the most violent peacetime election in American history. Amid all the violence, the campaign of the new Republican Party, headed by famed explorer John C. Frémont, offered a ray of hope that had never before been seen in the politics of the nation—a major party dedicated to limiting the spread of slavery. For the first time, women and African Americans became actively engaged in a presidential contest, and the candidate's wife, Jessie Benton Frémont, played a central role in both planning and executing strategy while being a public face of the campaign. The 1856 campaign was also run against the backdrop of a country on the move, with settlers continuing to spread westward facing unimagined horrors, a terrible natural disaster that took hundreds of lives in the South, and one of the most famous Supreme Court cases in history, which set the***

***stage for the Civil War. Frémont lost, but his strong showing in the North proved that a sectional party could win a national election, blazing the trail for Abraham Lincoln's victory four years later.***

***Built on all new information recently unearthed, this stylishly written and illustrated "timeline archive" of art, sex, obscenity, gender, culture wars, homophobia, pop culture, and the gay mafia, will get 21st-century readers and researchers up to speed fast on the serious fun of who did what to whom when and why.***

Two air force pilots race to stop an Iraqi bioweapon in this thriller filled with "white-knuckle flight scenes" from a New York Times–bestselling author (Kirkus Reviews). A scientist charged by Saddam Hussein with pioneering a horrific breakthrough in biological warfare, Shakir Abbas defects at the American embassy to warn the world of the new weapon. America's worst nightmare has come true—and now US forces must scramble to put together a plan to destroy the weapon of mass destruction. When the operation goes awry in Saudi Arabia, Col. Will Westerman commandeers a C-141 transport to get the Special Forces team into Iraq. With the help of air force buddy Col. Doug Harris, Westerman reaches his target only to discover that the unthinkable has happened. Now they must use all their ingenuity, daring, and adrenaline to stop a worldwide catastrophe—and survive what looks increasingly like a suicide mission. From the bestselling author of Pandora's Clock and the Kat Bronsky series—a pilot and Operation Desert Storm veteran himself—this is a "gripping" aviation thriller (Seattle Post-Intelligencer) featuring "thoroughly realistic background detail and an entirely too plausible plot" (Kirkus Reviews).

Hell hath no fury like an assassin scorned. Her name is spoken in whispers. She kills in silence, with the sting of a needle. Her name? Scorpion. But she was betrayed, and left for dead. A little knowledge is a dangerous thing, and Dan is about to find out why. Two ruthless killers hunt for each other, and sparks fly when they meet, but the truth evades their grasp. A political nightmare revolves around an influential US Congressman, and the stakes are higher than ever before. You will keep turning the pages of this spell binding thriller, a heart pounding journey that

takes you from secret jails in Russia, to the blue waters of the Bosphorus, and deep inside the power corridors of Capitol Hill. Get it now. Just don't start it late at night. This sweeping narrative presents an original and compelling explanation for the triumph of the antislavery movement in the United States prior to the Civil War. Abraham Lincoln's election as the first antislavery president was hardly preordained. From the country's inception, Americans had struggled to define slavery's relationship to freedom. Most Northerners supported abolition in the North but condoned slavery in the South, while most Southerners denounced abolition and asserted slavery's compatibility with whites' freedom. On this massive political fault line hinged the fate of the nation. Graham A. Peck meticulously traces the conflict over slavery in Illinois from the Northwest Ordinance in 1787 to Lincoln's defeat of his arch-rival Stephen A. Douglas in the 1860 election. Douglas's attempt in 1854 to persuade Northerners that slavery and freedom had equal national

standing stirred a political earthquake that brought Lincoln to the White House. Yet Lincoln's framing of the antislavery movement as a conservative return to the country's founding principles masked what was in fact a radical and unprecedented antislavery nationalism. It justified slavery's destruction but triggered Civil War. Presenting pathbreaking interpretations of Lincoln, Douglas, and the Civil War's origins, *Making an Antislavery Nation* shows how battles over slavery paved the way for freedom's triumph in America.

Discover the secret missions behind America's greatest conflicts. Danny Manion has been fighting his entire life. Sometimes with his fists. Sometimes with his words. But when his actions finally land him in real trouble, he can't fight the judge who offers him a choice: jail... or the army. Turns out there's a perfect place for him in the US military: the Studies and Observation Group (SOG), an elite volunteer-only task force comprised of US Air Force Commandos, Army Green Berets, Navy SEALs, and even a CIA agent or two. With the SOG's focus on covert action and psychological warfare, Danny is guaranteed an unusual tour of duty, and a hugely dangerous one. When Miles's mother remarries, Miles decides to move to New Orleans to be with his father. But he and his father are very different—Miles's dad lives for jazz, while Miles's first love is football. Then Hurricane Katrina hits, and the two must seek refuge in the Superdome. What would normally be a dream come true for a football

American college campuses, where ideas are freely exchanged, contested, and above all uncensored, are historical hotbeds of political and social turmoil. In the past decade alone, the media has carefully tracked the controversy surrounding the speech of Iranian President Mahmoud Ahmadinejad at Columbia, the massacres at Virginia Tech, the dismissal of Harvard's President Lawrence Summers, and the lacrosse team rape case at Duke, among others. No matter what the event, the conflicts that arise on our campuses can be viewed in terms of constitutional principles, which either control or influence outcomes of these events. In turn, constitutional principles are frequently shaped and forged by campus culture, creating a symbiotic relationship in which constitutional values influence the nature of universities, which themselves influence the nature of our constitutional values. In *The Constitution Goes to College*, Rodney A. Smolla—a former dean and current university president who is an expert on the First Amendment—deftly uses the American university as a lens through which to view the Constitution in action. Drawing on landmark cases and conflicts played out on college campuses, Smolla demonstrates how five key constitutional ideas—the living Constitution, the division between public and private spheres, the distinction between rights and privileges, ordered liberty, and equality—are not only fiercely contested on college campuses, but also dominate the shape and identity of American university life. Ultimately, Smolla compellingly demonstrates that the American college community, like the Constitution, is orderly and hierarchical yet intellectually free and open, a microcosm where these constitutional dichotomies play out with heightened intensity.
