&"Incompiuto. La nascita di uno stile&" è la prima e unica indagine, frutto di dieci anni di ricerca sul campo, di un fenomeno molto discusso nel nostro paese ma non ancora completamente riconosciuto: la presenza massiccia sul territorio di edifici e infrastrutture la cui realizzazione non si è mai conclusa. La dimensione del fenomeno, l'estensione territoriale e le incredibili peculiarità architettoniche fanno dell'Incompiuto il più importante stile architettonico italiano dal dopoguerra a oggi. Questa è la tesi che sostiene, in modo provocatorio ma ineccepibile, il gruppo di lavoro che in questi anni ha raccolto migliaia di scatti, ha vagliato centinaia di segnalazioni su tutto il territorio nazionale, a partire dalla Sicilia, per poi risalire la penisola. &"Incompiuto. La nascita di uno stile&" accompagna il lettore in un moderno Grand Tour, tra le rovine contemporanee. An Excursion Through the World of Adhesive Tapes

Follows the painter from his boyhood in the Netherlands to his death in France, depicting his relationship with his brother Theo, his struggles to perfect his art, and his psychological and emotional difficulties.

Revolutionary essays on design, aesthetics and materialism - from one of the great masters of modern architecture Adolf Loos, the great Viennese pioneer of modern architecture, was a hater of the fake, the fussy and the lavishly decorated, and a lover of stripped down, clean simplicity. He was also a writer of effervescent, caustic wit, as shown in this selection of essays on all aspects of design and aesthetics, from cities to glassware, furniture to footwear, architectural training to why 'the lack of ornament is a sign of intellectual power'. Lorenzo Polizzotto examines the educational, religious, political, and philanthropic practices of the Florentine youth confraternity of the Purification. Founded in 1427 at a time of unbounded optimism in Florence's future, the Purification was entrusted with the socialization of the youths. With the right education and training, these youths were expected eventually to lead Florence to its manifest destiny. The Purification's educational practices were solidly grounded in religious and humanist principles. In concert with the other youth confraternities, the Purification pioneered an educational programme which influenced pedagogical practices throughout Europe until the middle of the twentieth century. Its success made it an attractive prize for the contending political forces in Florence, becoming first an instrument of Medici ambitions and then of Savonarolan radical millenarism. Once Florence fell under the permanent rule of the Medici, the Purification sought to serve the city by turning to philanthropy, which it dispensed as a moral and educational duty.

Adhesive tapes have recently been used more and more in design projects. The book features artwork in which tape is used illustratively. Because patterns are a popular theme in design, it also presents examples of interiors, fashion, furniture and architecture in which tape is used to create them. The images of the diverse, often humorous artwork and designs are supplemented by texts expounding on adhesive tape's phenomenal range of application. These

include a list of 211 uses for duct tape from the USA, the country that invented the saying "God made the world, but it's held together with duct tape."

Japanese painter, sculptor, writer, installation and performance artist Yayoi Kusama has been in the vanguard of contemporary art for sixty years. Best known for her use of patterns of dots (which she claims evolved from the hallucinations she's had since childhood), Kusama, now 84 years old, is finally getting the international recognition she deserves. Hi, Konnichiwa brings together Kusama's vivid imagery and haunting words with photos of the artist at work and at various stages in her life. The pieces are mostly from recent years (2000-2012), although there are some that go back as far as the 1950s. Here are Kusama's large-scale canvases, environmental sculptures, multi-media installations, and numerous self-portraits. Here, too, are photos of the artist at ten years old, and as a young woman in Tokyo and then New York, often wearing outrageous clothes of her own design. And we see Yayoi Kusama in recent years, working in her studio in Tokyo – minus the garish make-up and red wig. The book is a chronicle of her creative endeavors and of her life, offering a glimpse into the fevered imagination of this very complicated and fascinating woman. Yayoi Kusama was born in 1929 in Japan, and from an early age, suffered from hallucinations, which she maintains inspired the visual language she continues to use today. At art school in Kyoto, she first began to experiment with the subversive themes that became her trademark. After leaving school, Kusama had a

period of intense productivity, and by 1955, was gaining prominence as an artist in Japan. In 1958, Yayoi Kusama moved to New York, where she was one of the pioneers of the Pop Art and performance art movements. She became a darling of the media, promoting free sex and anti-war activism. She started Kusama Fashion Company, which was quite successful -- her clothes sold in hundreds of stores including Bloomingdales. By the 1970s, the earlier energy and excitement of the New York art scene had subsided. In 1973, Kusama went back to Japan, and in 1977, took up residence in a psychiatric hospital, where she still lives. She built a large studio nearby and continues to work there. While she certainly didn't fade into obscurity, Yayoi Kusama moved out of the spotlight. The last few years, however, have seen renewed interest in her work. In 2008, Christie's sold a painting for \$5.1 million, then a record for a living female artist. A major retrospective opened at the Whitney Museum in New York in Summer 2013; and at the same time she Kusama collaborated with Marc Jacobs for Louis Vuitton collection featuring her polka dots. Kusama recently signed with a new gallery in New York, and a solo show is planned for Fall 2013. Politica, cultura, economia.

Svenja Deininger's process-based geometric paintings juxtaposed with 1920s paintings by Wladyslaw Strzeminski This book juxtaposes works by Vienna-based painter Svenja Deininger (born 1974) with four architectural paintings from the 1920s by Polish painter Wladyslaw Strzeminski (1893-1952). Deininger's practice involves continuously adding and stripping layers of mixed oil paint, gesso, marble dust and glue.

Water contamination, air pollution, and resource scarcity?considerable environmental problems have come to threaten all large industrial nations around the world. Based on the concrete example of the South Indian city of Chennai, the exhibition project 'DAMned Art?Embrace Our Rivers' questions the possible social and political significance and function of art. The public art project in Chennai, curated by the Indian eco-activist and artist Ravi Agarwal and the German exhibition organizer Florian Matzner, is a cooperation between European and Indian artists

of the Priests of Amun (Bab el-Gasus), where the burials of 153 individuals who lived under the 21st Dynasty have been unearthed, revealing the largest undisturbed tomb ever found in Egypt. This is the first publication to present a coherent vision of this find, with papers addressing a variety of topics including: the reorganization of the Theban necropolis under the 21st Dynasty; the sociological significance of the burials, as well as the funerary goods associated with them; the history of the collections that had been given away to foreign countries in 1893, including their reception and subsequent treatment in museums around the world and in Egypt; carpentry and decoration of anthropoid coffins, using non-invasive analysis of materials; and finally, diversity and meaning of coffin decoration. The volume releases the papers first presented at the international conference held at the Calouste Gulbenkian Foundation in Lisbon to celebrate the 125th Anniversary of the discovery of the Tomb.

Guerrilla Girls: The Art of Behaving Badly is the first book to catalog the entire career of the Guerrilla Girls from 1985 to present. The Guerrilla girls are a collective of political feminist artists who expose discrimination and corruption in art, film, politics, and pop culture all around the world. This book explores all their provocative street campaigns, unforgettable media appearances, and large-scale exhibitions. • Captions by the Guerrilla Girls themselves contextualize the visuals. • Explores their well-researched, intersectional takedown of the patriarchy In 1985, a group of masked feminist avengers—known as the Guerrilla Girls—papered downtown Manhattan with posters calling out the Museum of Modern Art for its lack of representation of female artists. They quickly became a global phenomenon, and the fearless activists have produced hundreds of posters, stickers, and billboards ever since. • More than a monograph, this book is a call to arms. • This career-spanning volume is published to coincide with their 35th anniversary. • Perfect for artists, art lovers, feminists, fans of the Guerrilla Girls,

This one-of-a-kind compendium serves as a reminder of women's strength in the contemporary art market place, and acts as testament to the innovation, power, and necessity of women's art and its influence. Featuring a select group of living women artists and architects who have made significant and groundbreaking contributions to contemporary art, the volume profiles an international cross-section of women artists--from emerging to established--who address critical, social, environmental, psychological, historical, and social issues through their art. Included are works by five MacArthur Foundation Fellows. Ultimately, this book promotes women artists in an ongoing dialogue through the exploration of their work and process, while offering fresh perspectives on feminism and notions of

cultural power. Readers receive a unique glimpse of seminal works such as Judy Chicago's The Dinner Party, as well as brand new pieces inspired by The Women's March on Washington in 2017. Complete with a foreword by Elizabeth Sackler, PhD, this compilation is ideal for educators, students, curators, collectors, and all those who support the arts.

Discover the power, names, and virtues of 224 angels Angelology is a pop-illustrated encyclopedia that presents angels in way they've never been presented before--in the style of a superhero comic book. Readers will discover the names, powers, and virtues of 224 angels--from Archangel Gabriel to Zephaniel. Each of the 224 angels--including eleven archangels--are presented as celestial superheroes. Infographic-style pages outline their individual powers, virtues, and mythology. This book explores the epic battle between good and evil, human consciousness, and the journey to spiritual growth. Celestial superheroes from different religions and cultures can be found within, each one offering us protection and guidance that can be attained by merely calling their names! Angelology is for believers, the inquisitive, or superhero

enthusiasts.

Modern Conflict and the Senses investigates the sensual worlds created by modern war, focusing on the sensorial responses embodied in and provoked by the materiality of conflict and its aftermath. The volume positions the industrialized nature of twentieth-century war as a unique cultural phenomenon, in possession of a material and psychological intensity that embodies the extremes of human behaviour, from total economic mobilization to the unbearable sadness of individual loss. Adopting a coherent and integrated hybrid approach to the complexities of modern conflict, the book considers issues of memory, identity, and emotion through wartime experiences of tangible sensations and bodily requirements. This comprehensive and interdisciplinary collection draws upon archaeology, anthropology, military and cultural history, art history, cultural geography, and museum and heritage studies in order to revitalize our understandings of the role of the senses in conflict.

Presents a comprehensive look at atmospheric corrosion, combining expertise in corrosion science and atmospheric chemistry Is an invaluable resource for
