Jon pensait avoir largement de répondre au dernier sms de sa femme. Mais alors qu'il prend son petit-déjeuner dans le hall de l'Hotel Sixième en Suisse après une conférence, le monde se rappelle à lui avec d'atroces nouvelles. Washington DC a été effacée par une bombe nucléaire. Plus de nouvelles de New-York. Londres s'est éteinte. Berlin aussi. Voilà ce qu'il a le temps de comprendre avant que les média et les réseaux sociaux ne soient coupés à leur tour. Avant que le ciel ne se couvre de nuages oranges. Deux mois plus tard, ils sont vingt survivants réfugiés dans cet hôtel connu pour son histoire teintée de suicides et de meurtres. Jon et ses compagnons d'infortune essaient de maintenir un semblant de quotidien. Jusqu'au jour où ils découvrent le corps d'une petite fille. Les provisions s'affutent. Et si finalement le danger n'était pas à l'extérieur? Vingt survivants. Un hôtel. Un meurtre. The Making of a Marchioness

Hiding from the Nazis in the "Secret Annexe" of an old office building in Amsterdam, a thirteen-year-old girl named Anne Frank became a writer. The now famous diary of her private life and thoughts reveals only part of Anne Frank's lesser-known writings: short stories, fables, personal reminiscences, and an unfinished novel. Here, too, are portions of the diary originally withheld from publication by her father. By turns fantastical, rebellious, touching, funny, and heartbreaking, these writings reveal the astonishing range of Anne Frank's wisdom and imagination--as well as her indomitable love of life. Anne Frank's Tales from the Secret Annex is a testaments to this determined young woman's extraordinary genius and to the persistent strength of the creative spirit.

Frances Hodgson Burnett, author of The Secret Garden, A Little Princess, and Little Lord Fauntleroy, was one of the most successful and controversial women of her children's literature, but she began her career as a bestselling adult novelist. The themes of Burnett's adult novels were often serious: working women, abusive marriages, and single motherhood, and for many years these novels have been overshadowed by the famous author. Scholars, fans, and collectors gathered to contribute to the knowledge on the author and to discuss her accomplishments. The talks ranged from scholarly to conversational, covering Burnett's great-granddaughter, who inherited the accomplishments. Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

managing change. He argues for both policy and practice to be science-based, open, cost-effective and based on standards set in close consultation with patients. Power must be passed to the consumer wherever possible. The Invisible Hospital and the Secret Garden proposes further ways in which this can be achieved, especially by giving patients influence over how money is spent. His original concepts of 'the invisible hospital' - which patients experience but managers often do not see - and the 'secret garden' - the mystique of medicine which limits necessary change - develop the debate on fundamental cultural issues. The inspirational story of George Washington Carver and his childhood secret garden is brought to life in this picture book biography by the author-illustrator team behind Muhammad Ali: A Champion Is Born. When George Washington Carver was just a young child, he had a secret: a garden of his own. Here, he rolled dirt between his fingers to check if plants needed more rain or sun. He protected roots through harsh winters, so plants could be reborn in the spring. He trimmed flowers, spread soil, studied life cycles. And it was in this very place that George Washington Carver, from a baby born into slavery to celebrated botanist, scientist, and inventor. His passion and determination are the seeds to this lasting story about triumph over hardship--a tale that begins in a secret garden.

We commonly think of society as made of and by humans, but with the proliferation of machine learning and AI technologies, this is clearly no longer the case. Billions of automated systems tacitly contribute to the social construction of reality by drawing algorithmic distinctions between the visible and the invisible, the relevant and the irrelevant, the likely and the unlikely - on and beyond platforms. Drawing on the work of Pierre Bourdieu, this book develops an original sociology of algorithms as social agents, actively participating in turn. The 'machine habitus' is the generative mechanism at work throughout myriads of feedback loops linking humans with artificial social agents, in the context of digital infrastructures and to anyone interested in the growing role of algorithms and AI in our social and cultural life.
