Modern man Mike de Wolf gets stranded in a pirate adventure being written by his friend Horace Hackett and finds himself fighting for his life as the villainous Miguel de Lobo, while trying to figure out how to extricate himself from Horace's fatal plot.

A teenage boy uncovers a horrific family secret. A widower seeks vengeance on the creatures that killed his wife. A drug addled writer stalks the woman of his dreams, a woman much more sinister than she appears. A federal agent races to find the cursed relic powering this city full of spooks, spirits, and serial killers. The lives of these and others will collide in the dark and dangerous streets of Adderlass. A seed of evil was planted under Adderlass, a city where monsters hide behind masks of humanity and ordinary people shuffle anesthetized and addicted by the sickly supernatural power wafting up from below. The city was built over the crystalline skull of a bloodthirsty beast. Now, the hunt is on for this lost treasure and whoever finds it first will control the fate not only of Adderlass but of the entire world. Sixteen-year-old Simon Cubbins, young and naive, may be the key to unlocking the mystery buried in this twisted labyrinth of hidden agendas. He also unknowingly harbors a secret that could destroy the Cubbins bloodline. As different characters fight for control over Simon, he will have to decide whether or not to carry on his family's legacy.

The courageous story of how one American woman transcended normal. That is, she rediscovered the natural human state beneath the past trauma and conditioning of "life as we've always known it." Her transformational story is told through the inner, feminine view of a lifetime of Angel-ET visits, and numerous Kundalini-Koyopa episodes in the physical body. The nonhuman intelligence "spoke" in frequency, and informed her of humanity's evolutionary leap in consciousness at this definitive crossroads in time. She was shown that everyone is wired within to accept, integrate, and move forward with these shifts, but it is a choice. Through a unique practice of honesty and innocence, she was guided to tune into and translate the resonance which began "filling in" the bulk of what had been conditioned out of most of humanity - the feeling-knowing wisdom of the feminine. The more she adapted to her own signature frequency, the more she felt and understood the universal tones of nonhuman intelligence. It made for a challenging life of attempting to appear normal, even when each visit would wipe out her entire worldview.

Ultimately, a critical fork-in-the-road decision needed to be made. Be true to herself and honest with her community about what she was experiencing and remembering; or squish back into the insane, tight masks and clothing of conditioning that we were taught to believe was "life." There is so much more. In the change of cycles, the Maya prophesied the Return of the Plumed Serpent. This story points to a 26,000 year old alignment - in both the cosmos and the human body. The Author states that words and concepts don't really matter in these high-vibratory states - because when they occur, you cannot think. It's more about adapting to high frequencies in the body, healing and releasing the past, practicing present-moment attention, and embracing wave after wave of body-mind-spirit upgrades. Through her lifetime of experiences and the resonant practices given through this field of Love, the author provides a roadmap for you to navigate this revolutionary contact within. Should you choose to grow up and out of the old matrix, this book has plenty of inspiration, pragmatic guidance, and encouragement.

SOON TO BE AN APPLE TV+ SERIES A Washington Post Notable Work of Fiction " Winner of the British Book Awards Fiction Book of the Year and overall Book of the Year " Kirkus Reviews Best Book of the Year " Waterstones Book of the Year " Costa Book Award Finalist " A novel of almost insolent ambition—lush and fantastical, a wild Eden behind a garden gate...it ' s part ghost story and part natural history lesson, part romance and part feminist parable. I found it so transporting that 48 hours after completing it, I was still resentful to be back home. " —New York Times London, 1893. When Cora is abandoned by her husband and dies, she steps into her new life as a widow with as much relief as sadness: her marriage was an unhappy one, and she never suited the role of society wife. Seeking refuge in fresh air and open space, she leaves the metropolis for coastal Essex, accompanied by her inquisitive and obsessive eleven-year-old son, Francis, and the boy ' s nanny, Martha, her fiercely protective friend. Once there, they hear rumors that after nearly three hundred years, the mythical Essex Serpent, a fearsome creature that once rained the marshes, has returned. When a young man is mysteriously killed on New Year ' s eve, the community ' s dread transforms to terror. Cora, a keen amateur naturalist with no patience for religion or superstition, is immediately enthralled, certain that what locals think is a magical sea beast may be a previously undiscovered species. Eager to investigate, she is introduced to parish vicar William Ransome, who is equally suspicious of the rumors but for different reasons: a man of faith, he is convinced the alarming reports are caused by moral panic, a flight from the correct and righteous path. As Cora and William attempt to discover the truth about the Essex Serpent ' s existence, these seeming opposites find themselves inexorably drawn together in an intense relationship that will change both of them in ways entirely unexpected. And as they search for answers, Cora ' s London past follows her to the coast, with striking consequences. Told with exquisite grace and intelligence, The Essex Serpent masterfully explores questions of science and religion, skepticism and faith, but it is most of all a celebration of love, and the many different— and surprising—guises it can take.

Managerial styles are influenced by habit, familiarity, and workplace culture. It's no wonder that well-intentioned professionals doing their best to be good organizational leaders often repeat unhelpful supervisory practices experienced in their early careers, even if they disliked them at the time. In the DUH! Book of Management and Supervision, the author disagrees with many accepted leadership principles (unabashedly referring to them as myths) and makes new and different approaches easier to imagine. Her challenging and controversial concepts illustrated with poignant stories suggest common-sense and immediately applicable alternatives more suitable in today's workplace.

Jimmy Morrow, a pastor and serpent handler for over a quarter of a century explores the history of serpent handling from a variety of sources, including his extensive familiarity with families whose roots are deep in Appalachia. As a native Appalachian Jimmy has access to histories unavailable to outsiders. While not formally trained as a historian, Jimmy's own narrative of the Jesus Name tradition is a unique contribution to not only Appalachian studies, but to the history of what many have prematurely thought to be a tradition whose obituary is soon to be written. Jimmy's astounding photographs and his keen insight to the power of this tradition that he proudly upholds suggests that while unlikely ever to be a dominant form of religious expression, it will continue as perhaps Americas most unique form of religion that persists in Appalachia despite laws against the practice of handling serpents. This is an extraordinary personal account of a unique form of religious devotion and dedication. It will be of interest to anyone interested in Appalachian culture or religion in the South.

Before Alabama became a state, it was already being occupied. Many Indians lived here and most were sent west to Oklahoma by Andrew Jackson amidst the "Trail of Tears." Many Caucasian people settled Alabama after coming here with Andrew Jackson to fight the Creeks and Choctaws. After that campaign reached conclusion, many soldiers just stayed. East Jefferson County became the home of some, plus others came in wagon trains as squatters to Springville, Chalkville, and Trussville. After one generation, these communities plus dozens of others were populated by adventure seeking people from the Northern areas. Benton Berryhill was one such immigrant. He was killed as a tree being cut fell on him, leaving a grown married son who fostered Franklin, Jeb, and Jenny. By the time these children were older teens, the Civil war had begun and soon would engulf all of the Southern states and involved thousands of Rebel and Yankee soldiers. It is understandable that feelings ran so high, and boys by the score were soon off at war. Job Berryhill was high strung and a Confederate through and through. He was one of the first Jefferson County boys to enlist. Later, Franklin, who hated slavery, the war and the feelings of his neighbors, felt obligated to also join. He started as a private in the Confederacy and fought in scores of conflicts and major battles. He was also indoctrinated as surgeons helper and later became a full fledged doctor as well as a fighting soldier. Franklin survived the war, but Jeb did not. Their father traveled to Champions Hill in Mississippi to retrieve Job's body. Franklin had risen to the rank of Captain Surgeon.

After the bloody, ditch filled, tragic war was finished, Franklin, convinced he wanted to become a civilian doctor, finished his education attained his goal, and then helped to establish Birmingham, the largest city in the state.
