Right from its formal introduction in India in 1835, through Thomas B. Macaulay's Minute, English has been intrinsically linked with the employment prospects of Indians. During the nineteenth century the British promoted English education to fulfil the requirement of English-knowing Indians for administrative purposes. Owing to globalization, the last few years have witnessed the emergence of thousands of lucrative job opportunities for graduates proficient in English. English has gained importance in India as the language of opportunities. In colonial India, English education was a passport to government jobs, while in the twenty-first century, proficiency in English is essential for private sector jobs. This book examines the development of curricula in Indian universities vis-a-vis the needs of second language learners studying in Special English programmes of Bachelor of Arts (BA). It also reflects on how globalization has strengthened the connection between English and employment.

The "Maratha period" of the seventeenth and eighteenth centuries, when an independent Maratha state successfully resisted the Mughals, is a defining era in the history of the region of Maharashtra in western India. In this book, Prachi Deshpande considers the importance of this period for a variety of political projects including anticolonial/Hindu nationalism and the non-Brahman movement, as well as popular debates throughout the nineteenth and twentieth centuries concerning the meaning of tradition, culture, and the experience of colonialism and modernity. Sampling from a rich body of literary and cultural sources, Deshpande highlights shifts in history writing in early modern and modern India and the deep connections between historical and literary narratives. She traces the reproduction of the Maratha period in various genres and public arenas, its incorporation into regional political symbolism, and its centrality to the making of a modern Marathi regional consciousness. She also shows how historical memory provided a space for Indians to negotiate among their national, religious, and regional identities, pointing to history's deeper potential in shaping politics within thoroughly diverse societies. A truly unique study, Creative Pasts examines the practices of historiography and popular memory within a particular colonial context, and illuminates the impact of colonialism on colonized societies and cultures. Furthermore, it shows how modern history and historical memory are jointly created through the interplay of cultural activities, power structures, and political rhetoric.

"A powerful book on caste, a subject that has dramatic importance not only for the history of democracy in modern India, but for the general discussion on the interferences of social inequalities and cultural exclusions. The Caste Question goes beyond the usual antitheses of localism and globalism, and illustrates a decisive notion of intensive universality."—Etienne Balibar "A sustained and probing analysis of the modern history of caste in Western India, connecting issues of gender, personhood, property, and politics to facts of oppression and inequality. This is the most politically and theoretically engaged book on caste to have come out in a long time."—Dipesh Chakrabarty, author of

Habitations of Modernity "A profound reflection, at once historically rich and theoretically nuanced, on the nature of political modernity itself."—John Comaroff, co-author (with Jean Comaroff) of **Of Revelation and Revolution** "Rao is entirely convincing in this brilliant and audacious re-evaluation of political modernity in India through the perspective of anti-caste struggles."—Mrinalini Sinha, author of **Specters of Mother India: The Global Re-Structuring of an Empire**

This book details an intensive case study of an Indian state that is more or less representative of the Muslim minorities in the country as a whole. The northern Indian province under study has a fair amount of Muslim population with a good number of educational institutions at different levels and grades. These institutions provide both traditional and modern education, which highlights the delicacies of the problems faced when promoting higher education in a comprehensive and inclusive way. This book is a detailed investigation based on a case study and surveys and interaction with many stakeholders including students, teachers and principals. The findings presented here will be useful in reshaping and revamping minority higher education plans in India, as well as policies related to these institutions.
