# **Sibsey And Sibsey Northlands Volume 1 Issue 5**

No. 52 (1929) contains the records listed in no. 41 plus the addition of records for 1837-1878.

This critical edition of an early Jesuit devotional text by the leading Elizabethan exile Robert Persons provides important evidence of recusant spirituality and prose style.

A detailed additional apparatus shows how it was adapted by a contemporary Protestant editor.

There are now many new and interesting planting ideas and fashions, but municipal planting in particular and some gardens as well, can be pretty dire through lack of careful planting design. What is needed for all garden designers - who may well have come to design via a deep interest in plants - is an understanding of the basics of this vitally important design discipline: designs are three-dimensional, to be***

FIDE Title Regulations have been fully revised since the last edition, substantially due to the efforts of Stewart Reuben. What is provided here are the necessary rules, which will enable an organiser or arbiter to run a title norm event. • Various Swiss Pairing Systems are compared critically. • Information given provides what is practically a blueprint to enable an organiser to put together a tournament. Stewart Reuben is internationally recognised as one of the world's foremost chess organisers and arbiters. He is currently Chairman of the FIDE Organizers Committee; Secretary of the Rules and Tournament Regulations Committee, member of the Title and Ratings Committee and of the Qualification Commission. He is also past Chairman of the British Chess
