Fly-fishing in all its forms is the fastest-growing participatory field sport in the world. Whether you're hoping to catch trout, tigerfish, yellowfish or queenfish, there is little to match the sheer joy of fishing with a fly rod. Whether you're standing waist-deep in a raging river estuary fishing the saltwater, or wading slowly into the calm waters of an inland lake, the thrill of casting a perfect line is unmatched. Africa is one of the world's most exciting fly-fishing destinations. Dedicated fly-fishers can be found casting their lines all over the continent – in steaming tropical rivers, in the vast lakes of the Great Rift Valley, in mountain streams, on golden beaches and in turbulent estuaries. Africa offers everything from well-fished and managed rivers and dams of South Africa and Kenya, to relatively unexposed and unknown destinations like the Bale Mountains in Ethiopia and the coastline of Madagascar. This completely revised, updated and full-colour edition of the African Fly-Fishing Handbook covers all aspects of fly-fishing on the African continent, and includes chapters on when and where to fly-fish in Africa, how to get started and what equipment to buy, casting and retrieving techniques, tactics and strategies, fresh- and saltwater fish, yellowfish, fish food forms and winning fly patterns. The most comprehensive book of its kind, it will be indispensable to both seasoned fly-fishers and those just starting out.

A Bigger Table invites readers to envision a church that is big enough for everyone, by holding up a mirror to the church and speaking clearly on issues at the heart of the Christian community: LGBT inclusion, gender equality, racial tensions, global concerns, and theological shifts. John Pavlovitz shares moving personal stories, his careful observations as a pastor, and his understanding of the ancient stories of Jesus to set the table for a new, positive, more loving community on these and other important matters of faith. Though there are many who would remove chairs and whittle down the table, we can build the bigger table Jesus imagined, practicing radical hospitality, total authenticity, messy diversity, and a free community. This new edition includes a small-group study guide complete with ideas for exploring A Bigger Table in a congregation-wide sermon series and program along with a new foreword by Jacqui Lewis and new afterword by John Pavlovitz to explore the challenges of living out the bigger table when voices of hate and exclusion seem stronger and louder. **Hunting: Youve Got to Be Kidding!** is my narrative of reaching a major milestone as a hunter. This documentation of my hunting pursuit contains spiritual, financial, emotional, and sometimes humorous excerpts of my hunting career. Why do I hunt? I'm pressed for an answer to this question daily because my life's passion is on public display. Trophys Steakhouse, which I own, provides an atmosphere of exuberance and a forum to promote hunting. Museum would describe Trophys as closer than steak house, as the restaurant is enriched with the rewards of twenty years of successful trophy hunting. Our customers are both hunters and nonhunters who appreciate the hunting theme and don't require an answer to the question. Invariably, I must provide a detailed explanation to a select few as to why I haven't changed from a hunter-gatherer to a modern rendition of a man. My respect for wild animals complicates my answer. Our genetic engineering by God makes us masters of animal and plant life, both of whom are alive and function to nourish us. Therefore, my answer is because I'm pursuing a bred-in instinct to hunt and gather as our ancestors did for a millennium. I am proud to have this genetic inheritance. I continue to preserve God's creatures by being part of the hunting community. Hunters generously contribute time and money to increase habitat for wild animals while at the same time protect hunters' rights. I have achieved my hunting goals because of the contributions of hunters!

The brook trout (*Salvelinus fontinalis*) has captured the fascination of anglers for centuries, and some flyfishers devote lifetimes in pursuit of wild or native trophies. Yet 90 percent never catch a brook trout over 14 inches. Why? Simple: the average angler doesn't know how to find them and rarely employs the specialized tactics required for hooking a large brook trout. Which is why well-known author of New England flyfishing, Lou Zambello, has written this new book, *In Pursuit of Trophy Brook Trout: Techniques, Timing, and Territories*. Zambello has fished for and guided anglers after wild trophy brook trout for decades. He has spent years deciphering seasonal migration patterns, aquatic life cycles, and weather events impacting brookie behavior. He's tested different

flies and tactics, both on the surface and down deep. This book explains where big brookies can be found, when they are catchable, how to fool them, and how to land them, all while recounting illuminating trophy trout experiences. The beauty of a male trophy brook trout in spawning colors rivals any of nature's canvases – broad greenish flanks decorated with blue halos and the deep orange or burgundy of its underside highlighted by white-tipped fins that looked like an underwater baker had dipped them in vanilla frosting. Landing a wild or native brook trout that measure in pounds instead of inches should be at the top of everyone's bucket list. Read and reread this insightful new book and become one of the lucky few who can boast of landing a trophy wild brook trout. ***Motorcycle, any two-wheeled or, less commonly, three-wheeled motor vehicle, usually propelled by an internal-combustion engine. Just as the automobile was the answer to the 19th-century dream of self-propelling the horse-drawn carriage, the invention of the motorcycle created the self-propelled bicycle. The first commercial design was a three-wheeler built by Edward Butler in Great Britain in 1884. It employed a horizontal single-cylinder gasoline engine mounted between two steerable front wheels and connected by a drive chain to the rear wheel. By 1900 many manufacturers were converting bicycles--or pedal cycles, as they were sometimes called--by adding small, centrally mounted spark ignition engines. The need for reliable constructions led to road motorcycle trial tests and competition between manufacturers. The original Tourist Trophy motorcycle races were held on the Isle of Man in 1907 as reliability or endurance races. Such events have been the proving ground***
