Silent Us Vol 4

This study is an examination of historical data to determine if weather was the decisive factor of the Aleutian Campaign. The campaign was carried out early in World War II along the over 1,000 miles of the archipelago. Island warfare made joint operations a necessity. Weather conditions disrupted all areas of battle; sea, air and ground, and made attempts at coordinated actions futile. The intense weather conditions of the North Pacific severely complicated operations over, near and on the Aleutian Islands. Weather and its effect on the Japanese raid on Dutch Harbor and the American response is examined. The role of the weather is also examined as the Americans attempt to bomb the Japanese out of Kiska and Attu. Finally, the influence of weather on the amphibious landings and ensuing ground action to eject the Japanese from the islands is reviewed. Though a dominant factor, weather was not the decisive factor at the tactical level of warfare during this campaign. The American ability to mass overwhelming combat power ultimately drove the Japanese from the region.

Gathered for the Journey sets moral reasoning in a theological context of worship and discipleship (partá1), provides a framework for the moral life based on questions of human fulfillment (partá2), and demonstrates how these theological resources shape a distinctive approach to questions of globalization, Catholic social teaching, the family, war and peace, bioethics, and the environment (partá3). McCarthy and Lysaught have crafted a distinctively unified collection. Gathered for the Journeyrepresents a common project among Catholic scholars who are struggling with similar questions about living faithfully. No Time For Silence

The Admirals

Sacred Silence is a book about failed leadership in the Catholic Church. Donald Cozzens looks at various challenges and the scandal gripping the Church and offers an historical overview of our church leadership. He explains how the misplaced loyalties of those in leadership positions created the current crisis. Cozzens clarifies why bishops and church authorities think the way they do and why the ecclesiastical system might be the real villain in the abuse scandal. With compassion and understanding Cozzens answers the why of the present and past leadership failures and proposes a new direction. Chapters in Part One: Masks of Denial are "Sacred Silence," and "Forms of Denial." Chapters in Part Two: Faces of Denial are "Sacred Oaths, Sacred Promises," "Voices of Women," "Religious Life and the Priesthood," "Abuse of Our Children," "Clerical Culture," "Gay Men in the Priesthood," and "Ministry and Leadership." The chapter in Part Three: Beyond Denial is "Sacred Silence, Sacred Speech." Donald Cozzens, PhD, a priest and writer, is author of two award-winning titles, Sacred Silence and The Changing Face of the Priesthood, and editor of The Spirituality of the Diocesan Priest, all published by Liturgical Press. He is writer in residence at John Carroll University where he teaches in the religious studies department.

This book demonstrates that silence is eloquent, powerful, beautiful and even dangerous. It surrounds and permeates our daily lives. Drawing on a wide range of cross-cultural, literary and historical sources, the author explores the uses and abuses of silence. He explains how silence is not associated with solitude alone but has a much broader value within society.The main themes of The Power of Silence are positive and negative uses of silence, and the various ways in which silence has been understood culturally, socially and spiritually. The book's objectives are to equip people with a better appreciation of the value of silence and to enable them to explore its benefits and uses more easily for themselves.

A visionary new approach to the Americas during the age of colonization, made by engaging with the aural aspects of supposedly "silent" images Colonial depictions of the North and South American landscape and its indigenous inhabitants fundamentally transformed the European imagination—but how did those images reach Europe, and how did they make their impact? In Sound, Image, Silence, noted art historian Michael Gaudio provides a groundbreaking examination of the colonial Americas by exploring the special role that aural imagination played in visible representations of the New World. Considering a diverse body of images that cover four hundred years of Atlantic history, Sound, Image, Silence addresses an important need within art history: to give hearing its due as a sense that can inform our understanding of images. Gaudio locates the noise of the pagan dance, the discord of battle, the din of revivalist religion, and the sublime sounds of nature in the Americas, such as lightning, thunder, and the waterfall. He invites readers to listen to visual media that seem deceptively couched in silence, offering bold r masterfully fuses a diversity of work across vast social, cultural, and spatial distances, giving us both a new way of understanding sound in art and a powerful new vision of the New World.

ideas on how art historians can engage with sound in inherently "mute" media. Sound, Image, Silence includes readings of Brazilian landscapes by the Dutch painter Frans Post, a London portrait of Benjamin Franklin, Thomas Edison's early Kinetoscope film Sioux Ghost Dance, and the work of Thomas Cole, founder of the Hudson River School of American landscape painting.

The Liturgies of Quakerism explores the nature of liturgy within a form of worship based in silence. Tracing the original seventeenth century Quakers' understanding of the 'liturgy of silence', and what for them replaced the outward forms used in other parts of Christianity, this book explains how early Quaker understandings of 'time', 'history', and 'apocalyptic' led to an inward liturgical form. The practices and understanding of twenty-first century Liberal Quakers are explored, showing that these contemporary Quakers maintain the same kind of liturgical form as their ancestors and yet understand it in a very different way. Breaking new ground in the study of Quaker liturgy, this book contrasts the two periods and looks at some of the consequences for the study of liturgy in general, and Quakerism in particular. It also explores evangelical Quaker understandings of liturgy.

As master of novices for ten years (1955–1965) at the Cistercian Abbey of Our Lady of Gethsemani in Kentucky, Thomas Merton was responsible for the spiritual formation of young men preparing for monastic profession. In this volume, three related sets of Merton's conferences on ancient and contemporary documents governing the lives of the monks are published for the first time: • on the Carta Caritatis, or Charter of Charity, the foundational document of the Order of Cîteaux • on the Consuetudines, the twelfth-century collection of customs and regulations of the Order • on the twentieth-century Constitutions of the Order, the basic rules by which Merton and his students actually lived at the time These conferences form an essential part of the overall picture of Cistercian monastic life that Merton provided as part of his project of "initiation into the monastic tradition" that is evident in the broad variety of courses that he put together and taught over the period of his mastership. As Abbot John Eudes Bamberger, ocso, himself a former student of Merton, notes in his preface to this volume, "The texts presented in this present book eventually gave rise to the Cistercian way of spiritual living that continues to contribute to the Church's witness in this new millennium. This publication is a witness to the process of transformation that ensures the continuity of the Catholic monastic tradition that witnesses to the God who, as Saint Augustine observed is 'ever old and ever new.'"

Alfred Thayer Mahan's The Influence of Sea Power upon History (1660--1783) was one of the most influential books on military strategy in the first half of the 20th century. A core text in the naval war colleges of the United States, Britain, and Japan, Mahan's book shaped doctrine for the conduct of war at sea. Adams uses Mahan's ideas to discuss the great Pacific sea battles of World War II and to consider how well they withstood the test of actual combat. Reexamining the conduct of war in the Pacific from a single analytic viewpoint leads to some surprising conclusions about the Japanese attack on Pearl Harbor, the Doolittle Raid, the Battle of the Coral Sea, the recapture of the Philippines, and the submarine war. Naval historians and armchair strategists alike will find much food for thought in these engrossing pages.

How history's only five-star admirals triumphed in World War II and made the United States the world's dominant sea power. Only four men in American history have been promoted to the five-star rank of Admiral of the Fleet: William Leahy, Ernest King, Chester Nimitz, and William Halsey. These four men were the best and the brightest the navy produced, and together they led the U.S. navy to victory in World War II, establishing the United States as the world's greatest fleet. In THE ADMIRALS, award-winning historian Walter R. Borneman tells their story in full detail for the first time. Drawing upon journals, ship logs, and other primary sources, he brings an incredible historical moment to life, showing us how the four admirals revolutionized naval warfare forever with submarines and aircraft carriers, and how these men-who were both friends and rivals-worked together to ensure that the Axis fleets lay destroyed on the ocean floor at the end of World War II.

Presents a representative body of Romantic and early Victorian crime literature. This work contains ephemeral material ranging from gallows broadsides to reports into prison conditions. It is suitable for those studying Literature, Romantic and Victorian popular culture, Dickens Studies and the History of Criminology.

This series concentrates on women and the soldiers in the ranks whose lives they shared, assembling a wide body of evidence of their romantic entanglements and domestic concerns. The new military history of recent decades has demanded a broadening of the source base beyond elite accounts or those that concentrate solely on battlefield experiences. Armies did not operate in isolation, and men's family ties influenced the course of events in a variety of ways. Campfollowing women and children occupied a liminal space in campaign life. Those who travelled "on the strength" of the army received rations in return for providing services such as laundry and nursing, but they could also be grouped with prostitutes and condemned as a 'burden' by officers. Parents, wives, and offspring left behind at home remained in soldiers' thoughts, despite an army culture aimed at replacing kin with regimental ties. Soldiers' families' suffering, both on the march and back in Britain, attracted public attention at key points in this period as well. This series provides, for the first time in one place, a wide body of texts relating to common soldiers' personal lives: the women with whom they became involved, their children, and the families who cared for them. It brings hitherto unpublished material into print for the first time, and resurrects accounts that have not been in wide circulation since the nineteenth century. The collection combines the observations of officers, government officials and others with memoirs and letters from men in the ranks, and from the women themselves. It draws extensively on press accounts, especially in the nineteenth century. It also demonstrates the value of using literary depictions alongside the letters, diaries, memoirs and war office papers that form the traditional source base of military historians. This fourth volume covers the period from the Treaty of Paris to the Declaration of War in 1854.

The Power of Silence

To the unstudied eye, St. Matthew's gospel can seem a terse narrative, almost a historical document and not the tremendously spiritual (and doctrinal) storehouse that it is. In his fourth and final volume of meditations on Matthew (chapters 26-28), Erasmo Leiva continues to show Matthew's prose to be not terse so much as economical-astoundingly so given its depth. The lay reader can derive great profit from reading this. Each short meditation comments on a verse or two, pointing to some facet of the text not immediately apparent, but rich with meaning. Leiva's work is scholarly but eminently approachable by the lay reader. The tone is very much of "taste and see how good the Lord is" and an invitation of "friend, come up higher!" The goal of the book is to help the reader experience the heat of the divine heart and the light of the divine Word, and aims at prayer as the final result of a fruitful encounter with the Word of God. Leiva comments on the Greek text, demonstrating nuances in the text that defy translation. He uses numerous quotes from the Fathers and the Liturgy of the Church to demonstrate the way the Tradition has lived and read the Word of God. His theological reflection vivifies doctrine by seeking its roots in the words and actions of Jesus. Points of Interest • Long awaited final volume in a widely beloved and deeply rich series of scripture study and meditation • Scholarly but eminently approachable by the lay reader • Theological reflection that vivifies doctrine by seeking its roots in the words and actions of Jesus • Aims at prayer as the final result of a fruitful encounter with the Word of God

Organized around common rhetorical situations that occur all around us, INVENTING ARGUMENTS shows students that argument is a living process rather than a form to be modeled. The text's focus on invention teaches students to recognize the rhetorical elements of any argumentative situation and apply the tools of argument effectively in their own writing. Students are introduced to the basic layers of argument in early chapters, with material arranged into increasingly sophisticated topics beginning with the most obvious or explicit layers (claims) and moving to the more implied layers of assumptions, values, beliefs, and ideology. By the time they finish Part I, your students will have a thorough understanding of argument, which they can then apply to the invention projects in Chapters 7–12.This edition has been updated to reflect guidelines from the 2016 MLA HANDBOOK, Eighth Edition. Denominations that formerly welcomed women in ministry often now oppose their ministry, not understanding their own history. No Time for Silence documents evangelical women who taught at Bible institutes, preached at Bible conferences, served at local church pastorates, and evangelized and lead revivals more than 100 years ago. Debate over women's public ministry tends to focus on biblical and theological issues without grappling with the historical questions. Janette Hassey counters the popular but misleading claim that evangelical feminism (the movement for women's equality rooted in Scripture and evangelical Christian faith) is simply an accommodation to recent secular feminist and theologically liberal movements for women's rights. Rather, evangelical feminism in America first surfaced in the mid-nineteenth century and accelerated at the turn of the century. Those who endorsed women's public ministry were convinced that a literal approach to the Bible, and especially prophecy, demanded such leadership by women.

Sexual Violence and the Violence of Silence takes a candid look at the clergy sexual abuse scandal in the Roman Catholic Archdiocese of Philadelphia from a historical and cultural perspective. The author reveals the five veils of silence—the actions or inactions of the church hierarchy, congregation, law enforcement, media, and general public—that shrouded these cases of clergy sexual violence and exposed the internal maneuverings by administrative officials to silence all those involved or who knew about the abuses. This violence of silence had a profound effect on the victims by adding to their pain and suffering and interfering with their ability to heal and obtain justice. The author begins with the history of the founding of the Roman Catholic Church in America and the Archdiocese of Philadelphia and leads the reader through the confession and testimony of Father William Hogan, a nineteenth-century priest who acknowledged his role in grooming parishioners in the confessional, attested to the sexually abusive behavior of many of his colleagues, and argued for the pervasiveness of clergy sexual violence in the church. The reader will also be exposed to graphic grand jury testimony of the victims of a small representative sample of accused sexually violent priests from the Archdiocese of Philadelphia—Father Gerard W. Chambers, Father Joseph Gausch, and Father Nicholas V. Cudemo—who targeted their victims based on race, class, and gender. The author includes the historical context in which each priest lived and served by presenting these priests to the reader in chronological order based on their date of ordination. To assist the readers in their understanding of the scope of the cover-up by the leadership of the church, the author examines the administration of the bishops or cardinals supervising the archdiocese during the tenure of each of these predator priests.
