*TDL 2015-2016 Catalogue**TDL Canada**The First, the Few, the Only**How Women of Color Can Redefine Power in Corporate America**HarperCollins*

*We all have our favourite radio stations-the ones we listen to each morning on the way to work or school, at night as we relax or get ready to go out. But when we travel too far from the signal, we wind up with static, and find ourselves scanning through countless stations to find something-anything-to listen to. With satellite radio, however, our favourite stations are available to us from one end of the country to the other, playing the music or talk shows we like 24 hours a day, 7 days a week . . . all virtually uninterrupted by commercials. The Pocket Idiot's Guide to Satellite Radio*provides an essential introduction to the world of satellite radio. *Whether you're considering making the purchase and are confused by the options and equipment available or are already a user looking for installation guidance and tips and tricks for getting the most out of your purchase, this book is designed to help you navigate through the sometimes-complicated world of satellite radio.*

This book discusses the economics of the music industry in the context of the changing landscape brought about by innovation, technological change, and rapid digitization. The ability of digital technology to reduce the transaction costs of music copyright licensing has all but destroyed the traditional media business models of incumbent Performance Rights Organizations (PROs), music publishers, record labels, and radio and television stations. In a climate where streaming services are rapidly proliferating and consumers prefer subscription models over direct ownership, new business models, such as direct licensing, are developing. This book provides an overview of the economics of the traditional music industry, the technology-induced changes in business models and copyright law, and the role of publishers, copyright holders and songwriters in the emerging direct licensing model. In Part One, the author examines the economic aspects of direct licensing as an alternative to the traditional blanket license for copyrighted musical compositions, with an emphasis on the often monopolistic nature of PROs. In Part Two, the author focuses on the music publisher and the role direct licensing and competition may play in the changing business models in the music industry and the potential benefits this may bring to copyright holders, such as songwriters. To compliment this model, the author proposes a maximum statutory fixed-rate for musical performances to further streamline the royalty process, especially where distributors such as Google and YouTube are concerned. This book adds to the growing body of literature on the economics of music licensing in the digital age. It will be useful to those in the fields of economics and law, as well as music executives, musicians, songwriters, composers, and other industry professionals who are interested in understanding how technology, innovation and competition have reshaped the music industry.

Momstrology

Marketing on a Shoestring Budget

NEW YORK TIMES BESTSELLER *Grammy Award–nominated, platinum-selling musician Halsey is heralded as one of the most compelling voices of her generation. In I Would Leave Me If I Could, she reveals never-before-seen poetry of longing, love, and the nuances of bipolar disorder. In this debut collection, Halsey bares her soul. Bringing the same artistry found in her lyrics, Halsey’s poems delve into the highs and lows of doomed relationships, family ties, sexuality, and mental illness. More hand grenades than confessions, these autobiographical poems explore and dismantle conventional notions of what it means to be a feminist in search of power. Masterful as it is raw, passionate, and profound, I Would Leave Me If I Could signals the arrival of an essential voice. Book cover painting, American Woman, by the author.*

Collects Marvel's Voices: Legacy (2021) #1, Black Panther (2016) #1, Moon Girl and Devil Dinosaur (2015) #1, Black History Month variants; material from Marvel's Voices (2020) #1, Marvel's Voices (2020) #1 [New Printing], Black Panther (2018) #23-25. Stories from the world outside your window, by diverse creators who are making theirs Marvel - and making their voices heard! Inspired by Marvel's acclaimed podcast series MARVEL'S VOICES, new and established writers and artists share their unique perspectives on legendary characters - including Black Panther, Storm, Blade, Ironheart, Luke Cage, Spectrum, Shuri, Doctor Voodoo, Nick Fury and the Blue Marvel. It's a dizzying array of adventures that will inspire and uplift! Plus: The opening chapter of Ta-Nehisi Coates' revolutionary BLACK PANTHER epic, the sensational first meeting of Moon Girl and Devil Dinosaur, and a stunning gallery of Ernanda Souza's Black History Month variant covers!

Kids DO come with an instruction manual—their astrological chart. Momstrology is the complete guide to understanding how both you and your little one are guided by the stars, and how your charts play a factor in how you relate to each other. Identical twin sisters Ophira and Tali Edut, professional astrologers known as the Astrotwins, offer a modern look at astrology and parenting, and combine the two into a guide to understanding yourself, your parenting strengths and weaknesses, your little one's personality, and how you and your child can best relate to each other. Thoughtful, informative and fun, Momstrology covers every possible mom/child sign combination, and includes valuable information for dads and caregivers too.

The Media Handbook provides a practical introduction to the advertising media planning and buying processes. Emphasizing basic calculations and the practical realities of offering alternatives and evaluating the plan, this sixth edition reflects the critical changes in how advertising in various media is planned, bought, and sold by today’s industry professionals. Author Helen Katz looks at the larger marketing, advertising, and media objectives, and follows with an exploration of major media categories, covering paid, owned, and earned media forms, including digital media. She provides a comprehensive analysis of planning and buying, with a continued focus on how those tactical elements tie back to the strategic aims of the brand and the client. Also available is a Companion Website that expands The Media Handbook’s content in an online forum. Here, students and instructors can find tools to enhance course studies such as chapter overviews, PowerPoint slides, and sample questions. With its emphasis on real-world industry practice, The Media Handbook provides an essential introduction to students in advertising, media planning, communication, and marketing. It serves as an indispensable reference for anyone pursuing a career in media planning, buying, and research.

The Complete Manual for the Do-it-Yourself Musician

From the duo behind the massively successful and award-winning podcast Stuff You Should Know comes an unexpected look at things you thought you knew. Josh Clark and Chuck Bryant started the podcast Stuff You Should Know back in 2008 because they were curious—curious about the world around them, curious about what they might have missed in their formal educations, and curious to dig deeper on stuff they thought they understood. As it turns out, they aren't the only curious ones. They've since amassed a rabid fan base, making Stuff You Should Know one of the most popular podcasts in the world. Armed with their inquisitive natures and a passion for sharing, they uncover the weird, fascinating, delightful, or unexpected elements of a wide variety of topics. The pair have now taken their near-boundless "whys" and "hows" from your earbuds to the pages of a book for the first time—featuring a completely new array of subjects that they’ve long wondered about and wanted to explore. Each chapter is further embellished with snappy visual material to allow for rabbit-hole tangents and digressions—including charts, illustrations, sidebars, and footnotes. Follow along as the two dig into the underlying stories of everything from the origin of Murphy beds, to the history of facial hair, to the psychology of being lost. Have you ever wondered about the world around you, and wished to see the magic in everyday things? Come get curious with Stuff You Should Know. With Josh and Chuck as your guide, there’s something interesting about everything (...except maybe jackhammers).

THE MONEY PIT®, hosted by Tom Kraeutler and Leslie Segrete, is a syndicated home improvement call-in radio program that airs every weekend all over North America on more than 200 stations, as well as on XM Satellite Radio. Tom and Leslie give homeowners like you real information on how to get things done the right way by alerting you to what you need to know before you start a project. Room by room, Tom and Leslie share their extensive experience in home improvement, decorating, and remodeling in kitchens, bathrooms, bedrooms, family spaces, basements, and laundry rooms. They tell you secrets about lowering your energy bills. They've got great ideas about curb appeal and making exterior maintenance easier. And they give the best counsel anywhere on home safety and security, insurance, and preparing your home for sale. Before you start your next project, get advice from Tom and Leslie.

"Bevy knows what's what, and she is the kind of woman you want in your corner. If you don't believe me . . . buy the book." --Whoopi Goldberg "Funny, wise, well-experienced, empathetic, colorful—Bevy brings the spirit of humanity wherever she goes." –Pharrell Williams From the host of the fabulous and popular show Bevelations on SiriusXM's Radio Andy channel, Bevy Smith's irreverent and inspiring memoir about learning to live a big, authentic, and unapologetic life—and how you can, too Bevy Smith was living what seemed like a glamorous dream as a fashion advertising executive, blazing a lucrative career for herself in the whitewashed magazine world. She jetsetted to Europe for fashion shows, dined and danced at every hot spot, and enjoyed a mighty roster of lovers. So it came as quite a shock to Bevy when one day, after arriving at her luxury hotel in Milan, she collapsed on the Frette bedsheets and sobbed. Years of rolling with the in-crowd had taken its toll. Her satisfaction with work and life had hit rock bottom. But Bevy could not be defeated, and within minutes (okay, days) she grabbed a notepad and started realizing a truer path—one built on self-reflection and, ultimately, clarity. She figured out how to redirect her life toward meaningful creativity and freedom. In her signature lively and infectious voice (there’s no one like Bevy!), Bevelations candidly shares how she reclaimed her life’s course and shows how we too can manifest our most bodacious dreams. From repossessing her bold childhood nature to becoming her own brand to envisioning her life’s next great destination (which will feature natural hair, important charitable giving, and a midcentury house overlooking the Pacific Ocean), Bevy invites readers along on the route of her personal transformation to reveal how each of us can live our best lives with honesty, joy, and, when we’re in the mood, a killer pair of shoes.

An Incomplete Compendium of Mostly Interesting Things

Valuation Handbook - U.S. Guide to Cost of Capital

"Being a public figure is no walk in the park – the world focuses on every move that politicians make and highlights their every mistake. "Image collapse" can befall anyone whose carefully cultivated persona is pitted against intermediaries in the broadcast booths of cable news networks or behind the photo desks of newspapers, magazines, and today's host of digital platforms. As a world-traveling "advance man," an operative who orchestrates TV- and photo-ready moments involving important political figures, Josh King has unique experience working with the reputations of officeholders, candidates and other public figures. In Off Script, King leads readers through an entertaining and illuminating journey through the Hall of Infamy of some of the most catastrophic examples of political theater of the last quarter century. Readers might remember these cringe worthy moments as simple cases of bad luck. King argues, instead, that they were symptomatic of something larger: our broad appetite for public embarrassment, the media's business imperatives in satiating that craving, and the propensity of politicians to serve it up on a platter, often by pretending to be someone they're not while strutting on the public stage. We tour recent history - King calls it "the Age of Optics"--To establish this syndrome, and then turn to the Obama administration and what Josh calls the emergence of the "Vanilla Presidency." King argues that Barack Obama has been more guarded and more protective of the presidential persona than anyone in history, and as we look to the elections of 2016 and beyond, we have to wonder: Will our future president follow Obama's example? If so, how will that influence the relationship between our nation's citizens and their leader?"--

This book was first published in 2015. Since then, the Wi-Fi technology has evolved tremendously. This 2020 edition has important updates about security. Once hackers take control of your Wi-Fi router, they can attack connected devices such as phones, laptops, computers! Fortunately, it is easy to harden the defense of your home network. There are important steps you should take in order to protect your connected devices. An exhaustive catalog of the latest home security devices has been updated in this 2020 edition. Why would you spend a lot of money to have a home security system installed when you can do it yourself! A chapter about health risks has also been added. Are EMF radiations safe? We regularly post updates on our site http://mediastimulus.com such as security alerts and the latest in Wi-Fi technology. Your feedback is always welcome http://mediastimulus.com/contact/

From the New York Times bestselling author, pro skater, satellite radio star and host of The Jason Ellis Show comes The Awesome Guide to Life, a hilarious follow-up full of no-holds-barred advice to help you get the most out of life. Drawing from his own experiences, Ellis offers the wisdom he's accumulated to help you handle any situation. Laugh-out-loud funny, told in the irreverent voice that draws legions of fans to his radio show, The Awesome Guide to Life teaches you how to create your signature look, how to party, how get laid, how to maintain a relationship, how to pick up a hooker—and more. But to maximize the opportunities that life has to offer you have to have confidence, Ellis argues—the confidence to define what you want, pursue your passion, and make your dreams a reality. In The Awesome Guide to Life Jason Ellis shows you how to develop the positive attitude you need to truly make things happen.

The Media Handbook

Insight Guides USA On The Road (Travel Guide eBook)

The Pocket Idiot's Guide to Satellite Radio

The Making of a Modern Elder

This comprehensive survey on the state of the art of SystemC in industry and research is organised into 11 self-contained chapters. Selected SystemC experts present their approaches in the domains of modelling, analysis and synthesis, ranging from mixed signal and discrete system to embedded software.

A deeply personal call to action for women of color to find power from within and to join together in community, advocating for a new corporate environment where we all belong—and are accepted—on our own terms. Women of color comprise one of the fastest-growing segments in the corporate workforce, yet often we are underrepresented—among the first, few, or only ones in a department or company. For too long, corporate structures, social zeitgeist, and cultural conditioning have left us feeling exhausted and downtrodden, believing that in order to “fit in” and be successful, we must hide or change who we are. As a former senior partner at a large global services firm, Deepa Purushothaman experienced these feelings of isolation and burnout. She met with hundreds of other women of color across industries and cultural backgrounds, eager to hear about their unique and shared experiences. In doing so, she has come to understand our collective setbacks—and the path forward in achieving our goals. Business must evolve—and women of color have the potential to lead that transformation. We must begin by pushing back against toxic messaging—including the things we tell ourselves—while embracing the valuable cultural viewpoints and experiences that give us unique perspectives at work. By fully realizing our own strengths, we can build collective power and use it to confront microaggressions, outdated norms, and workplace misconceptions; create cultures where belonging is never conditional; and rework corporations to be genuinely inclusive to all. The First, the Few, the Only is a road map for us to make a profound impact within and outside our organizations while ensuring that our words are heard, our lived experiences are respected, and our contributions are finally valued.

Experience is making a comeback. Learn how to repurpose your wisdom. At age 52, after selling the company he founded and ran as CEO for 24 years, rebel boutique hotelier Chip Conley was looking at an open horizon in midlife. Then he received a call from the young founders of Airbnb, asking him to help grow their disruptive start-up into a global hospitality giant. He had the industry experience, but Conley was lacking in the digital fluency of his 20-something colleagues. He didn't write code, or have an Uber or Lyft app on his phone, was twice the age of the average Airbnb employee, and would be reporting to a CEO young enough to be his son. Conley quickly discovered that while he'd been hired as a teacher and mentor, he was also in many ways a student and intern. What emerged is the secret to thriving as a mid-life worker: learning to marry wisdom and experience with curiosity, a beginner's mind, and a willingness to evolve, all hallmarks of the "Modern Elder." In a world that venerates the new, bright, and shiny, many of us are left feeling invisible, undervalued, and threatened by the "digital natives" nipping at our heels. But Conley argues that experience is on the brink of a comeback. Because at a time when power is shifting younger, companies are finally waking up to the value of the humility, emotional intelligence, and wisdom that come with age. And while digital skills might have only the shelf life of the latest fad or gadget, the human skills that mid-career workers possess—like good judgment, specialized knowledge, and the ability to collaborate and coach - never expire. Part manifesto and part playbook, Wisdom@Work ignites an urgent conversation about ageism in the workplace, calling on us to treat age as we would other type of diversity. In the process, Conley liberates the term "elder" from the stigma of "elderly," and inspires us to embrace wisdom as a path to growing whole, not old. Whether you've been forced to make a mid-career change, are choosing to work past retirement age, or are struggling to keep up with the millennials rising up the ranks, Wisdom@Work will help you write your next chapter.

The Awesome Guide to Life

Stuff You Should Know

Extensive revision of the best-selling text on satellite communications - includes new chapters on cubesats, NGSO satellite systems, and Internet access by satellite There have been many changes in the thirty three years since the first edition of Satellite Communications was published. There has been a complete transition from analog to digital communication systems, with analog techniques replaced by digital modulation and digital signal processing. While distribution of television programming remains the largest sector of commercial satellite communications, low earth orbit constellations of satellites for Internet access are set to challenge that dominance. In the third edition, chapters one through three cover topics that are specific to satellites, including orbits, launchers, and spacecraft. Chapters four through seven cover the principles of digital communication systems, radio frequency communications, digital modulation and multiple access techniques, and propagation in the earth's atmosphere, topics that are common to all radio communication systems. Chapters eight through twelve cover applications that include non-geostationary satellite systems, low throughput systems, direct broadcast satellite television, Internet access by satellite, and global navigation satellite systems. The chapter on Internet access by satellite is new to the third edition, and each of the chapters has been extensively revised to include the many changes in the field since the publication of the second edition in 2003. Two appendices have been added that cover digital transmission of analog signals, and antennas. An invaluable resource for students and professionals alike, this book: Focuses on the fundamental theory of satellite communications Explains the underlying principles and essential mathematics required to understand the physics and engineering of satellite communications Discusses the expansion of satellite communication systems in areas such as direct-broadcast satellite TV, GPS, and internet access Introduces the rapidly advancing field of small satellites, referred to as SmallSats or CubeSats Provides relevant practice problems based on real-world satellite systems Satellite Communications is required reading for undergraduate and postgraduate students in satellite communications courses and an authoritative reference for engineers working in communications, systems and networks, and satellite operations and management.

One of the first books to examine the status of broadcasting on its one hundredth anniversary, Radio's Second Century investigates both vanguard and perennial topics relevant to radio's past, present, and future. As the radio industry enters its second century of existence, it continues to be a dominant mass medium with almost total listenership saturation despite rapid technological advancements that provide alternatives for consumers. Lasting influences such as on-air personalities, audience behavior, fan relationships, and localism are analyzed as well as contemporary issues including social and digital media. Other essays examine the regulatory concerns that continue to exist for public radio, commercial radio, and community radio, and discuss the hindrances and challenges posed by government regulation with an emphasis on both American and international perspectives. Radio's impact on cultural hegemony through creative programming content in the areas of religion, ethnic inclusivity, and gender parity is also explored. Taken together, this volume compromises a meaningful insight into the broadcast industry's continuing power to inform and entertain listeners around the world via its oldest mass medium--radio.

Here's a one-stop marketing guide just for small museums and historic sites. In an age when many local historical associations and museums take money from their marketing budget because resources are tight, which can start a vicious cycle of reduced marketing reach, lower visitation, and then even less money for marketing, this guide will help those who need it the most expand their marketing reach as inexpensively as possible. In Marketing on a Shoestring Budget, Deborah Pitel covers the pros and cons of each promotional tool so they can judge what is best for their organization. She writes specifically for colleagues who have no formal marketing training and have to work off the “trial and error” method.

Notices to Airmen

Perfectly situated on the eastern seaboard between the Chesapeake Bay to the west and the Delaware River, Delaware Bay, and Atlantic Ocean to the east, Delaware has proven to be a hunting paradise for local sportsmen. For centuries, outdoorsmen and outdoorswomen have harvested the natural riches offered by the wild game that inhabit Delaware's deciduous forests, salt and freshwater marshes, and cultivated crop fields. Common game, such as white-tailed deer, Canada geese, and varied species of ducks have been targeted by the majority of Delaware hunters, but woodcock, quail, snow geese, crows, squirrels, and rabbits are also plentiful in Delaware and provide Delaware sportsmen with hours of hunting enjoyment each season. Join Delawarean Steven Kendus as he uses his hunting wisdom, experience, and research to preserve Delaware's hunting legacy by sharing important history, tactics, locations, tips, and tricks associated with Delaware hunting.

The Valuation Handbook – U.S. Guide to Cost of Capital, 2010 Essentials Edition includes two sets of valuation data: Data previously published in the 2010 Duff & Phelps Risk Premium Report Data previously published in the Morningstar/Ibbotson 2010 Stocks, Bonds, Bills, and Inflation (SBB) Valuation Yearbook The Valuation Handbook – 2010 U.S. Essentials Edition includes data through December 31, 2009, and is intended to be used for 2010 valuation dates. The Valuation Handbook – U.S. Guide to Cost of Capital, Essentials Editions are designed to function as historical archives of the two sets of valuation data previously published annually in: The Morningstar/Ibbotson Stocks, Bonds, Bills, and Inflation (SBB) Valuation Yearbook from 1999 through 2013 The Duff & Phelps Risk Premium Report from 1999 through 2013 The Duff & Phelps Valuation Handbook – U.S. Guide to Cost of Capital from 2014 The Valuation Handbook – U.S. Essentials Editions are ideal for valuation analysts needing "historical" valuation data for use in: The preparation of carve-out historical financial statements, in cases where historical goodwill impairment testing is necessary Valuing legal entities as of vintage date for tax litigation related to a prior corporate restructuring Tax litigation related to historical transfer pricing policies, etc. The Valuation Handbook – U.S. Essentials Editions are also designed to serve the needs of: Corporate finance officers for pricing or evaluating mergers and acquisitions, raising private or public equity, property taxation, and stakeholder disputes Corporate officers for the evaluation of investments for capital budgeting decisions Investment bankers for pricing public offerings, mergers and acquisitions, and private equity financing CPAs who deal with either valuation for financial reporting or client valuations issues Judges and attorneys who deal with valuation issues in mergers and acquisitions, shareholder and partner disputes, damage cases, solvency cases, bankruptcy reorganizations, property taxes, rate setting, transfer pricing, and financial reporting For more information about Duff & Phelps valuation data resources published by Wiley, please visit www.wiley.com/go/valuationhandbooks.
