In June 1939, shortly before her eleventh birthday, Vera Gissing escaped from occupied Czechoslovakia, leaving behind her parents, family and friends, to spend six years in Britain.Throughout the war years Vera kept a diary, recording her day-to-day experiences, her longing for her parents, her hopes and prayers for the freedom of her country. By the time she returned to Prague to set up home with her aunt in 1945, she knew that both her parents had died - her mother in Belsen, her father on a death march. She came back to England in 1949 and has lived here ever since.The memories and emotions rekindled by a reunion of the Czech school in Wales where she was educated, encouraged Vera to go back to the diaries and letters from her parents that she had not touched for forty years, and in 'Pearls of Childhood' she provides a powerful and moving account of the life of one child growing up in extraordinary circumstances.

Since the beginning of the Porsche brand, it has not only been men who accompanied and substantiated the automobile manufacturer's fame. This book devotes itself for the first time to the women who made an indelible impression on the Porsche name. From the exceptionally gifted race drivers Rita Rampinelli and Annie Bousquet and the legendary Porsche employee Evi Butz to artists like Janis Joplin or athletes like Martina Navratilova, this book invites the reader to partake in an exciting time travel through the concern's history: Contemporary photographs and documents tell the story of very special women and their Porsche sports cars. Published as part of the Edition Porsche Museum series. English and German text.

With his colorful tattoos and booming hip-hop sound track, Mike Iaconelli has turned the world of big-money competitive bass fishing upside down. In Fishing on the Edge, Iaconelli tells his own story-and it's a whopper: a Philly-born, Jersey-bred Yankee who's been stealing the spotlight from bass fishing's traditionally all-Southern anglers, attracting fans and dominating one of the fastest-growing sports in America. How did Mike Iaconelli, a college-educated kid from New Jersey, come blasting into a sport dominated by old-school stars like Gary Klein, Kevin VanDam, and Denny Brauer? How did Mike, aka "Ike," take a secret childhood passion and turn it into a profession, earning million-dollar sponsorships and a storm of media attention, ranging from ESPN's SportsCenter to profiles in The New York Times and Esquire? While Mike has attracted both fans and foes on the tour, his success speaks for itself, especially his victory at the 2003 CITGO Bassmaster Classic, the Super Bowl of competitive fishing. Forty-four million Americans fish, but no one does it quite like Mike Iaconelli. In Fishing on the Edge, he lets you in on the secrets to his extraordinary success-how he developed his "power" fishing style, how he attacks the water, positions the boat, and perseveres through those days when the bass just aren't biting. With sidebar tips that can be used by any fisherman-from using spinner baits to picking out the right rod to his no-fail "secret weapons"-this is an intensive, informative, and often raucous journey through the life of a brash young man destined to do for fishing what Tony Hawk did for the X Games: take the sport to a whole new level. At the same time, it's the compelling first-person story of a man who prepared carefully every step of the way, kept notes on every fish he ever caught, and executed the perfect plan to get to the top. A tale of passion, competition, and extreme personality, Fishing on the Edge is a book for anyone who loves the sport of fishing, wants to turn a hobby into a career, or is simply fascinated by a man's unstoppable drive to succeed.

Engine production for the typical car manufactured today is a study in mass production. Benefits in the manufacturing process for the manufacturer often run counter to the interests of the end user. What speeds up production and saves manufacturing costs results in an engine that is made to fall within a wide set of standards and specifications, often not optimized to meet the original design. In short, cheap and fast engine production results in a sloppy final product. Of course, this is not what enthusiasts want out of their engines. To maximize the performance of any engine, it must be balanced and blueprinted to the exact tolerances that the factory should have adhered to in the first place. Four cylinder, V-8, American or import, the performance of all engines is greatly improved by balancing and blueprinting. Dedicated enthusiasts and professional racers balance and blueprint their engines because the engines will produce more horsepower and torque, more efficiently use fuel, run cooler and last longer. In this book, expert engine builder and veteran author Mike Mavrigian explains and illustrates the most discriminating engine building techniques and perform detailed procedures, so the engine is perfectly balanced, matched, and optimized. Balancing and blueprinting is a time consuming and exacting process, but the investment in time pays off with superior performance. Through the process, you carefully measure, adjust, machine and fit each part together with precision tolerances, optimizing the design and maximizing performance. The book covers the block, crankshaft, connecting rods, pistons, cylinder heads, intake manifolds, camshaft, measuring tools and final assembly techniques. For more than 50 years, balancing and blueprinting has been an accepted and common practice for maximi

The author examines the politics of international airlines, from the pioneering imperial routes set up after the First World War to the global competition existing at the start of the 1980s.

Multi-time author and well-regarded performance engine builder/designer John Baechtel has assembled the relevant mathematics and packaged it all together in a book designed for automotive enthusiasts. This book walks readers through the complete engine, showcasing the methodology required to define each specific parameter, and how to translate the engineering math to hard measurements reflected in various engine parts. Designing the engine to work as a system of related components is no small task, but the ease with which Baechtel escorts the reader through the process makes this book perfect for both the budding engine enthusiast and the professional builder.

The Millionaire Christian

The Rough Guide to Hungary

Notes from Indian Country

How do you live victorious during challenging times when in reality you want to crawl into bed, pull the sheets over your head, and literally give up? Your soul is tired, but you are not ready to die. You want to live, but not like this. For Christians, the challenges we face do not dictate or define our spiritual worth. When day to day living causes doubt that a better, wealthier life exists, Christians withdraw from their spiritual investments. Therefore, instead of experiencing a spiritual bankruptcy-unable to cope during challenging times, Christians profit-live victorious during challenging times. This book contains 10 Key Spiritual Attributes that guarantees the Christian's right to prosperity and victory during challenging times. Inside this book, you will find: Review questions to help with personalizing and internalizing each Key Attribute. Affirmation statements designed to increase focus on the scriptures, promote spiritual growth, and increase faith. Three printable Journals: 90-Day Prayer Journal, End of the Day Meditation & Review Journal, and Daily Recommitment Journal. The world's answer to challenging times is financial prosperity-a millionaire's lifestyle. The Christian's answer to challenging times is the Word of God and a relationship with Jesus Christ-a Millionaire Christian's lifestyle. Demand victory and prosperity. Become a Millionaire Christian today "

The artists included upend any notion of absoluteness, whether it be in relationship to what defines Latin America, the art associated with it, or the methods of approaching its complex history. In addition to curatorial essays???all different in format and scope???this publication offers a look into the different perspectives, approaches, and scales highlighted at each of the show's venues: an encyclopedic museum (LACMA), a school (Charles White Elementary School), and an artist residency complex (18th Street Arts Center). 06Exhibition: Los Angeles County Museum of Art, Los Angeles, USA (20.08.2017 - 19.02.2018) / Charles White Elementary School, Los Angeles, USA (09.12.2017 - 06.10.2018) / 18th Street Arts Center, Santa Monica, USA (09.09.2017 - 15.12.2017).

This book examines the dramatic increase in automotive assembly plants in the former Socialist Central European (CE) nations of Czechia, East Germany, Hungary, Poland, and Slovakia from 1989 onwards. Enticed by relatively lower-wage labour and significant government incentives, the world's largest automakers have launched more than 20 passenger car assembly complexes in CE nations, with production accelerating dramatically since 2001. As a result, the annual passenger car production in Western Europe declined by more than 20% between 2001 and 2015, and alternatively in the CEE it increased by nearly 170% during this period. Drawing on case studies of 25 current and former foreign-run assembly plants, the author presents a rare historical account of automotive foreign assembly plants in the CE following this dramatic geographic shift. This book will expand the knowledge of policy-makers in Europe in relation to their pursuits of FDI and will be of great interest to scholars and students of business, economic history, political science, and development.

Do you sometimes feel J?I. Down, depressed, or unhappy? Anxious, panicky, or insecure? Guilty or ashamed? Inferior, inadequate, or worthless? Lonely, unwanted, or alone? For decades, we've been told that negative feelings like depression and anxiety are the result of what's wrong with us, like a personality defect, a "mental disorder," or a chemical imbalance in your brain. These messages create feelings of shame and make it sound like we're broken and need to be "fixed." Now, Dr. David Burns, author of the best-selling and highly acclaimed Feeling Good: The New Mood Therapy reveals that our negative moods do not result from what's wrong with us, but rather J?I what's right with us. And when you listen and suddenly "hear" what your negative thoughts and feelings are trying to tell you, suddenly you won't need them anymore, and recovery will be just a stone's throw away. In this innovative thinking great, Dr. Burns, describes a new and revolutionary high-speed treatment for depression and anxiety based on 40 years of research and more than 40,000 hours treating individuals with severe mood problems. The goal is not just a rapid and complete elimination of negative feelings, but the development of feelings of joy and enlightenment. Dr. Burns will provide you with inspiring and mind-blowing case studies along with more than 50 amazing tools to crush the negative thoughts that rob you of happiness and self-esteem. You can change the way you feel! You owe it to yourself to FEEL GREAT!

This monumental new book is the first to celebrate the greatest and most iconic paintings from the encyclopedic collections of The Metropolitan Museum of Art, New York, one of the largest, most important, and most beloved museums in the world. This impressive volume's broad sweep of material, all from a single museum, makes it at once a universal history of painting and the ideal introduction to the iconic masterworks of this world-renowned institution. More than 1,000 lavish color illustrations and details of 500 masterpiece paintings, created over 5,000 years in cultures across the globe, are presented chronologically from the dawn of civilization to the present. These works represent a grand tour of painting from ancient Egypt and classical antiquity and prized Byzantine and medieval altarpieces, to paintings from Asia, India, Africa and the Americas, and and the greatest European and North American masters. The Metropolitan Museum of Art includes and introduction and illuminating texts about each artwork written specially for this volume by Kathryn Calley Galitz, whose experience as both curator and educator at the Met makes her uniquely qualified. European and American artists include Duccio, El Greco, Raphael, Titian, Botticelli, Bronzino, Caravaggio, Turner, Velazquez, Goya, Rubens, Rembrandt, Brueghel, Vermeer, David, Renior, Monet, Van Gogh, Gauguin, Cézanne, Degas, Sargent, Homer, Matisse, Picasso, Pollock, Jasper Johns, and Warhol. The artworks are arranged in rough chronological order, without regard to geography or culture, offering a visual timeline of the history of painting, from the earliest examples on pottery jars made over five thousand years ago to canvases on which the paint has barely dried. Freed from the constraints imposed by the physical layout of the Museum, the paintings resonate anew, and this chronological framework reveals unexpected visual affinities among the works. For those wishing to experience the unparalleled breadth and depth of the Met's collection, or study masterpieces of painting from throughout history, this important volume is sure to become a classic cherished by art lovers around the world.

A handbook to one of Europe's most fascinating countries. The features of this text include: coverage of Budapest; reviews of the best places to stay, eat and drink, in every region and for every budget; a discussion of all the sights and monuments; and background on diverse topics of interest.
