simply one of the best thriller writers working today." A small Georgia town erupts in panic when a young college professor is found brutally mutilated in the local diner. But it's only when town pediatrician and coroner Sara Linton does the autopsy that the full extent of the killer's twisted work becomes clear. Sara's ex-husband, police chief Jeffrey Tolliver, leads the investigation—a trail of terror that grows increasingly macabre when another local woman is found crucified a few days later. But he's got more than a sadistic serial killer on his hands, for the county's sole female detective, Lena Adams—the first victim's sister—want to serve her own justice. The murdered body of Sorcha the prophetess is discovered following a lavish banquet at the Maguire castle in 16th-century Ireland. In the present day, a dig commences on the land, and not only is a body discovered, but a sheaf of prophecies. Who killed Sorcha? There has been a guesthouse on the Tierney land in County Fermanagh for hundreds of years. Now Tierney's Hotel is faced with a development that will block the hotel's best feature, its view of Enniskillen Castle. But the project can be stopped if there are important historical artifacts buried on the property. Enter the archaeologists. Mick's ancestor, Brigid Tierney, ran the guesthouse in the late 1500s. We see Brigid and Shane and their children at a lavish banquet at the

castle, home of the ruling family, the Maguires. The wine and ale flow freely, the harpist plays, the bard recites the Maguires' heroic deeds. But one woman has a sense of foreboding. Sorcha the prophetess sees harrowing times ahead. The Tudors of England are determined to complete their brutal conquest of Ireland. The morning after the banquet, Sorcha is found dead on a bed of oak leaves. And Shane is accused of the killing. His lawyer, Terence, conducts his defence on the hilltop that constitutes the court in 1595. Ireland has had a complex and at times woeful history, and we see that history being played out in the lives of the Tierneys, past and present. In 2018, the dig commences on Mick Tierney's land. Historical artifacts? Yes. But also a sheaf of prophecies.

And a body a bogman four hundred years old.

Toward the end of the year 1920 the Government of the United States had practically completed the programme, adopted during the last months of President Winthrop's administration. The country was apparently tranquil. Everybody knows how the Tariff and Labour questions were settled. The war with Germany, incident on that country's seizure of the Samoan Islands, had left no visible scars upon the republic, and the temporary occupation of Norfolk by the invading army had been forgotten in the joy over repeated naval victories, and the subsequent ridiculous plight of General Von Gartenlaube's forces in the State of New Jersey. The Cuban and Hawaiian investments had paid one hundred per cent and the territory

of Samoa was well worth its cost as a coaling station. The country was in a superb state of defence. Every coast city had been well supplied with land fortifications; the army under the parental eye of the General Staff, organized according to the Prussian system, had been increased to 300,000 men, with a territorial reserve of a million; and six magnificent squadrons of cruisers and battle-ships patrolled the six stations of the navigable seas, leaving a steam reserve amply fitted to control home waters. The gentlemen from the West had at last been constrained to acknowledge that a college for the training of diplomats was as necessary as law schools are for the training of barristers; consequently we were no longer represented abroad by incompetent patriots. The nation was

prosperous; Chicago, for a moment paralyzed after a second great fire, had risen from its ruins, white and imperial, and more beautiful than the white city which had been built for its plaything in 1893. Everywhere good architecture was replacing bad, and even in New York, a sudden craving for decency had swept away a great portion of the existing horrors. Streets had been widened, properly paved and lighted, trees had been planted, squares laid out, elevated structures demolished and underground roads built to replace them. The new government buildings and barracks were fine bits of architecture, and the long system of stone quays which completely surrounded the island had been turned into parks which proved a god-send to the population. The subsidizing of the state theatre and

state opera brought its own reward. The United States National Academy of Design was much like European institutions of the same kind. Nobody envied the Secretary of Fine Arts, either his cabinet position or his portfolio. The Secretary of Forestry and Game Preservation had a much easier time, thanks to the new system of National Mounted Police. We had profited well by the latest treaties with France and England; the exclusion of foreign-born Jews as a measure of self-preservation, the settlement of the new independent negro state of Suanee, the checking of immigration, the new laws concerning naturalization, and the gradual centralization of power in the executive all contributed to national calm and prosperity. When the Government solved the Indian problem and squadrons of Indian

cavalry scouts in native costume were substituted for the pitiable organizations tacked on to the tail of skeletonized regiments by a former Secretary of War, the nation drew a long sigh of relief. When, after the colossal Congress of Religions, bigotry and intolerance were laid in their graves and kindness and charity began to draw warring sects together, many thought the millennium had arrived, at least in the new world which after all is a world by itself.

These essays show how playing Skyrim, in many ways, is akin to "playing" 21st century America with its various crises, conflicts, divisions, and inequalities.
