This book is a complete guide for people who want to learn the Korean language, starting from the very beginning, and learn the alphabet and the correct sounds of vowels, consonants, and diphthongs. It was written for people who want an easy but systematic approach to the language. The writer is a non-native speaker who started learning the language from ZERO, just like you and spent years in Korea trying to reach a better level of proficiency in Korean. After a few weeks of study, you will study to recognize words, make sentences, and have simple (but miraculous) conversations with other Korean speakers!

How has Hanguk (South Korean) hip hop developed over the last two decades as a musical, cultural, and artistic entity? How is hip hop understood within historical, sociocultural, and economic matrices of Korean society? How is hip hop represented in Korean media and popular culture? This book utilizes ethnographic methods, including fieldwork research and life

timeline interviews with fifty-three influential hip hop artists, in order to answer these questions. It explores the nuanced meaning of hip hop in South Korea, outlining the local, global, and (trans)national flows of musical and cultural exchanges. Throughout the chapters, Korean hip hop is examined through the notion of buran—personal and societal anxiety or uncertainty—and how it manifests in the dimensions of space and place, economy, cultural production, and gender. Ultimately, buran serves as a metaphoric state for Hanguk hip hop in that it continuously evolves within the conditions of Korean society.

The inspiring and timely story of Sonia Sotomayor, who rose up from a childhood of poverty and prejudice to become the first Latino to be nominated to the US Supreme Court. Before Supreme Court Justice Sonia Sotomayor took her seat in our nation's highest court, she was just a little girl in the South Bronx. Justice Sotomayor didn't have a lot growing up, but she had what she needed -- her mother's love, a will to learn, and her own determination. With bravery she became the person she wanted to be. With hard work she succeeded. With little sunlight and only a modest plot from which to grow, Justice Sotomayor bloomed for the whole world to see. Antes de que la magistrada de la Corte Suprema Sonia Sotomayor llegara al máximo tribunal de nuestra nación, no era más que una niña en el South Bronx. La magistrada Sotomayor no tuvo mucho durante sus primeros años, pero sí tuvo lo que contaba -- el amor de su madre, la voluntad de aprender y su propia determinación. Con valentía se hizo la persona que quería ser. Con trabajo arduo triunfó. Con un poquito de sol en un solarcito donde crecer, la magistrada Sotomayor floreció para que todo el mundo la vea.

This book explores practical and theoretical approaches to translation in Korea from the 16th century onwards, examining a variety of translations done in Korea from a diachronic perspective. Offering a discussion of the methodology for translating the Xiaoxue (Lesser or Elementary Learning), a primary textbook for Confucianism in China and other East Asian countries, the book considers the problems involving Korean Bible translation in general and the Term Question in particular. It examines James Scarth Gale, an early Canadian Protestant missionary to Korea, as one of the language 's remarkable translators. The book additionally compares three English versions of the Korean Declaration of Independence of 1919, arguing that the significant differences between them are due both to the translators ' political vision for an independent Korea as well as to their careers and Weltanschauungen. The book concludes with a detailed analysis of Deborah Smith ' s English translation of ' The Vegetarian ' by Han Kang, which won the 2016 Man Booker International Prize for Fiction.
