IMAGINARY
CREATURES
depicted in a
people's lower

of the most
important
phenomena in their
belief systems. This
is because the
common folk in

of communication between them. The subject of Maximo D. Ramos's work is the creatures of Philippine lower mythology, as this level of folklore is called. In undertaking this study, Dr. Ramos directed his efforts to two principal

tasks: (1) making a taxonomic classification of all the beings which in his opinion fall within the framework of the problem as found in Philippine folk beliefs, and (2) correlating the implications of these beliefs, in terms of

these classifications, to education, particularly on the elementary level. The taxonomic classification is intended to help clear up the confusion that attended earlier studies of these creatures. This is

through the process

of transfer that

constantly occurs in

traditional lore, it

was thought fruitful

to point these out

and then attempt to

account for them". In

spite of the very

Christianization of

the Filipinos-

This change is bringing about an understanding of these creatures' function in our society. The present
