

South Dakota Motor Vehicle Temporary Plates

The purpose of this manual is to provide clear and helpful information for maintaining gravel roads. Very little technical help is available to small agencies that are responsible for managing these roads. Gravel road maintenance has traditionally been "more of an art than a science" and very few formal standards exist. This manual contains guidelines to help answer the questions that arise concerning gravel road maintenance such as: What is enough surface crown? What is too much? What causes corrugation? The information is as nontechnical as possible without sacrificing clear guidelines and instructions on how to do the job right.

Multistate Guide to Sales and Use Taxation: Construction provides guidance to construction contractors for dealing with the difficult sales and use tax issues inherent in their businesses, particularly if they operate in several states. In addition to the usual problems in complying with different bodies of law, administering a hodge-podge of state and local tax rates, and dealing with a variety of tax agency audit programs, the contract process and insufficient recordkeeping further complicate an already complicated task.

Congressional Record

Proceedings and Debates of the ... Congress

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

Public travel by motor vehicles is often necessary in road and street sections that have been closed for construction, repair, and/or other reasons. This authorization is permitted in order access to homes and businesses located beyond the point of closure. The MUTCD does address appropriate use of specific regulatory signs at the entrance to closed sections; however, directions for temporary traffic control measures within these areas is not included but may be needed. Interpretation and enforcement of common practices may vary among transportation agencies. For example, some law enforcement officers in Iowa have indicated a concern regarding enforcement of jurisdiction of traffic laws in these areas because the Code of Iowa only appears to address vehicles on roadways open to "public travel." Enforcement of traffic laws in closed road sections is done to maintain safety for workers and for specifically authorized road users. In addition, occasional

unauthorized entry by motor vehicles is experienced in closed road areas causing property damage. Citations beyond simple trespass may be advisable to provide better security for construction sites, reduce economic losses from damage to completed work, and create safer work zones.
