

Spanish Study Guide 1

Have you been desperately trying to learn Spanish but simply can't find the way to take the first steps? Do you dislike overly grammatical learning material and just want to learn in a natural, fun fashion? Are you looking for the most sensible, quickest and most reliable way to learn Spanish where the whole method is backed by reliable scientific research? If you answered yes to at least one of the questions above, then this guide is exactly for you. For those who've despaired of ever learning a foreign language, here, finally, is a book that will make the words stick long-term. Possibly the most feared challenge to learning Spanish is the challenge of memory; there are just too many words and too many rules to remember. For every new word we learn, we seem to forget two old ones, and as a result, fluency can seem out of reach. That is exactly why "1001 Top Spanish Words In Context" was written. According to Professor Elfrieda H. Hieber from the University of California, Berkeley, The 100 most frequent words account for about 50% of the words in a typical text and the 1000 most frequent words for about 70%. Therefore it is evident that the first 1000 words of learning a language can provide you with an immense boost on your journey to master the language. In '1001 Top Spanish Words In Context' you'll discover: The 7 most common contexts to INSTANTLY kickstart your learning process (even if you barely know a word at the moment!) The exact formula to use expressions, proverbs, and sayings like a native speaker The latest scientific research about language learning combined with a practical guide you will not find on your average online learning website The single best way to increase your reading and listening comprehension, and enable you to communicate with little or no grammar How a simple grouping of thematic vocabulary lists can take tremendous fear from getting started and make everything suddenly seem 10x easier The absolute basic 4 areas of phrases you HAVE to know to communicate in Spanish as quickly as possible (You might be missing out tremendously if you don't know these!) ...and much, much more! Even if you have already tried everything else without success, the beginner friendly and systematic choice of words and phrases are based on both practical experience as a native speaker and the latest scientific research. Thus, '1001 Top Spanish Words in Context' is your shortcut to master the hard beginning in the easiest way possible. So if you want to finally turn into a Spanish speaker nearly overnight with just one single concept, click "Add to Cart" now! ☐☐ Buy the Paperback version and get the Kindle eBook version included for FREE! ☐☐

You're about to discover over one thousand Spanish verbs exemplified in Spanish & English sentences. Learning a new language is never an easy task but it doesn't have to be hard. By learning the one thousand most used verbs in a language you give yourself a fantastic foundation to start building upon to your road to fluency. In my book, 1000 Spanish Verbs in Context, I give you over one thousand of the most common Spanish verbs used today. You are given the verb in Spanish and English with examples of the verb in a sentence, also in Spanish and English. No more confusion about how to use the verb. One thousand words are a perfect number to aim for. It is important to give yourself goals to stay motivated and to keep yourself learning. Imagine if you learnt ten words a day. Five in the morning and five at night. After only a hundred days (that's just over 3 months) you would have access to a thousand verbs in your vocabulary. That really is quite a lot and would give you an excellent grasp of the language. Far too many people expect to be speaking a new language far too quickly without putting in the time or effort. As a language teacher I can testify to seeing this too many times. I can also say that by exposing yourself to a new language daily you will surely learn it. It does take time and effort but ten words a day will give you a massive boost. If you prefer a slower pace then you could set yourself different goals. The key to learning new vocabulary is to see it in context, that means in use. Seeing how it's used will help you remember the word a lot better. It is also important to understand how that word should be used in a sentence. As a FREE bonus I have included the top one hundred most used words in Spanish. Yes, I really want you to learn this beautiful language.

Are you looking for the best way to learn French? Well, look no further. This book is, simply put, the best on the market for learning French. Why do I say that? Because this book does what language books should do - teach you the mechanics of the language, not a bunch of tourist trap phrases that you'll forget the second you leave the country.If books don't do that, then they make the critical mistake of going into far too much detail and managing to bore you half to death by virtue of the fact that they've spent 30 pages going on about three different kinds of articles. I don't do that either.What this book does do, and does very well in fact, is set you up with the knowledge that you want and need of French in a very short time frame, so that you can blast through this book and already feel like you're set up for success. This book isn't a reference, nor is it a crash course on the French language; it's both. You'll read through this book and understand, then you'll apply what you've learned (and inevitably look back at this book down the line to rehash your memory), and you'll grow even more as a French speaker.Don't waste your time and money on a subpar French book. Go with the best from the get-go.
