Our alpaca children's book 'Alpaca Coat for Ruby' was based on a true story as most of the illustrations were inspired from actual photographs of Ruby's first year of life. Have fun reading about a baby alpaca, Ruby, and how she discovers her real coat. Out of the hundreds of alpacas on the farm, none of the alpacas could compare to Ruby. She stood out on the alpaca farm, as she was quite the character with her abundance of energy and curiosity. Everybody loves Ruby! Her antics started early in life so enjoy Ruby in her first book!

This book is the story of a wild stallion named Blue Zeus, who lived in the Red Desert of Wyoming. Carol Walker, a wild horse photographer followed he and his family in the wild for years. For leaders at work, at home, and in our communities—an essential guide to nature-based leadership inspired by the wisdom of indigenous teachings and horses. Is there a common element to the challenges and crises of our modern age? If so, it must be disconnection—from each other, our planet, and the sense that our lives have purpose and meaning. Where can we turn for answers? In *Flying Lead Change*, leadership teacher Kelly Wendorf offers a new approach to leading and living inspired by two profound sources of ancient wisdom: original peoples and *Equus* (the horse), grounded in evidence-based principles of neuroscience. In her groundbreaking EQUUS training program, Wendorf teaches a way of leadership modeled on a 56 million-year-old system of the horse herd—a path that has allowed humans and horses alike to survive the kinds of global and societal threats we now face, such as climate change and mass extinction. Here she takes you step by step

through this powerful approach, including:

- *Listening*—the starting point for all leadership, in which we suspend our biases and preferences
- *Care*—explore the ancient, indigenous understanding of care that is reciprocal, empathic, and beneficial to all
- *Presence*—meeting the here and now with vulnerability, openness, and a stable foundation
- *Safety*—how a masterful leader creates a sense of group resilience and strength by “leading from behind” for the welfare of all
- *Connection*—ways to move away from coercion and force to promote genuine communication and belonging
- *Peace*—creating group harmony right now through the surprising concepts of “congruence” and “tempo”
- *Freedom*—returning to our wild nature that is inherently free, unbridled, and unbroken
- *Joy*—moving beyond temporary happiness to a state of wholehearted engagement of life, whatever the circumstances

In horsemanship, a “flying lead change” allows a running horse to respond with breathtaking grace to changing conditions. “Collectively, we need a similar physics-defying maneuver,” Wendorf writes. “This book is for the called-thought leaders, visionaries, parents, creatives, and all those who sense we are being asked to participate in humanity’s ‘flying change’ through the way we live, love, and lead.”

For the Love of Europe

Cuba

An electrifying story of the sensational murder trial that divided a city and ignited the civil rights struggle In 1925, Detroit was a smoky swirl of jazz and speakeasies, assembly lines and fistfights. The advent of automobiles had brought workers from around the globe to compete for manufacturing jobs, and tensions often flared with the KKK in ascendance and violence rising. Ossian Sweet, a proud Negro doctor-grandson of a slave—had made the long climb from the ghetto to a home of his own in a previously all-white neighborhood. Yet just after his arrival, a mob gathered outside his house; suddenly, shots rang out: Sweet, or one of his defenders, had accidentally killed one of the whites threatening their lives and homes. And so it began—a chain of events that brought America's greatest attorney, Clarence Darrow, into the fray and transformed Sweet into a controversial symbol of equality. Historian Kevin Boyle weaves the police investigation and courtroom drama of Sweet's murder trial into an unforgettable tapestry of narrative history that documents the volatile America of the 1920s and movingly re-creates the Sweet family's journey from slavery through the Great Migration to the middle class. Ossian Sweet's story, so richly and poignantly captured here, is an epic tale of one man trapped by the battles of his era's changing times. Arc of Justice is the winner of the 2004 National Book Award for Nonfiction.

"A can't-put-it-down modern Western." —Kirk Siegler, NPR Longlisted for the PEN/ESPN Award for Literary Sports Writing *The Last Cowboys* is Pulitzer Prize-winning reporter John Branch's epic tale of one American family struggling to hold on to the fading vestiges of the Old West. For generations, the Wrights of southern Utah have raised cattle and world-champion saddle-bronc riders—many call them the most successful rodeo family in history. Now they find themselves fighting to save their land and livelihood as the West is transformed by urbanization, battered by drought, and rearranged by public-land disputes. Could rodeo, of all things, be the answer? Written with great lyricism and filled with vivid scenes of heartache and broken bones, *The Last Cowboys* is a powerful testament to the grit and integrity that fuel the American Dream.

This book is the continuation of my book series from my blog www.icemanforchrist.org which is based on more than 365 references in the Bible to fear, and dread and our response to them. St Pope John Paul II knew that our God encourages us to "Be Not Afraid" and told us so. To do this we must actively seek holiness and be in the presence of our Lord and talk to Him. I recommend you develop the habit of spending 10 to 15 minutes a day with our

Lord in the Blessed Sacrament Chapel or if that is not available some other quiet place where you can be in the company of our Lord. Read the daily entry and reflect on it asking our Lord and His mother to talk to your heart and reveal to you the will of the Father and then DO IT.

Our dogs are our best friends. They are always happy to see us. They comfort us in our times of need. They also eat our shoes, stain our carpets, and embarrass us in front of our guests. Based on the runaway web phenomenon, Dog Shaming features hilarious and adorable photos of petulant pups accompanied by notes detailing their misdeeds: waking sleeping babies, eating vomit, chasing postmen, unplugging alarm clocks, peeing on stuff, etc. So share in the shaming and laugh through your frustration as Dog Shaming reminds us that unconditional love goes both ways.

The #1 New York Times bestseller answers: What if one simple change could save you from heart disease, diabetes, and cancer? For decades, that question has fascinated a small circle of impassioned doctors and researchers—and now, their life-changing research is making headlines in the hit documentary Forks Over Knives. Their answer? Eat a whole-foods, plant-based diet—it could save your life. It may overturn most of the diet advice you've heard—but the experts behind Forks Over Knives aren't afraid to make waves. In his book Prevent and Reverse Heart Disease, Dr. Caldwell Esselstyn explained that eating meat, dairy, and oils injures the lining of our blood vessels, causing heart disease, heart attack, or stroke. In The China Study, Dr. Colin Campbell revealed how cancer and other diseases skyrocket when eating meat and dairy is the norm—and plummet when a traditional plant-based diet persists. And more and more experts are adding their voices to the cause: There is nothing else you can do for your health that can match the benefits of a plant-based diet. Now, as Forks Over

Knives is introducing more people than ever before to the plant-based way to health, this accessible guide provides the information you need to adopt and maintain a plant-based diet. Features include: Insights from the luminaries behind the film—Dr. Neal Barnard, Dr. John McDougall, The Engine 2 Diet author Rip Esselstyn, and many others Success stories from converts to plant-based eating—like San'Dera Prude, who no longer needs to medicate her diabetes, has lost weight, and feels great! A Woman's Battle Plan to Serious, Specific and Strategic Prayer

Showcases the rescued horses at twenty North American sanctuaries, with photographs of former champions and retired workhorses at leisure while out in the fields.

The United Nations declared the year 2002 as "The Year of the Mountains" and encouraged countries all over the world to have environmental conferences regarding the conservation of mountains. The Conference for the Caribbean and the Americas was held in Cuba, and Clyde Butcher was invited to photograph the mountains of Cuba for the conference. He spent three weeks photographing from the Sierra Maestra of the east coast to the mogote region of the west coast--rain forests, waterfalls, and cliffs that drop off into a perfect ocean. The beauty and majesty of Cuba's natural landscape are captured in his intimate compositions, their focus on shape and light, the horizon and the sky.

You have an enemy . . . and he's dead set on destroying all you hold dear and keeping you from experiencing abundant life in Christ. What's more, his approach to disrupting your life and discrediting your faith isn't general or generic, not a one-size-fits-all. It's specific. Personalized. Targeted. So this book is your chance to strike back. With prayer. With a weapon that really works. Each chapter will guide you in crafting prayer strategies that hit the enemy where it hurts, letting him know you're on to him and that you won't back down. Because with every new strategy you build, you're turning the fiercest battles of life into precise strikes against him and his handiwork, each one infused with the power of God's Spirit. New York Times bestselling author Priscilla Shirer, widely known for her international speaking, teaching, and writing ministries, brings her new role from the 2015 film War Room into the real lives of today's women, addressing the topics that affect them most:

renewing their passion, refocusing their identity, negotiating family strife, dealing with relentless regrets, navigating impossible schedules, succeeding against temptation, weathering their worst fears, uprooting bitterness, and more. Each chapter exposes the enemy's cruel, crafty intentions in all kinds of these areas, then equips and encourages you to write out your own personalized prayer strategies on tear-out sheets you can post and pray over yourself and your loved ones on a regular basis. Fervent is a hands-on, knees-down, don't-give-up action guide to practical, purposeful praying. Pairing Steven N Meyers x-ray photographs of flowers with new age inspirational messages. The Beauty of America's Unwanted Horses

Happiness Is a Horse

Jimmy McClean is a Lakota boy—though you wouldn't guess it by his name: his father is part white and part Lakota, and his mother is Lakota. When he embarks on a journey with his grandfather, Nyles High Eagle, he learns more and more about his Lakota heritage—in particular, the story of Crazy Horse, one of the most important figures in Lakota and American history. Drawing references and inspiration from the oral stories of the Lakota tradition, celebrated author Joseph Marshall III juxtaposes the contemporary story of Jimmy with an insider's perspective on the life of Tasunke Witko, better known as Crazy Horse (c. 1840–1877). The book follows the heroic deeds of the Lakota leader who took up arms against the US federal government to fight against encroachments on the territories and way of life of the Lakota people, including leading a war party to victory at the Battle of the Little Bighorn. Along with Sitting Bull, Crazy Horse was the last of the Lakota to surrender his people to the US army. Through his grandfather's tales about the famous warrior, Jimmy learns more about his Lakota heritage and, ultimately, himself.

Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.
