The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be

found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

This volume presents essential aspects
of Mediterranean politics to be
reconsidered in the light of the Arab
upheavals since 2010. The focal point
of the book is the question in how far
European-Mediterranean relations are
challenged by the various developments.
It explores the relationship between
security and democracy within the Arab
countries and in European-Mediterranean
relations. The ambiguity between the
promotion of democratic values and the
preservation of common interests in
cooperation in economic and security
affairs is stirred up by changing
political actors and new conflictual

constellations inside the Arab countries. All these changes evoke new challenges for all areas of the European-Mediterranean cooperation. Thus, the volume assembles contributions from different angles on the re-formulation of the European Neighbourhood Policy as well as the Democracy Assistance towards the Southern Mediterranean. It discusses the major security issues of a cooperative security architecture, counter-terrorism action, migration control and security sector reform in order to explore the relevant challenges in the field. The contributions analyse the recent developments and challenges, provide critical insights into those fields and endeavour to provide some proposals for improving Mediterranean cooperation on democracy and security. This book was published as a special issue of Democracy and Security.
