9789354881008 | The Presented book covers the questions of the UPSC Civil Service Examination of General Studies in Topic-wise Solved Papers of the last 27 years (1995-2021) & CSAT (2011-2020). All chapters have been prepared according to the previous year's UPSC Civil Service Prelims Paper-I & II. The book has also been Incorporated Information & Instructions for Civil Service Exam; Plan & Schemes of Examinations, Tips & Strategies along with Time Management for Civil Services Exams Preparation. Explanations are error free as well as very precise. Asked question are arranged in topics such as History of India, Physical, Indian & World Geography, Indian Polity & Governance, Economic & Social Development, General Issues on Environment, Ecology, Bio-diversity & Climate Change, General Science, General Knowledge and Current Events; In CSAT question papers are categories such as General Comprehension, Interpersonal Skills, Communication & Decision Making, Basic Numeracy, Mental Ability, Analytical & Logical Reasoning and English Language. The book also provides list of 30 Years UPSC Main Essay Questions Papers Section-wise along with 350+ Probable Essay Topics. This book provides an idea of nature of questions that has been asked in the previous year's exams. Recommended by Faculties and Read by UPSC Toppers.

Collection of twenty-one papers presented at an international symposium on the theme "cultural relations between Portugal and Goa" at the University of Cologne, 29 May-2 June 1996; chiefly covers the 16th-18th centuries.

World Bank Discussion Paper No. 367. Many developing countries enforce seed regulations and other policies that obstruct private companies from operating and delivering new technology. This volume presents recommendations and selected papers from an international workshop organized by the World Bank in 1995 to review seed policies and to develop recommendations on ways of easing entry barriers for certain varieties of seeds in developing countries. The papers and discussions identified reforms to speed the flow of private seed technology to these countries, with a particular focus on reforms and their impacts in Bangladesh, India, Peru, and Turkey.

Political Science Abstracts is an annual supplement to the Political Science, Government, and Public Policy Series of The Universal Reference System, which was first published in 1967. All back issues are still available.

Current Issues and Historical Background

Peaceful Intervention in Intra-State Conflicts

Intensive use of groundwater has resolved the demand for drinking water and, through irrigation, has contributed to the eradication of malnourishment in many developing countries. The spectacular worldwide increase in groundwater use in the last decades, especially in arid and semi-arid regions, has been a silent revolution carried out by millions of small farmers. In some instances, groundwater abstraction has caused problems of quality degradation, excessive drawdown of groundwater levels, land subsidence, reduction of spring and baseflows or degradation of groundwater-dependent ecosystems. Most of these problems could be anticipated, mitigated, or even avoided with more active water agencies, adequate regulations and users' participation in management. Groundwater Intensive Use contains a selection of papers presented at a symposium held in December 2002 in Valencia, Spain. It constitutes a step forward in creating a greater worldwide awareness of the relevance of groundwater in water resources policy. The book presents new ideas and accounts of recent advances in technical, economic, legal, administrative and political issues. It addresses groundwater development to ecosystems sustainability, through different or complementary approaches. A wide series of case studies from North and South America, Europe, South Asia and North and Sub-Saharan Africa cover the various issues. These case studies represent countries with a wide diversity of social circumstances, from areas in which development is emerging, to communities with a long history of successful groundwater use.

Test Prep for UGC-NET/JRF/SET Geography

A Companion to South Asia in the Past provides the definitive overview of research and knowledge about South Asia's past, from the Pleistocene to the historic era in India, Pakistan, Sri Lanka, Bangladesh and Nepal, provided by a truly global team of experts. The most comprehensive and detailed scholarly treatment of South Asian archaeology and biological anthropology, providing ground-breaking new ideas and future challenges Provides an in-depth and broad view of the current state of knowledge about South Asia's past, from the Pleistocene to the historic era in India, Pakistan, Sri Lanka, Bangladesh and Nepal A comprehensive treatment of research in a crucial region for human evolution and biocultural adaptation A global team of scholars together present a varied set of perspectives on South Asian pre- and proto-history

Research results: performances assessment; Research results: design and operation of irrigation systems; Research results: policy, institutions, and management; Research results: health and environment; Training and institutional strengthening; Conclusions: outputs, impacts, and future directions.

Enduring violence

An ILO Compendium of Data

On Peace, Place, And Postcoloniality

Methods, Applications, and Results

Located in the war-torn eastern province of Sri Lanka, this book provides a rich ethnography of how Tamil-speaking communities in

Batticaloa live through and make sense of a violence that shapes everyday life itself. The core of the book comes from the author's two-year close interaction with a group of (mainly women) human rights activists in the area. The book describes how the activists work in clandestine, informal ways to support families whose loved ones have been threatened, disappeared or killed and how they build networks of trust within the context of everyday violence. As Sri Lanka faces up to the enormity of the task of 'post-war reconciliation', this book aims to create a wider conversation about grief, resistance and healing in the context of violence and its long afterlife. In the early 1880s a disastrous plant disease diminished the yields of the hitherto flourishing coffee plantation of Ceylon. Coincidentally, world market conditions for coffee were becoming increasingly unfavourable. The combination of these factors brought a swift end to coffee cultivation in the British crown colony and pushed the island into a severe economic crisis. When Ceylon re-emerged from this crisis only a decade later, its economy had been thoroughly transformed and now rested on the large-scale cultivation of tea. This book uses the unprecedented intensity and swiftness of this process to highlight the socioeconomic interconnections and dependencies in tropical export economies in the late nineteenth century and it shows how dramatically Ceylonese society was affected by the economic transformation.

Sri Lanka's conflict and peace processes have gained global attention during recent years. This book presents a comprehensive insight into the politics of reconstruction and development in Sri Lanka, focussing on the ceasefire which was negotiated between the Government of Sri Lanka and the separatist Liberation Tigers of Tamil Eelam in 2002 and which lasted until 2006. Based on extensive empirical fieldwork, the book provides a unique ethnographic account of this specific historical period of peace. It explains how development was shaped by interplay and cooperation, but also by the disparities and conflicts between a variety of local and intervening actors, including local organizations and civil society, LTTE, Government of Sri Lanka, international development cooperation and the Tamil diaspora. Starting from an interdisciplinary viewpoint, the author integrates findings from development sociology with new perspectives on transnationalization and the migration-development-nexus. This provides a fine grained analysis of the emerging development visions and perspectives in relation to transnationalization and global interconnectedness. Making an innovative contribution by linking the analysis of local reconstruction with contemporary phenomena of transnationalization, diasporization, and globalization, this book will appeal to those with an interest in Sociology, Social Anthropology and Political Science.

The Routledge Handbook of Pidgin and Creole Languages offers a state-of-the-art collection of original contributions in the area of Pidgin and Creole studies. Providing unique and equal coverage of nearly all parts of the world where such languages are found, as well as situating each area within a rich socio-historical context, this book presents fresh and diverse interdisciplinary perspectives from leading voices in the field. Divided into three sections, its analysis covers: Space and place - areal perspective on pidgin and creole languages Usage, function and power - sociolinguistic and artistic perspectives on pidgins and creoles, creoles as sociocultural phenomena Framing of the study of pidgin and creole languages - history of the field, interdisciplinary connections Demonstrating how fundamentally human and natural these communication systems are, how rich in expressive power and sophisticated in their complexity, The Routledge Handbook of Pidgin and Creole Languages is an essential reference for anyone with an interest in this area.

This title provides a compendium to recent work in empirical banking. It follows the structure in 'The Microeconomics of Banking' by Xavier Freixas and Jean Charles Rochet in arranging the relevant methodologies, applications and results to achieve a coherent synthesis between available theory and supporting empirics.

With reference to West Asia and North Africa.

The book The new AFCAT Guide with 13 past papers (2011 - 2017) covers: • Theory portion consisting of 4 Comprehensive Sections on: General Awareness, Verbal Ability in English, Numerical Ability, Reasoning and Military Aptitude Test (including Spatial Reasoning). • Detailed theory along with solved examples and short-cuts to solve problems; • The Verbal Ability in English section also covers the Cloze Test as asked in the past exam. • The General Awareness section (thoroughly updated) covers questions on Current Affairs, Sports, Defence, History, Geography, General Politics, Basic Science, Arts & Culture etc. • The Reasoning and Military Aptitude section includes Verbal and Non-verbal Reasoning, Spatial Ability, Rotated Blocks, Hidden Figures etc.. • An exhaustive question bank has been provided at the end of each chapter in the form of an exercise. Solutions to the exercise have been provided at the end of each chapter.

Water Harvesting and Supplemental Irrigation for Improved Water Use Efficiency in Dry Areas

Social, political, economic and constitutional developments are considered as well as the evolution of science and arts in the development process. This is in accordance with the Sri Lankan tradition of seeing the world as a connected whole."--BOOK JACKET.

Introduction; Importance of rice; Rice growth and production; Rice environments; Rice around the world; International Research; Important conversion factors, by country; Rice-related databases.

Successful reforms need coherent approaches in which a range of stakeholders are willing to share responsibilities and resources in order to achieve the ultimate outcome of poverty reduction in developing countries. This book provides a framework to access intended outcomes generated by decentralization measures implemented in Asian and African countries. It is based on comparative analyses of different experiences of decentralization measures in six developing countries.

This work is intended for advanced readers interested in methods of sustainable land management - the prevention and control of land degradation. It offers a coherent view of the situation concerning land degradation and the human response to the problem. It is generally recognized that technological solutions alone cannot solve the problems of land degradation. This book discusses the role of land use and land management policies, programmes, insitutional innovations, and economic incentives for the control and

prevention of land degradation. Special attention is given to legal issues at the international level and in individual countries.

Well over a million people of Sri Lankan origin live outside South Asia. The Encyclopedia of the Sri Lanka Diaspora is the first comprehensive study of the lives, culture, beliefs and attitudes of immigrants and refugees from this island. The volume is a joint publication between the Institute of South Asian Studies, NUS, and Editions Didier Millet. It focuses on the relationship between culture and economy in the Sri Lanka diaspora in the context of globalisation, increased transnational culture flows and new communication technologies. In addition to the geographic mapping of the Sri Lanka diaspora in the various continents, thematic chapters include topics on "long distance nationalism", citizenship, Sinhala, Tamil and Burgher diaspora identities, religion and the spread of Buddhism, as well as the Sri Lankan cultural impact on other nations.

Have we reached an end to the era of peaceful third party intervention in conflict management and resolution? In the 1990s, with the ending of the Cold War, the intervention of third parties as a non-violent means of negotiating settlements of intra-state conflicts gained prominence but the emphasis in the twenty-first century has been increasingly on military responses. Peaceful Intervention in Intra-State Conflicts: Norwegian Involvement in the Sri Lankan Peace Process is an in-depth, impartial discussion on the background, decision making processes and procedures and related actions in the Norwegian facilitated peace process in Sri Lanka that gradually shifted towards a military solution. It provides the reader with evidence based comprehensive analysis on the attempts of peaceful third party intervention in a complex ethno-separatist intra-state conflict.

Qaidu (1236-1301), one of the great rebels in the history of the Mongol Empire, was the grandson of Ogedei, the son Genghis Khan had chosen to be his heir. This book recounts the dynastic convolutions and power struggle leading up to his rebellion and subsequent events.

Ismail demonstrates that the problems in Sri Lanka raise fundamental concerns regarding the relationship between democracies and minorities. He redefines the concept of minority, not as numerical insignificance, but as conceptual space where distinction without domination can be achieved.

This book presents recent findings from the South Asian region (SA), broadly including groundwater studies on (a) quantity, (b) exploration, (c) quality and pollution, (d) economics, management and policies, (e) groundwater and society, and (f) sustainable sources. It offers a compilation of compelling, authentic insights into groundwater scenarios throughout the water-stressed South Asia region. Comprising Afghanistan, Bangladesh, Bhutan, India, Myanmar, Nepal, Pakistan, and Sri Lanka, it is the most densely populated region in the world: It occupies approximately 4% of the global land area but supports more than 25% of the global population. The SA region now faces an acute shortage of fresh water due to a rapid rise in water demand and changes in societal water-use patterns. Combining essential advances and perspectives, this book offers a valuable resource for all scientists, planners and policymakers who are interested in understanding and developing the SA and other related areas. The period between 2001 and 2006 saw the rise and fall of an internationally supported effort to bring a protracted violent conflict in Sri Lanka to a peaceful resolution. A ceasefire agreement, signed in February 2002, was followed by six rounds of peace talks, but growing political violence, disagreements over core issues and a fragmentation of the constituencies of the key parties led to an eventual

breakdown. In the wake of the failed peace process a new government pursued a highly effective 'war for peace' leading to the military defeat of the LTTE on the battlefields of the north east in May 2009. This book brings together a unique range of perspectives on this problematic and ultimately unsuccessful peace process. The contributions are based upon extensive field research and written by leading Sri Lankan and international researchers and practitioners. The framework of 'liberal peacebuilding' provides an analytical starting point for exploring the complex and unpredictable interactions between international and domestic players during the war-peace-war period. The lessons drawn from the Sri Lankan case have important implications in the context of wider debates on the 'liberal peace' and post conflict peacebuilding - particularly as these debates have largely been shaped by the 'high profile' cases such as Kosovo, Afghanistan and Iraq. This book is of interest not only to Sri Lanka specialists but also to the wider policy/practitioner audience, and is a useful contribution to South Asian studies.

A Companion to South Asia in the Past

This book provides an overview of the development of a small country, which on the one hand, is unique, and on the other hand, is also an interesting reflection and microcosm of the global economy. Sri Lanka's development is one of the contrasts, complicated by social conflicts and ethnic tensions. Social, political, economic and constitutional developments are considered.

This is in accordance with the Sri Lankan tradition of seeing the world as a connected whole.

The Democratic Socialist Republic of Sri Lanka (formerly known as Ceylon) is an island in the Indian Ocean approximately 18 miles off the south-eastern coast of India with a population of about 19 million. Density is highest in the south-west where Colombo, the country's main port and industrial centre, is located. Sri Lanka is ethnically, linguistically, and religiously diverse.

Sri Lanka follows a non-aligned foreign policy. It participates in multilateral diplomacy, particularly at the United Nations, where it seeks to promote sovereignty, independence, and development in the developing world.

Produced from the LABORDOC database, lists 953 English-language publications, technical reports, working papers and other documents, produced at ILO headquarters or in ILO field offices, or prepared in connection with ILO programmes.

This examination of Sri Lanka's ethnic and religious minorities links the past with the present through a treatment of Sinhala-Buddhist fundamentalist development in the late nineteenth century and its hegemony in the late twentieth.
