This book explores the implications of talent management in four practical settings across the globe. Focusing on countries in the Asia-Pacific region, Central and Eastern Europe, Latin America and within the Commonwealth of Independent States (CIS), the authors illustrate how multinational corporations (MNCs) can benefit from talent management practices and as a result, develop a strategy of organizational leadership. Offering empirical examples from each region, this book examines how economic and cultural contexts influence talent management. Talent Management in Global Organizations discusses successful cases in different cross-cultural settings, and aims to inspire companies around the world to develop and implement talent management practices effectively.

Air conditioning in vintage cars often falls into disrepair, as owners figure that it never really worked all that well when it was new, and assume that rejuvenation would be prohibitively expensive. In his new book, Just Needs a Recharge: The Hack Mechanic Guide to Vintage Air Conditioning, Rob Siegel details exactly what's needed to resurrect long-dead air conditioning in a vintage car, or install a/c in a car that never had it. In a level of detail not found in any other automotive a/c book, Rob reveals what you need to know about flare and o-ring fittings,

upgrading to a rotary-style compressor and a parallel-flow condenser, making or specifying custom hoses, and selecting refrigerant so that the a/c blows cold enough to be usable. Although the book draws from Rob's BMW experience (with specifics for the BMW 2002 and 3.0CS), and concentrates on vintage a/c systems (those that have flare fittings and originally contained R12), most of the information applies to any air conditioning system, foreign or domestic, vintage or modern. Written in Rob's entertaining Hack Mechanic narrative voice, and including 240 photographs and illustrations, the book covers theory, the choice of refrigerant (R12, R134a, other EPA-approved, non-EPA-approved), legality, tools for a/c work, fittings and sizes, the compressor, the evaporator assembly and expansion valve or orifice tube, the condenser and fan, the receiver/drier or accumulator, electrical connections and compressor cycling, connecting and using manifold gauges, the basic steps for a/c rejuvenation, from-scratch a/c retrofit, making and installing hoses, flushing the system, pressure-testing and leak detection, evacuating and charging the system troubleshooting, and other things that heat up the cabin.

Andreas and the Ambiguity of Courtly Love

A stunningly illustrated picture book full of mystery and suspense, from the bestselling author of THE STORM WHALE and GRANDAD'S ISLAND.

A resolution to the vexed problem whether a troubadour's love is erotic or spiritual is offered by Paolo Cherchi through a new reading of Andreas Capellanus' De Amore (written around 1186-1196). He suggests that Andreas, using a rhetorical strategy that creates ambiguity, condemns courtly love because its claim that passion generates virtue is untenable and deceitful. Although Andreas grasped the core of the courtly love 'system,' namely, the relation between passion and ethics, he failed to consider the notion of mezura, that courtly virtue through which troubadours transformed nature into culture, and erotic passion into social discourse. Cherchi offers an innovative interpretation and a close reading of selected poems. He traces the history of Provençal lyric poetry, highlighting some of the significant personalities and movements.

Darwin. Now the two young Americans, Sophie and David, are making a movie there. What do they find? No one writes about cars like Jeremy Clarkson. Jeremy appreciates the more important things in life. Don't worry, we'll get to the cars. Eventually. But first we should consider: - The case for invading France - The overwhelming appeal of a nice sit-down - The inconvenience of gin and tonic - Why clothes are no better than ice cream - Spot-welding with the Duchess of Kent - And why Denmark is the best place in the world Armed with conviction, curiosity, enthusiasm and a stout pair of trousers, Jeremy hurtles around the world in search of answers to life's puzzles.

On Feb. 10, 2011, the U.S. and the Rep. of Korea (Korea) exchanged the legal texts reflecting the agreement they concluded on Dec. 3, 2010, to modify certain provisions of the 2007 U.S.-Korea Free Trade Agreement (FTA) regarding the passenger vehicle sector. These texts (AA) are to provide additional market access for U.S. exports to Korea, in particular by addressing non-tariff measures (NTMs) affecting U.S. exports. This report focuses on the impact of the AA and provides additional analysis of the effects of the reduction or removal of NTMs. U.S. exports of passenger vehicles to Korea would likely rise significantly in the long term under the provisions of the 2007 FTA as modified by the AA.
