

Sssts Test Questions

This book replaces most earlier HSE guidance on licensed asbestos removal work. It is aimed at businesses holding a licence to work with asbestos, either repairing or removing asbestos-containing materials (ACMs), supervising such work, holding an ancillary licence or providing training on asbestos. Employers who carry out work with asbestos insulation, asbestos insulating board using their own employees on their premises, who are exempted

from the requirement to hold a licence, also need this guidance. The guidance is split into eight chapters, covering different aspects of licensed work with ACM's. It provides an overview of asbestos and its health effects, the law and how to work safely with asbestos. "Explains construction site health, safety and environment standards to ... supervisors, first line managers and owners of small construction companies. ... Site supervision simplified links to Toolbox talks. Together these are the official publications for CITB's

Site Safety Plus Site supervisors' safety training scheme (SSSTS) ... This CD-ROM version of the publication ... features easy to use and understand navigation controls and includes a full search facility. Individual pages can be printed as required. The content has been updated for 2015 to reflect legislation changes, including the new CDM regulations and TG20 good practice guidance for tube and fitting scaffolding."--Container. This publication sets out the statutory requirements for signing, lighting, and guarding at street works and road works. This is the core reference manual for utility companies, local authorities,

street work contractors and others whose day-to-day business involves street works (works by statutory undertakers and other utility companies etc) and road works (works to maintain or repair road infrastructure). The code, which covers all of the UK and includes national variations, is now compulsory for highway/road authorities in England, Wales and Northern Ireland. It applies to all single carriageway roads and dual carriageways with a speed limit of 40 mph or less. The code is now divided into three parts: Basic Principles, Operations, and Equipment and Vehicles;

site layout diagrams have been redrawn to make them easier to understand. There is: increased emphasis on using risk assessment and guidance on what to consider in such assessments; strengthened guidance on providing for pedestrians and cyclists and new guidance on traffic control measures related to road closures, one-way working and temporary road obstructions; enhanced advice on other traffic control measures including works near tramways and railways, and mobile/short duration works; and updated advice on high visibility clothing and the signing and

conspicuity requirements for work vehicles. Effective from 1 October 2014 when it will supersede the 2001 edition (ISBN 9780115519581).

Contains the Control of Asbestos Regulations 2012, with the various sections of the Health and Safety Executive's Approved code of practice (ACOP) and associated guidance notes inserted at the relevant points.

opportunities posed by chemistry education are critically discussed, highlighting the pitfalls that can occur in teaching chemistry and how to circumvent them. The main topics discussed include best practices, project-based education, blended learning and the role of technology, including e-learning, and science visualization. Hands-on recommendations on how to optimally implement innovative strategies of teaching chemistry at university and high-school levels make this book an essential resource for anybody interested in either teaching or learning chemistry more effectively, from experience chemistry professors to

The Award in Education and Training is the threshold

qualification for anyone wanting to teach in a wide range of contexts including the further education and skills sector, workplace learning, offender learning and adult and community settings. This user-friendly text is your guide to all the units of the Award and is a key text for the course.

Structured around the teaching, learning and assessment cycle, it includes full coverage of all units as well as information relevant to the Learning and Development units. Examples, activities and checklists help link theory to practice. The text is written for all learners and all awarding organisations. This revised edition is updated for the new qualification requirements and

the Professional Standards for Teachers and Trainers. • A key text for the new Award in Education and Training. • Contents specifically follow the teaching, learning and assessment cycle, and match the qualification requirements. • Readable, relevant and easy to understand. • Provides valuable support for prospective teachers and trainers with little or no previous experience. • An excellent foundation for those considering or progressing to further teaching qualifications.

?Ann Gravells is leading a CPD Day on 22nd June in London. The event will focus on Raising quality and improving practice in the FE and Skills sector and is a rare opportunity to learn from

leading experts. There will only be a limited number of seats available, so book your place here to avoid disappointment.

A visual resource for students providing training in construction crafts. It covers the Craft Certificate requirements, giving information that students need to pass their exam, with exam style multiple-choice assessment questions, which provide extra support for revision and exam preparation.
