Hoe ver sal jy gaan om die meisie van jou drome te beïndruk? Wat sal jy doen om jou beste vriend se lewe te red? Rudi en Steven maak 'n snaakse video. 'n Dom video wat jy maak om 'n meisie te beïndruk. Kort voor lank het hulle hope aanhangers op YouTube. Hulle kry 'n bynaam - die Vidiote. Maar dan ontmoet hulle vir Marco. Marco het opwindende en gevaarlike planne. Planne om die Vidiote se toertjies beter en waaghalsiger te maak. En dan loop dinge skeef ...

What do the sinking of the Bismarck, the Monmouth Rebellion, artificial stone statues, the Battle of Algiers, revolt in Maryland, rotten borough corruption, temperance agitation, eccentric millionaires, the Victorian Poor laws, Peak Frean biscuits, boll weevil control, bell ringing, theatre criticism, pregnant dairymaids, suicidal poets, African shellfish, corrupt and treacherous nobles, lavish goldfields funerals, vagrant ex-publicans, escaped lunatics, and the doping of racehorses have in common? People called Coad or Coode were involved, quietly doing their jobs. This book tells the story of the ancient surname of Code and how a network of descendants unravelled the descent of unrelated Coads and their Coode cousins, who have lived as neighbours wherever the Cornish congregated. It has a comprehensive genealogy and geography of the 5000 or so people of West Country descent who have borne the name up till 1911. It gives brief biographies of thirty or so eminent or eccentric individuals.

Have You Seen Zandile? is a wonderful South African resource, still as fresh and absorbing as when it was first written. Perfectly scripted, and with Gcina Mhlophe's sure instinct for stagecraft, it recounts the very personal story of Zandile, who is snatched away from her grandmother's loving care and taken to live with her matriarchal family in rural Transkei. Moving, funny and convincing, full of Zandile's shrewd, youthful insights, the play offers an illuminating window into the 1960s world that it depicts, with its issues of white dominance, rural hardship and black female repression. Have You Seen Zandile? is already an established favorite in performance circles, and is fast becoming a South African classic.

Systemic Functional Linguistics is a functional model of language inspired by the work of Saussure, Hjelmslev, Whorf, and Firth. SFL was developed by Michael Halliday and his colleagues in the 1960s and has grown into a widely studied and research field, with growing interest in China, Latin America, and North America. This new five-volume collection from Routledge focuses on the foundational papers underlying SFL theory and practice and illustrative papers that have inspired succeeding work.

This world has changed. The future has changed. Childhood is changing. Raising children has never been more challenging - or potentially rewarding. It is becoming increasingly obvious that the world into which our young children will enter as adults, somewhere between 2020 and 2030, will be nothing like the world their parents grew up in, or even the world we currently inhabit. We need a better understanding of the world of the future in order to prepare our children and to 'future-proof' them. Future-proof Your Child is a very different kind of parenting book. It contains many useful, practical hints and tips but also focuses on the context for parenting and child development today. It convinces 21st-century parents of the need to change their approach to parenting future generations and is relevant, accessible, practical and inspirational. Future-proof Your Child highlights the critical importance of making choices, having conversations and consciously connecting with tomorrow's children today.

white guy, distraught at crime and general bungling. But he also holds a rogue view â?? he sees up-sides to Africa, not just the sunshine and the wonderful vegetation, but the human factor. As Bart rollercoasters through the highs and lows of everyday life, South African style, he is convinced there is a way, somewhere, to grow the highs and shrink the lows. The trail propels him past the wrong end of various gunbarrels, the clutches of a right-wing rebel army, reluctant godfatherhood to a mixed-up teenager with an honor-grudge, and the alluring ankles of the woman he'd never dreamed he could dream of. The leads he has been looking for finally take shape when he meets a shantytown visionary. Bart remains skeptical. Everyone knows Africa needs a miracle. Who is this squatter-shack savant to claim that the morass is just an error, from which the next-phase of human advance will emerge? He must be wrong; but where, exactly, is the flaw in his startlingly simple recipe? Magenta is a utopian thriller â?? the likes of which you are guaranteed never to have encountered

Rainbow Scars

With a simple, witty story and free-spirited illustrations, Peter H. Reynolds entices even the stubbornly uncreative among us to make a mark -- and follow where it takes us. Her teacher smiled. "Just make a mark and see where it takes you." Art class is over, but Vashti is sitting glued to her chair in front of a blank piece of paper. The words of her teacher are a gentle invitation to express herself. But Vashti can't draw - she's no artist. To prove her point, Vashti jabs at a blank sheet of paper to make an unremarkable and angry mark. "There!" she says. That one little dot marks the beginning of Vashti's journey of surprise and self-discovery. That special moment is the core of Peter H. Reynolds's delicate fable about the creative spirit in all of us.

Leading in a Changing World

"Fascinating - A teaching book that I couldn't put down!" If the world is changing, leadership needs to change. The world is changing. It is that simple; it is that complex. Through our work in TomorrowToday Global we have been at the very forefront of this intersection of a changing world and changing leadership across the broad scope of industries and sectors spanning all corners of the globe. And what we see concerns us. We see leaders who are frustrated that they can't mobilize their teams to adapt quickly enough to change. We see leaders who feel the horizon of their strategic plans rushing ever closer, resulting in decision making that often feels closer to guesswork than science. We see leaders battling to manage their teams, to keep and get the most of talent, to develop succession plans and to ensure everyone is focused on the same outcomes. We see leaders exasperated at the lack of initiative their teams have, and yet

equally bound by increasing regulation, bureaucracy and inertia. We see leaders struggling to lead. We see leaders unable to admit that they're struggling to lead. Maybe the symptoms we've just listed don't all apply to you, or maybe you have a sense that your organization's problems lie elsewhere. Whatever the specific issues are, we're sure you'll agree with us that leadership isn't what it used to be. And a big part of the reason for this is that leadership itself is changing - just as the world around us is changing in dramatic ways. The leadership theory that underpins our practices of leadership is in need of review. For the most part, the way in which we review and measure leadership practice no longer works. The only way to change all this is for leaders (and those tasked with the responsibility of leadership development) to step back, rethink things and be willing to change. It means asking searching questions, challenging assumptions and revisiting formulae that have, for a very long time, worked rather well. This is easier said than done. But it can be done, and this is what this book is about. Future-focused leaders will gain insight into what it takes to succeed in a time of disruptive change. The book provides both a new lens

through which to see the world and leadership, as well as practical tools and tips to help you make the journey towards a new leadership style and approach.
